☐ Planting. Tree Species: ________________________

☐ Natural. Include a Natural Regeneration Plan

☒ Not required because of one or more of the following:

☐ I am converting some or all of this land to non-forest land in the next 3 years or lands are exempted under WAC 222-34-050.

☐ Individual dead, dying, down, or wind-thrown trees will be salvaged.

☐ Trees are removed under a thinning program reasonably expected to maximize the long-term productivity of commercial timber.

☐ I am leaving at least 100 vigorous, undamaged, and well-distributed saplings or merchantable trees per acre.

☐ An average of 190 tree seedlings per acre are established on the harvest area and my harvest will not damage them.

Subjects Discussed:
Landowner representatives requested a pre-application review of the planned expansion of the Cascade Quarry. We looked at 2 areas planned for expansion. The 1st is mostly unmerchantable 2nd growth hardwoods. The area is bounded by existing roads within the current quarry (see attached ortho photo, marked/hatched area). Applicant intends to chip all of the wood to use for reclamation projects for the quarry. The 2nd area (unhatched area) is mostly merchantable conifer.

Decisions Made:
Part one of the planned expansion (see attached map) can go ahead as the trees within the area are mainly non-merch. Landowner will chip the trees and use them for quarry reclamation.

Landowner will apply for a class IVG FPA for the second portion of the planned expansion.

DETERMINATION OF NONSIGNIFICANCE

Continuing Forest Land Obligations (RCW 76.09.060, RCW 76.09.070, RCW 76.09.390, and WAC 222-20-055)

Obligations include reforestation, road maintenance and abandonment plans, conversions of forest land to non-forestry use and/or harvest strategies on perennial non-fish habitat (Type Np) waters in Eastern Washington.

Before the sale or transfer of land or perpetual timber rights subject to continuing forest land obligations, the seller must notify the buyer of such an obligation on a form titled “Notice of Continuing Forest Land Obligation”. The seller and buyer must both sign the “Notice of Continuing Forest Land Obligation” form and send it to the DNR Region Office for retention. This form is available at DNR region offices.

If the seller fails to notify the buyer about the continuing forest land obligation, the seller must pay the buyer’s costs related to continuing forest land obligations, including all legal costs and reasonable attorneys’ fees incurred by the buyer in enforcing the continuing forest land obligation against the seller.

Failure by the seller to send the required notice to the DNR at the time of sale will be prima facie evidence in an action by the buyer against the seller for costs related to the continuing forest land obligation prior to sale.
