Summary

The Private Lands Hunting Opportunities (PLHO) Hunt Area Access, Hunt Area Boundary, and Safety Zone feature classes provide area and point location, project enrollment information, huntable game, and other general descriptive data for the Washington Department of Fish and Wildlife's (WDFW) participating private lands hunting opportunity areas.

Description

The Private Lands Hunting Opportunities (PLHO) Hunt Area Access, Hunt Area Boundary, and Safety Zone feature classes provide area and point location, project enrollment information, huntable game, and other general descriptive data for the Washington Department of Fish and Wildlife's (WDFW) participating private lands hunting opportunity areas.

WDFW's Private Lands Biologists input contractual information, hunting opportunity, and locational information into internal databases from which a denormalized table is generated and joined to the spatial features.

For more information see: http://wdfw.wa.gov/hunting/hunting_access/private_lands/.

Use limitations

For access purposes properties should be considered no longer enrolled beyond the contract end date (ContractEndDate). Hunter should familiarize themselves with the location, restrictions and other details of the private lands hunting opportunity.
