WRIA: snohomish WAU: Youngs Creek  
 WRIA: \_\_\_\_\_ WAU: \_\_\_\_\_  
 Legal Description: 25-27-07E  
 Activity Type: Harvest 43.90 ac Spray \_\_\_\_\_ ac Stream Crossing(s)   
 Road Construction 2871 ft Road Abandonment \_\_\_\_\_ ft Rock Pit \_\_\_\_\_ ac

**ALTERNATIVE PRESCRIPTIONS**

- Alternate Plan
- Habitat Conservation Plan
- Ten-Year Forest Management Plan
- Landowner Option Plan for Northern Spotted Owl
- Columbia River Gorge National Scenic Area
- Cooperative Habitat Enhancement Agreement
- Watershed Analysis: \_\_\_\_\_

**RESOURCE REVIEW**

- Unstable Slopes (Risk: Highway, Water; \_\_\_\_\_)
- Soils Map (Highly Erodible & Very Unstable)
- SLPSTAB
- Landslide Hazard Zonation
- Landslide Polygon
- Bull Trout Overlay
- HCP Bull Trout Population
- Bald Eagle nest or roost within 660 feet
- Group A or B Water Supply (TRAX code DM or MU)
- Hatchery (TRAX code S)(Name: \_\_\_\_\_)
- Rain-on-Snow and Outside Approved WA
- Even-Aged Harvest greater than 120 Acres
- Hydric Soils
- Ground-based Equipment on Slopes greater than 40%
- Wetland [ ] A, [ ] B
- Road Construction on Slopes greater than 65%
- In WMZ of [ ] A, or [ ] B Wetland
- Saltwater Islands (Name: \_\_\_\_\_)
- In RMZ/ELZ of Type [ ] S, [ ] F, [ ] N water
- Water Verification

**ASSOCIATED NON-SCANNED DOCUMENTS** – On file with the FPA/N at the region office.

- SEPA Checklist/Documents
- Large Landowner Road Maintenance and Abandonment Plan

**ASSOCIATED SCANNED DOCUMENTS**

- Conversion Option Harvest Plan
- FPHP Plans & Specifications
- Hardwood Conversion Form
- Qualified Expert Report
- Wetland Mitigation Plan
- Natural Regeneration Plan
- Water Protocol Surveys [ ] Modification
- Shoreline Permit
- Marbled Murrelet Form
- Form# \_\_\_\_\_
- FPBM Appendix(s) \_\_\_\_\_
- Water Classification Worksheet
- Small Landowner RMAP Checklist
- Shade Documentation (Stream Shade Assessment Worksheet)
- CMZ Assessment Form
- Watershed Analysis Worksheet
- DFC Printout
- Slope Stability Informational Form

EARR Tax Credit  Yes [ ] No

--------------------------------------	--

**NOTE:** You are required to verify Type Np, and Ns water types within 200 feet of your proposed forest practices activities prior to submitting a Forest Practices Application / Notification. Use the Additional Information section, additional pages, the Water Type Classification Worksheet, and/or a Water Type Modification form to explain how you verified water types. See Water Typing Requirements in the instructions.

RECEIVED  
DEC 09 2015  
DNR-SPS

**3. Landownership information: See instructions**

a.  No  Yes Are you a small forest landowner per RCW 76.09.450?

If Yes, go to b.

b.  No  Yes Is your entire proposed harvest area on a single contiguous ownership consisting of one or more parcel

**4. If you are harvesting timber, enter the Forest Tax Reporting Account Number of the Timber Owner:**

800-888-888

*For tax reporting information or to receive a tax number, call the Department of Revenue at 1-800-548-8829.*

**5. Are you substituting prescriptions from an approved state or federal conservation agreement or watershed analysis?**

No  Yes Write "HCP" or "Using Prescriptions" in tables that apply. Attach or reference on file prescriptions and/or crosswalks.

**6. What is the legal description of your forest practice?**

Section	Township	Range	E/W	Tax Parcel Number	County
25	27	07	E		SNOHOMISH

**7. When are you planning to begin work on the proposed activity?** : MAY 2016

**8. Is the taxpayer eligible for the EARR Tax Credit?**

No  Yes

**9. Have you reviewed this forest practices activity area to determine whether it may involve historic sites and/or Native American cultural resources? Read the instructions before answering this question.**

No  Yes

**10. Do you have a DNR approved Road Maintenance and Abandonment Plan (RMAP)?**

a.  No  Yes List the RMAP number: 240027

If no, go to b.

b.  No  Yes Is a Checklist RMAP required? (see instructions)

**11. Are there potentially unstable slopes or landforms within the boundaries of your forest practices activity area?**

No  Yes – attach geotechnical report and "Slope Stability Informational Form." If applicable, attach the SEPA checklist, HCP or Watershed Analysis prescriptions.

**12. Are there potentially unstable slopes or landforms adjacent to your forest practices activity area?**

No  Yes – complete and attach the "Slope Stability Informational Form." If applicable, attach geotechnical report, HCP or Watershed Analysis prescriptions.

**13. Is this forest practice application/notification: (Answer every question)**

a.  No  Yes Within city limits or inside an urban growth area?

(IF YES SEE INSTRUCTIONS FOR ADDITIONAL REQUIRED DOCUMENTS.)

b.  No  Yes For road work that is included in an approved Road Maintenance and Abandonment Plan (RMAP)?

c.  No  Yes Within a public park? If Yes, include SEPA Environmental Checklist or SEPA Determination - except for harvesting/salvaging less than 5,000 board feet within a developed public park.

d.  No  Yes Within 500 feet of a public park? Park name: \_\_\_\_\_

e.  No  Yes In an approved Conversion Option Harvest Plan (COHP) from the local government? If yes, include a copy. This only applies to proposals within urban growth areas.

f.  No  Yes Within 200' of the Ordinary High Water Mark (OHWM) or floodway of Type S water?

If yes, check with the county or city to determine whether a substantial development permit is required under the local shorelines master plan.

- g.  No  Yes A request for a multi-year permit? If yes, length requested:  4 years or  5 years. Not everyone qualifies for a multi-year permit. See instructions for details.
- h.  No  Yes An Alternate Plan? If yes, include a copy.
- i.  No  Yes Within 50 miles of saltwater and do you own more than 500 acres of forest land in Washington State? If Yes - include the "Marbled Murrelet Form" or attach/reference HCP prescriptions.
- j.  No  Yes In or directly adjacent to a potential Channel Migration Zone (CMZ)? If Yes – include the "CMZ Assessment Form." Attach/reference applicable HCP and/or Watershed Analysis prescriptions.

\*\*\*\*\* **If not working in or over typed waters, skip to number 18** \*\*\*\*\*

**Prior to answering number 14-17 in this section please refer to the Forest Practices Application Instructions and Forest Practices Board Manual Section 5 (BM 5).**

**14. Are you proposing any of the following projects NOT permitted by current HPAs from WDFW?**

- a.  No  Yes Installing, replacing or repairing a culvert at or below the bankfull width of Type S or F Water(s) that exceeds a five percent gradient?
- b.  No  Yes Constructing, replacing, or repairing a bridge at or below the bankfull width of unconfined streams in Type S or F water(s)?
- c.  No  Yes Placing fill material within the 100-year flood level of unconfined streams in Type S or F water(s)?

**15. Have you consulted with DNR and/or WDFW about the proposed hydraulic project(s) in or over Type S or F water?**  No  Yes

**16. If installing, replacing, removing or maintaining structures in or over any typed water, complete the table below. Type S and F waters require detailed plan information.** Provide plan details in number 31 or attach plan to the FPA/N. Provide crossing locations and identifiers on your Activity Map. (A detailed plan with profiles may also be required for more complex hydraulic projects in Type N Waters per WAC 222-24-042(2)).

Crossing Identifier (letter and/or number)	Water Type (S, F, Np, Ns)	*Existing HPA Number (if applicable)	HPA Expiration Date (if applicable)	Planned Activity (install, replace, remove, temporary, structure maintenance)	Structure (culvert, bridge, ford**, punchcon, arch, other)	Proposed Size (dimensions of structure)	Culvert Design Method (No-slope, Stream-sim, Hydraulic, Other) (F and S only)	Channel Bed Width (ft) (F and S only)	Stream Gradient (%) (F and S only)	RMAP Project (Y or N)	FFPP Project (Y or N)
56+87	Ns	N/A	N/A	Install	Culvert	24"x30'	N/A	N/A	N/A	N	N
58+85	Ns	N/A	N/A	Install	Culvert	36"x50'	N/A	N/A	N/A	N	N

\*Existing HPAs issued by WDFW will be complied and enforced by WDFW until expiration. Plan details are not required for hydraulic projects permitted with an existing HPA (see instructions).

\*\* Fords and equipment crossings on Type S and F Waters may result in an unauthorized incidental take of certain endangered or threatened fish species. For more information, see "Background for the state's Incidental Take Permits for certain endangered and threatened fish species" following number 24 of the FPA/N Instructions.

17. If conducting any of the following activities in or over typed water, complete the table below. Some activities will require identifiers on your Activity map and/or more information in number 31, Additional Information. See instructions.

*Activity	Type S Water	Type F Water	Type Np Water	Type Ns Water
Equipment Crossing**			NO	YES
Suspending Cables	NO	NO	NO	YES
Cable Yarding	NO	NO	NO	YES
LWD Placement/Removal	NO	NO	NO	NO
Beaver Dam Removal	NO	NO	NO	NO
Felling and Bucking	NO	NO	NO	YES
Other (describe in number 31)	N/A	N/A	N/A	N/A

\*Existing HPAs issued by WDFW will be complied and enforced by WDFW until expiration. Plan details are not required for hydraulic projects permitted with an existing HPA (see instructions).

\*\* Fords and equipment crossings on Type S and F Waters may result in an unauthorized incidental take of certain endangered or threatened fish species. For more information, see "Background for the state's Incidental Take Permits for certain endangered and threatened fish species" following number 24 of the FPA/N Instructions.

18. If constructing or abandoning forest roads complete the table below. Show the road locations and identifiers on your Activity Map. Include abandonment plans for temporary roads and abandonment projects.

Road Identifier (name, number)	Road Construction		Road Abandonment	
	Length (feet)	Steepest Side-slope (%)	Length (feet)	Abandonment Date
6020	2751	80	0	N/A
6021	120	40	0	N/A

19. If depositing spoils and/or expanding or developing a rock pit for forestry use, complete the table below. Show locations and identifiers on your Activity Map.

Spoil Area Identifier (letter, number)	Amount of Spoils Deposited (cubic yards)	Rock Pit Identifier (name, number or letter)	Acres of New Rock Pit Developed	Acres of Existing Rock Pit Expanded
N/A		N/A		

20. If operating in or within 200 feet of a wetland, complete the table below. Show the boundaries of each wetland, along with its identifier, and WMZ on your Activity Map. See instructions for information.

Wetland Identifier (number, letter)	Wetland Type (A, B, or Forested)	Planned Activities in Wetland	Planned Activities in Maximum Width WMZ	Total Wetland Area (acres)	How many acres are you draining?	How many acres are you filling?
N/A						

\*\*\*\*\* If not harvesting or salvaging timber, skip to number 29 \*\*\*\*\*

21. If harvesting or salvaging timber, complete the table below. Show all harvest areas and unit numbers on your Activity Map. For even-aged harvest units also show surrounding stand information on your Activity Map.

Unit Number	Harvest Type (Even-aged, Uneven-aged, Salvage, Right-of-Way)	Biomass Harvest (Y/N)	Harvest Method (Rubber Tired Skidder, Tracked Skidder, Dozer, Shovel, Full Suspension Cable, Lead-end Suspension Cable, Helicopter, Animal, Chipper-forwarder, Slash Bundler)	Acres to be Harvested	Volume to be Harvested (mbf)	Volume to be Harvested (biomass tonnage)	Volume to be Harvested (%)	Steepest Slope in Harvest Unit (%)
1	Even-Aged	N	Lead-end Suspension Cable, Dozer, Shovel, Tracked Skidder	43.61	1785	N/A	95%	80%
2	Right of Way	N	Dozer, Shovel, Tracked Skidder	0.29	14	N/A	100%	20

22. Reforestation. Check the appropriate box(es).

Planting. Tree Species: Douglas-Fir, Western Redcedar in Unit 1

Natural. Include a Natural Regeneration Plan

Not required because of one or more of the following: in Unit 2

I am converting some or all of this land to non-forest land in the next 3 years or lands are exempted under WAC 222-34-050.

Individual dead, dying, down, or wind-thrown trees will be salvaged.

Trees are removed under a thinning program reasonably expected to maximize the long-term productivity of commercial timber.

I am leaving at least 100 vigorous, undamaged, and well-distributed saplings or merchantable trees per acre.

An average of 190 tree seedlings per acre are established on the harvest area and my harvest will not damage it.

Road right-of-way or rock pit development harvest only.

\*\*\*\* If you own MORE than 80 forested acres in Washington, skip to number 27 \*\*\*\*

23. Are you using the exempt 20-acre parcel riparian management zone (RMZ) rule on type S, F, or Np waters?

No If no, continue to number 27.

Yes If yes, continue to number 24. See instructions for qualifications and information.

24. Choose the answer below that best fits your situation. Show all RMZs on your Activity Map.

a. ALL of the following apply to me and my land: (If no, answer b.)

- Between June 5, 2006 and today's date I have always owned less than 80 acres of forestland in Washington.

- Between June 5, 2006 and today's date this parcel has always been 20 acres or less of contiguous ownership.

- Between June 5, 2006 and today's date this parcel has always been owned by me or someone else that has owned less than 80 acres of forestland in Washington.

b. ONE OR MORE of the following apply to me and/or my land (check all that apply):

- I currently own more than 80 acres of forestland in Washington.
- Between June 5, 2006 and today's date I have owned more than 80 acres of forestland in Washington.
- Between June 5, 2006 and today's date this parcel has been more than 20 acres of contiguous ownership.
- Between June 5, 2006 and today's date this parcel has been owned by someone that has owned more than 80 forested acres in Washington.

25. If harvesting within 115 feet of a Type S or F water on an exempt 20-acre parcel, complete the table below. Show RMZs and stream segment identifiers on your Activity Map. (Include stream shade assessment methodology if you are harvesting within 75 feet, or the maximum RMZ, whichever is LESS. If using BM1 to evaluate shade, you may use the "Stream Shade Assessment Worksheet").

Stream Segment Identifier (letter)	Water Type (S, F)	Segment Length (feet)	Bankfull Width (feet)	Maximum RMZ Width (feet)	Are you harvesting within the maximum RMZ? (Y or N)

26. Are you harvesting within 29 feet of a Type Np water on a 20-acre exempt parcel?

- No Continue to number 29.
- Yes See instructions and describe leave tree strategy in number 31. Then continue to number 29.

27. If harvesting within 200 feet of any of Type S or F waters, complete the table below. Include DFC for all inner zone harvests unless you have an HCP prescription. Show RMZs, CMZs, and stream segment identifiers on your Activity Map. (Include stream shade assessment methodology if you are harvesting within 75 feet of S or F waters. If using BM1 to evaluate shade, you may use the "Stream Shade Assessment Worksheet").

Stream Segment Identifier (letter)	Water Type (S or F)	Site Class (I - V)	Stream Width (feet)	Is there a CMZ? (Y/N)	RMZ Harvest Code(s) (see instructions)	DFC Run Number	Total width of RMZ (feet)
N/A							

28. If harvesting within 50 feet of Type Np water, complete the table(s) below. Show RMZs and stream segment identifiers on your Activity Map.

Stream Segment Identifier (letter)	Total Stream Length in Harvest Unit (feet)	Length of No-Harvest, 50-foot Buffers in Harvest Unit (feet)	Stream Segment Identifier (letter)	Total Stream Length in Harvest Unit (feet)	Length of No-Harvest, 50-foot Buffers in Harvest Unit (feet)

N/A		

**29. How are the following marked on the ground? (Flagging, paint, road, fence, etc.)**

Harvest Boundaries: Pink flagging at ownership boundaries, and pink flashers with "Timber Sale Boundary" tags at stand boundaries with pink flagging between tags.

Clumped Wildlife Reserve Trees/Green Recruitment Trees: Blue bands of paint, yellow "Leave Tree Area" tags with pink flashers.

Right-of-way limits/road centerlines: Orange flagging, "Right of Way" tags.

Stream Crossing Work: Orange "Right of Way" tags.

Riparian Management Zone Boundaries and Leave/Take Trees: White "Timber Sale Boundary" tags. No take trees within the RMZ, except for within right of way boundary.

Channel Migration Zone: N/A

Wetland Management Zone Boundaries and Leave/Take Trees: N/A

**30. Are you converting the land to non-forestry use within 3 years of harvest?**

No  Yes If yes, include your SEPA Determination and/or SEPA checklist.

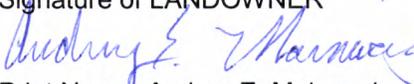

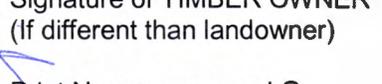

**31. Additional Information (attach additional pages if necessary):**

Applying an approved Habitat Conservation Plan. This application is consistent with the approved HCP. Certain WACs allow for replacement of Forest Practice Rules with HCP prescriptions. Please refer to the DNR proprietary HCP Implementation Agreement for the Northern Spotted Owl and Aquatic Resources, 2008 and the HCP Implementation Agreement for Marbled Murrelet, 2014, which is on file with Forest Practices at the SPS region office, for additional information on WACs replaced by HCP prescriptions. All streams associated with this proposal were typed according to the Trust Forestland HCP Water Typing System.

Landings will be along newly constructed roads within the harvest unit.

**32. We acknowledge the following:**

- The information on this application/notification is true.
- We understand this proposed forest practice is subject to:
  - The Forest Practices Act and Rules AND
  - All other federal, state or local regulations.
- Compliance with the Forest Practices Act and Rules does not ensure compliance with the Endangered Species Act or other federal, state or local laws.
- If we said that we would not convert the land to non-forestry use, the county or city may deny development permits on this parcel for the next 6 years.
- The following may result in an unauthorized incidental take of certain endangered or threatened fish species:
  - Conversion of land to non-forestry use.
  - Harvesting within the maximum RMZ on a 20-acre exempt parcel that was acquired after June 5, 2006.
  - Equipment Crossings/Fords in or over Type S and F Waters.

Signature of LANDOWNER  Print Name: Audrey E. Mainwaring  Date: 11-19-15	Signature of TIMBER OWNER* (If different than landowner)  Print Name: same as LO  Date: 11-19-15	Signature of OPERATOR (If different than landowner)  Print Name: same as LO  Date: 11-19-15
---	---	--

\* NOTE: If you are a "Perpetual Timber Rights Owner," and are submitting this without the Landowner's Signature, provide written evidence the landowner has been notified.

**Please make a copy of this FPA/N for your records. If this FPA/N contains a hydraulic project requiring WDFW concurrence review, it will not be available online for public review until after the WDFW concurrence review period.**

**Forest Practices Application/Notification Addendum  
DNR Proprietary HCP Implementation Checklist for the  
Northern Spotted Owl, 2008 (all HCP planning units & OESF)**

Refer to the DNR Proprietary HCP Implementation Agreement for the NSO, 2008.

1. Is the Forest Practice activity within a NRF Management Area?  
 Yes, Go to #2.  
 No, Go to #6.
2. Is the Forest Practice activity within a designated 500-acre Nest Patch?  
 Yes, No timber harvest allowed, harvest deferral of Nest Patches, refer to Substitution Agreement, Section I.A. **End Checklist.** Maintenance of existing roads is permitted. Describe road maintenance activity in Question #13.  
 No, Go to #3.
3. Is the Forest Practice activity within 0.7 miles of a spotted owl nest site (status 1 or 2)?  
 Yes, Apply timing restrictions; refer to Substitution Agreement, Section I. Go to #4.  
 No, Go to #4.
4. Is the SOMU where the Forest Practice activity is located, above the threshold of NRF habitat?  
 Yes, Proceed with the activity, ensuring that habitat within the SOMU will not fall below the target amount. Please describe in Question #13; if the activity will be harvesting habitat or non-habitat, whether it is an enhancement activity or even-age harvest and how many acres or percentage of NRF habitat will remain within the SOMU after harvest. Go to #13.  
 No, Go to #5.
5. Is the Forest Practice activity within suitable submature habitat or better or "next best"?  
 Yes, Ensure NRF habitat remains after completion of the harvest activity or that the activity will not increase the length of time for the target amount to reach a suitable habitat condition. Please describe in Question #13, type of activity, how habitat will be maintained or next best stands enhanced and what the final stand condition will be. Go to #13.  
 No, Ensure that target amount of habitat within the SOMU will not take longer to achieve after activity. Please describe in Question #13 how management activity will maintain and/or achieve the NRF target amount. Go to #13.
6. Is the Forest Practice activity within a Dispersal or DFC Management Area?  
 Yes, Go to #7.  
 No, Go to #10.
7. Is the Forest Practice activity within 0.7 miles of a spotted owl nest site (status 1 or 2)?  
 Yes, Apply timing restrictions; refer to Substitution Agreement, Section I. Go to #8.  
 No, Go to #8.
8. Is the SOMU where the Forest Practice activity is located, above the threshold of dispersal habitat?  
 Yes, Proceed with the activity, ensuring that habitat within the SOMU will not fall below the target amount. Please describe in Question #13; if the activity will be harvesting habitat or non-habitat, whether it is an enhancement activity or even-age harvest and how many acres or percentage of dispersal habitat will remain within the SOMU after harvest. Go to #13.

- No, Go to #9.
- 9. Is the Forest Practice activity within suitable dispersal habitat or better or “next best”?
  - Yes, Ensure dispersal habitat remains after completion of the harvest activity or that the activity will not increase the length of time for the target amount to reach a suitable habitat condition. Please describe in Question #13, type of activity, how habitat will be maintained or next best stands enhanced and what the final stand condition will be. Go to #13.
  - No, Ensure that target amount of habitat within the SOMU will not take longer to achieve after activity. Please describe in Question #13 how management activity will maintain and/or achieve the dispersal target amount. Go to #13.
- 10. Is the Forest Practice activity located within the OESF?
  - Yes, Go to #11.
  - No, Go to #12.
- 11. Landscape planning has been initiated, but has it been completed?
  - Yes, Proceed with the activity, ensuring that all commitments of the Landscape Plan are fulfilled. Please describe in Question #13; if the activity will be harvesting habitat or non-habitat, whether it is an enhancement activity or even-age harvest and how many acres or percentage of suitable habitat will remain within the SOMU after harvest. Go to #12.
  - No, Proceed with the activity, ensuring that the total amount of habitat harvested since HCP implementation will not exceed the allowable amount as described within the substitution agreement, Section II. Please describe in Question #13; if the activity will be harvesting habitat or non-habitat, whether it is an enhancement activity or even-age harvest and how many acres or percentage of suitable habitat will remain within the SOMU after harvest. Go to #12.
- 12. Is the Forest Practice activity located within a Status 1 or 2 spotted owl management circle based on the WDFW database?
  - Yes, Apply harvest timing restrictions to activities within the best 70-acre core around the site center; refer to Substitution Agreement, Section III. Include location of best 70-acre core on Forest Practices Map. Go to #13.
  - No, Go to #13.
- 13. Provide any additional information or details requested from previous questions on the following lines. If no additional information is required, simply state “not applicable” below. Otherwise, include the SOMU name(s) when necessary if activity is within NRF or dispersal management areas or OESF and how habitat will be maintained or enhanced, etc. If varying from standard HCP guidance, attach concurrence/variance approval from Land Management Division and/or Federal Services and discuss below.

**End checklist.**

**Forest Practices Application/Notification Addendum**  
**DNR Trust Lands HCP Implementation Checklist for the Marbled Murrelet, 2014**  
**North Puget Planning Unit Only**

Refer to the DNR Trust Lands HCP Implementation Summary for the Marbled Murrelet, 2014 and North Puget Planning Unit (NPPU) memos dated 02/23/2007 and 06/12/2009. Marbled Murrelet GIS habitat and occupied site delineation is available at on the Quick Data Loader and State Uplands Viewing Tool titled "State Lands – Marbled Murrelet – HCP Policy".

1. Is the proposed Forest Practices activity within potential habitat, occupied site, Criteria 3 newly identified habitat or suitable habitat not available for release<sup>1</sup>?
  - Yes, proposal is **inconsistent** with current HCP strategy. **Stop Proposed Activity** or document in Question #6 specifics of proposal and Forest Resources Division approval if intending to proceed.
  - No, not within suitable habitat not available for release, potential, occupied, or Criteria 3 newly identified habitat. Go to Question #2.
  
2. Is the proposed activity within releasable<sup>1</sup> suitable habitat according to the NPPU memo (dated 6/12/2009)?
  - Yes, document in Question #6 the WAU name, **total** suitable MM habitat acres allowed to be harvested within the WAU and the **total** acres to date of suitable MM habitat harvested within the WAU after this proposed harvest. Go to Question #3.
  - No, proposal is not within releasable suitable habitat. Go to Question #3.
  
3. Is the proposed activity located within unsurveyed Criteria 1 newly identified habitat that is within 0.25 miles of an occupied site, or unsurveyed Criteria 2 newly identified habitat?
  - Yes, proposal is **inconsistent** with the current HCP strategy. **Stop Proposed Activity** or document in Question #6 specifics of proposal and Forest Resources Division approval if intending to proceed.
  - No, go to Question #4.

---

<sup>1</sup> Some suitable habitat may be available for harvest (releasable) if 50% of the habitat will remain within the WAU and it is greater than 0.5 miles from an occupied site and identified per NPPU memo dated 6/12/2009. Criteria 1 habitat is: Habitat  $\geq$  5 acres but  $\leq$  10 acres with  $\leq$  10 platforms per acre OR Habitat  $>$  10 acres but  $\leq$  20 acres with  $\leq$  5 platforms per acre. Criteria 2 habitat is: Habitat  $\geq$  5 acres but  $\leq$  10 acres with  $>$  10 platforms per acre OR Habitat  $>$  10 acres but  $\leq$  20 acres with  $>$  5 platforms per acre OR Habitat  $>$  20 acres with  $\leq$  15 platforms per acre. Criteria 3 is: Habitat  $\geq$  20 acres with  $>$  15 platforms per acre.

4. Is the proposed activity located within surveyed and unoccupied Criteria 1 or 2 newly identified habitat, or unsurveyed Criteria 1 that is greater than 0.25 miles from an occupied site and is the activity only for operational access (roads or yarding corridors) through this habitat type?
- Yes, proposal is consistent with the current HCP. Timing restrictions are applied when operating within this habitat and remaining habitat is deferred from harvest. Consult with Region biologist/specialist for recommendations on minimizing platform tree removal. Document in Question #6 the type of operational access, but first go to Question #5.
  - No, go to Question #5.
5. Is the proposed harvest activity within ¼ mile of any marbled murrelet occupied site(s), Criteria 3 newly identified habitat or unsurveyed suitable MM habitat<sup>2</sup>?
- Yes, consult with Region biologist/specialist for recommendations on buffers and timing restrictions. Go to Question #6 and document type of buffer of occupied site or suitable habitat.
  - No, proceed with activity; go to Question #6 if any documentation is required.
6. This question or section is for additional information the checklist suggested you provide in previous questions or any additional information you think is relevant to the proposal. If you were able to answer the previous questions without a “Stop Proposed Activity” notification then your proposal is consistent with the HCP and may proceed. Otherwise, more documentation is required here. If varying from current HCP guidance, attach consultation agreement from Forest Resources Division and/or USFWS and discuss below.

Click here to enter text.

---

<sup>2</sup> “Unsurveyed suitable habitat” refers to potential habitat identified per the NPPU 2007 memo that has been field verified as suitable, but not yet surveyed.

**Forest Practices Application/Notification Addendum  
DNR Proprietary HCP, WAC Replacement Summary for Aquatic Resources, 2008  
Five West-side Planning Units, Excluding the OESF**

Please refer to the DNR Proprietary HCP Substitution Agreement for Aquatic Resources, 2008. Please check all HCP prescriptions and/or activities, which are relevant to this proposal and describe the management prescriptions and final stand composition at the end of this checklist.

**NOTE: When assessing hydrologic maturity for each sub-basin inside the rain-on-snow zone, DNR staff will use the most updated data layer delineating Watershed Administrative Units as designated by Forest Practices.**

- Assessing Hydrologic Maturity in the Rain-On-Snow (ROS) Zone (Refer to item A in the Agreement Memo). If the activity lies within the ROS zone and subbasin will be managed for ROS, fill out the following table. If within ROS zone, but subbasin will not be managed for ROS, describe why in additional information section below.

1. SUB-BASIN NAME	2. TOTAL ROS ACRES (DNR) WITHIN SUB-BASIN	3. HYDRO MATURE TARGET ACRES (2/3 of Column 2)	4. CURRENT DNR SUB-BASIN ACRES IN HYDRO MATURE FOREST IN ROS	5. ACRES OF HYDRO MATURE FOREST TO BE REMOVED	6. SUPPLUS (+) OR DEFICIT (-) ACRES AFTER ACTIVITY

- Wetlands Protection, road construction within wetlands or wetland buffers, requires mitigation. (Refer to item B in the Agreement Memo). If this activity will include road construction within a wetland or WMZ, describe the type of wetland, potential loss of wetland function and how and where the loss of function will be mitigated.
- Harvesting within Forested Wetlands. (Refer to items C & E in the Agreement Memo). Describe the remaining stand characteristics within the wetland and map any forested wetlands greater than 3 acres.
- Wetland Management Zones. (Refer to item D in the Agreement Memo). Describe the site index and WMZ width. If harvesting within the WMZ, describe the remaining stand characteristics within the WMZ.
- Riparian Management Zones for Type 1, 2 and 3 Waters (Refer to item F and Appendix 1 in the Agreement Memo). Describe the site index, RMZ width and if a wind buffer was applied. Describe if the RMZ begins from the outer edge of a CMZ or 100-year floodplain and how they were typed.
- Riparian Management Zones for Type 4 and 5 Waters (Refer to item G and Appendix 1 in the Agreement Memo). Describe any special protection for Type 5 waters.

- ☒ Harvesting or Salvaging within Type 1, 2, 3 and 4 Riparian Management Zones. (Refer to item F-J and Appendix 3 in the Agreement Memo). If harvesting, describe the general HCP Riparian Forest Restoration Strategy management scenario under which the proposal's riparian stand will be managed. Describe stand treatment including removals, down wood and snag recruitment and type of activities. Describe post-harvest stand; how it meets the management parameters of the general management scenario, what species composition and diameter classes will remain, trees per acre, basal area, relative density. If salvaging, describe how you will be meeting the RDFC conditions, what you will retain and removals and other salvage/restoration conditions described within the Ecosystem Services Section approved site specific restoration plan (and/or attach plan).

Please provide any requested additional information below. If varying from standard HCP guidance, attach concurrence/variance approval from Land Management Division and/or Federal Services and discuss below (e.g. research).

There will be an RMZ for two type 3 streams, and one type 4 stream. Stream types were determined from a previous survey and verified in the field according to DNR Trust Forestland HCP Water typing System. The site index is 126 feet tall at 50 years (according to King's DF curve); so per the HCP, the buffer width would be 182 feet for the type 3 streams (which is King's curve at 126, projected out to year 100). The buffer for the type 4 will be 100 feet according to the HCP. These buffers will extend from the edge of the 100-year floodplain of typed streams.

There will be harvesting within the RMZ of the type 4 stream, this will be restricted to within the Right-of-Way Tags for road construction. If the stream is flowing, water will be temporarily diverted while the road and culvert are being constructed, and routed back through the culvert once completed.

Type 5 streams will be protected with a 30 foot equipment limitation zone.

No areas of Rain-on-Snow.

No typed wetlands or forested wetlands.

No wind buffers established.

Water Body ID:

---

1. Is the water body an impoundment or resident game fish pond with a surface area of greater than 0.5 acre at seasonal low water?

- Yes – Type 3 water **STOP**  
 No - Continue

2. List the date water body observations were made for water typing.

Date observed:

---

Continue.

3. Is the water body an impoundment or pond with a surface area of less than 1 acre at seasonal low water and having an outlet to an anadromous fish stream?

- Yes – Type 3 water **STOP**  
 No – Type water according to  
FP wetland typing rules

## State Lands Water Type Worksheet

Timber Sale Name: Sidehill Salmon

Agreement No.: 30-091789

Within the vicinity of the proposal, it is required to physically verify all typed waters. Refer to Water Typing System for Forested State Trust HCP Lands to determine Type 1 and 2 waters.

	Public Land Survey Sections	
	DNR Managed Lands	

## Slope Stability Informational Form Forest Practices Application/Notification

**Note:** Complete and attach this form to your FPA if you answered "Yes" to FPA question 11 or 12. "Potentially unstable slopes or landforms" are defined in WAC 222-16-050(1)(d). See Board Manual Section 16 part 2.1 for descriptions of potentially unstable slopes.

1. What screening tools were used?  GIS,  Aerial Photo,  LiDAR,  Other (describe): \_\_\_\_\_  
Published 1:24,000-scale geologic mapping by Dragovich and others (2013)

2. What potentially unstable slopes were identified within the boundaries of your forest practices activity area? Check all that apply:

Inner Gorge                       Groundwater recharge areas for glacial deep-seated landslides  
 Bedrock Hollow               Convergent Headwall       Toe of deep-seated landslide  
 Outer edges of meander bends       Other (describe): \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

3. What potentially unstable slopes were identified adjacent to your forest practices activity area? Check all that apply:

Inner Gorge                       Groundwater recharge areas for glacial deep-seated landslides  
 Bedrock Hollow               Convergent Headwall       Toe of deep-seated landslide  
 Outer edges of meander bends       Other (describe): \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

4. Date of field review: 7/21/2015, 08/18/2015

5. Person(s) that conducted field review:

	Eric Dasso	DNR FP Forester
	Name	Title/position
	Zachary Beebe	DNR Forester 1
	Name	Title/position

6. If any features identified in #2 and /or #3 were bounded out, describe the manner in which the boundary was determined: An area of potential slope instability east of the proposal was identified through a review of LiDAR digital elevation models (DEMs). It was determined during field review with DNR State Lands, along with DNR Forest Practices and Tulalip Tribes, not to be a rule-identified landform. See ICN No. 15268, dated 08/18/2015. Also during this field visit, it was concluded that mapped landslides (Dragovich and others, 2013) within and adjacent to the unit are not rule-identified landforms. An inner gorge was excluded and protected by the type 4 and type 3 RMZ buffers south of the unit.

\_\_\_\_\_

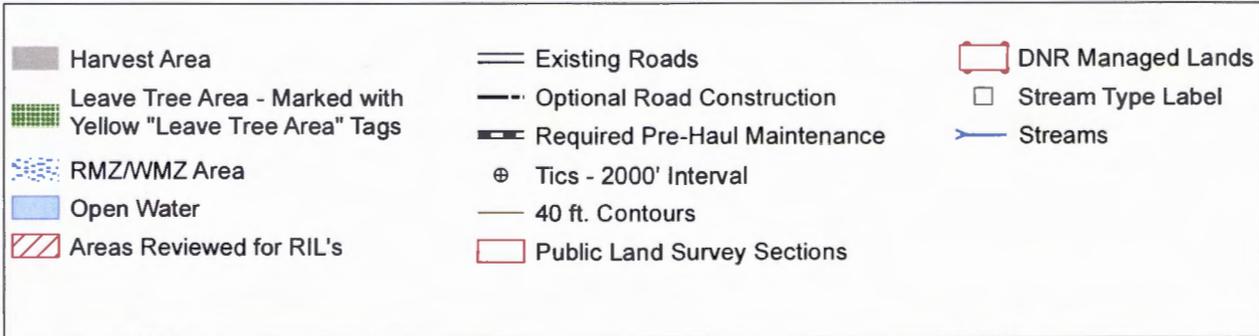

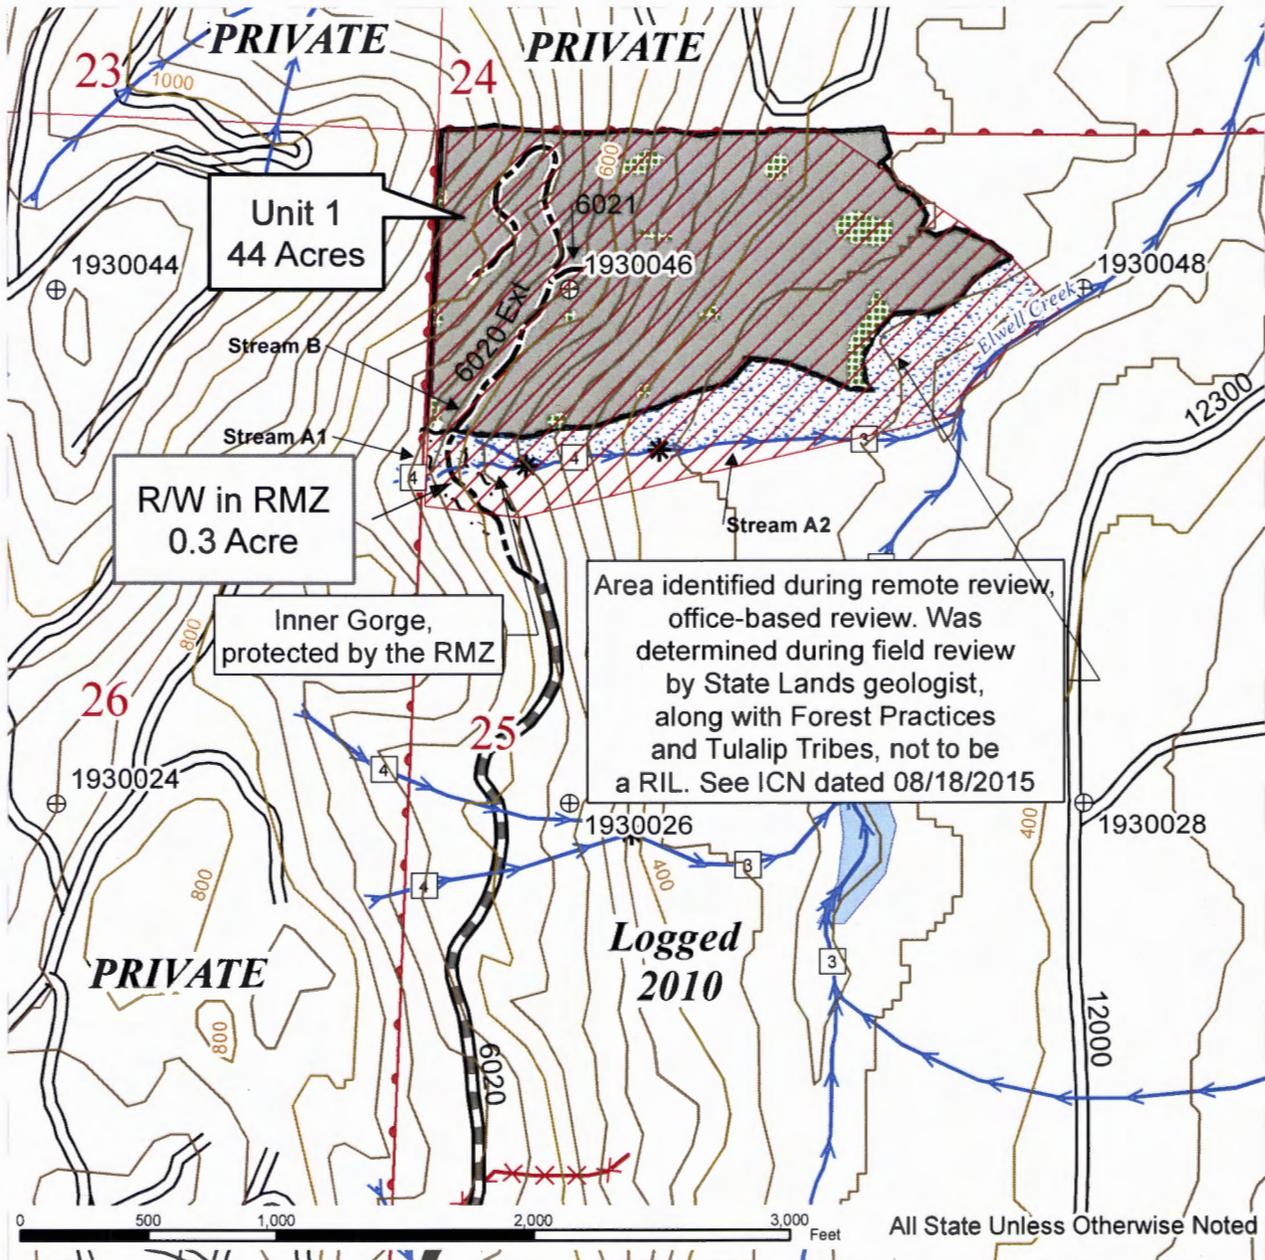

\_\_\_\_\_

7. Show all field reviewed areas for potentially unstable slopes or landforms on a map (may use a forest practices activity map, harvest map or GIS map – See map example on page 35). **This map is intended to be developed by the field practitioner.**

Meeting Location on site	Telephone Conference [ ]	Date 8/18/15	Time 1000	Region SPS	

**Subjects Discussed:**

Sidehill Salmon Timber Sale:

1) Looked at a potentially unstable land form on the southeast edge of the unit.

2) Discussed Q1s units mapped by Dragovich.

**Decisions Made:**

1) We determined this to be a non-rule identified feature.

2) Q1s units do not appear to correlate with any rule identified land forms.

**Appeal Information**

You have thirty (30) days to appeal this Decision and any related State Environmental Policy Act determinations to the Pollution Control Hearings Board in writing at the following addresses:

**Physical address: 1111 Israel Rd. SW, Ste 301, Tumwater, WA 98501**

**Mailing address: P.O. BOX 40903, OLYMPIA, WA 98504-0903**

Information regarding the Pollution Control Hearings Board can be found at: <http://www.eho.wa.gov/>

At the same time you file an appeal with the Pollution Control Hearings Board, also send a copy of the appeal to the Department of Natural Resources' region office and the Office of the Attorney General at the following addresses:

Office of the Attorney General  
Natural Resources Division  
1125 Washington Street SE  
PO Box 40100  
Olympia, WA 98504-0100

And

Department Of Natural Resources  
South Puget Sound Region  
950 Farman Avenue North  
Enumclaw, WA 98022

**Other Applicable Laws**

Operating as described in this application/notification does not ensure compliance with the Endangered Species Act, or other federal, state, or local laws.

**Hydraulic Project Approval (HPA) (Chapter 77.55RCW and WAC 222-50-020(2))**

The Department of Fish and Wildlife (WDFW), as the jurisdictional agency issuing HPAs, has final authority for approving water crossing structures in Type S and F waters. WDFW continues to have authority on Type N waters and may exercise that authority on some Type N waters.

Notice: The HPA water crossing requirements supersede what is indicated on the FPA. Landowners are required by law to follow the provisions as directed on the HPA.

**Transfer of Forest Practices Application/Notification (WAC 222-20-010)**

Use the "Notice of Transfer of Approved Forest Practices Application/Notification" form. This form is available at region offices and on the Forest Practices website: <http://www.dnr.wa.gov/businesspermits/forestpractices>. Notify DNR of new Operators within 48 hours.

**Continuing Forest Land Obligations (RCW 76.09.060, RCW 76.09.070, RCW 76.09.390, and WAC 222-20-055)**

Obligations include reforestation, road maintenance and abandonment plans, conversions of forest land to non-forestry use and/or harvest strategies on perennial non-fish habitat (Type Np) waters in Eastern Washington.

Before the sale or transfer of land or perpetual timber rights subject to continuing forest land obligations, the seller must notify the buyer of such an obligation on a form titled "Notice of Continuing Forest Land Obligation". The seller and buyer must both sign the "Notice of Continuing Forest Land Obligation" form and send it to the DNR Region Office for retention. This form is available at DNR region offices.

If the seller fails to notify the buyer about the continuing forest land obligation, the seller must pay the buyer's costs related to continuing forest land obligations, including all legal costs and reasonable attorneys' fees incurred by the buyer in enforcing the continuing forest land obligation against the seller.

Failure by the seller to send the required notice to the DNR at the time of sale will be prima facie evidence in an action by the buyer against the seller for costs related to the continuing forest land obligation prior to sale.
