### Digital Forensic Photography and Latent Fingerprint Detection and Recovery (Course #11-8)

**Training  
Opportunity**

**For Patrol Officers, Detectives, and  
Fire Investigators**

**Day 1** of this course presentation is an introduction to crime scene photography with emphasis on function and use of basic photography fundamentals, sequencing of crime scene photography, and familiarization with camera equipment and function.  
**Day 2** is an introduction to latent fingerprint detection and recovery for field personnel. This course is designed to give students greater insight into fingerprints allowing them to identify areas and items that might contain fingerprints. Field personnel will also gain greater confidence in their latent processing techniques during practical exercises.

**Primary Instructors:**  
*Jodie Dewey  
and  
Lori Preuninger*

**Course Dates:**

**August 18, 2011 / 0800-1700  
August 19, 2011 / 0800-1700**

**Location:**

Issaquah Police Department  
130 E. Sunset Highway  
Issaquah, WA 98027

*Providing Excellence  
in Training and  
Education*

**Course Cost: \$240. Course Length: 2 days**

**Class size is 15-30 students**

**Students must register and/or cancel by August 4, 2011**

**Students will need to bring their camera with instruction manual and a latent print kit, if issued.**

**Course Goals:**

- Develop an understanding of the basic principles of photography;
- Ensure a systematic approach to proper crime scene photography and documentation;
- Develop a basic understanding of friction ridges and how these impressions are deposited;
- Learn best practices and tips for successful latent processing and evidence collection.
