☐ I am converting some or all of this land to non-forest land in the next 3 years or lands are exempted under WAC 222-34-050.

☐ Individual dead, dying, down, or wind-thrown trees will be salvaged.

☐ Trees are removed under a thinning program reasonably expected to maximize the long-term productivity of commercial timber.

☐ I am leaving at least 100 vigorous, undamaged, and well-distributed saplings or merchantable trees per acre.

☐ An average of 190 tree seedlings per acre are established on the harvest area and my harvest will not damage them.

☐ Road right-of-way or rock pit development harvest only.

** Do you own MORE than 80 acres of forest land in Washington? If yes, skip to Question 25 **

21. Are you using the exempt 20-acre parcel riparian management zone (RMZ) rule (WAC 222-30-023) on Type S, F, or Np Waters?

☐ No Skip to Question 25.

☐ Yes Continue to Question 22. See instructions for qualifications and information.

22. Choose the answer below that best fits your situation. Show all RMZs on the Activity Map.

☐ a. ALL of the following apply to me and my land: (If no, answer b.)

- Between June 5, 2006 and today's date I have always owned less than 80 acres of forest land in Washington.

- Between June 5, 2006 and today's date this parcel has always been 20 acres or less of contiguous ownership. See RCW 76.09.020 for definition of 'contiguous'.

- Between June 5, 2006 and today's date this parcel has always been owned by me or someone else that has owned less than 80 acres of forest land in Washington.

b. ONE OR MORE of the following apply to me and/or my land (check all that apply): If any of the statements below apply AND you use the exempt 20-acre parcel RMZ rule, you are NOT authorized under the State's Incidental Take Permits (see explanation in FPA instructions under Question 22).

☐ Between June 5, 2006 and today's date I have owned more than 80 acres of forest land in Washington.

☐ Between June 5, 2006 and today's date this parcel has been a part of more than 20 acres of contiguous ownership. See RCW 76.09.020 for definition of 'contiguous'.

☐ Between June 5, 2006 and today's date this parcel has been owned by someone that has owned

28. Additional Information (attach additional pages if necessary): For hydraulic projects in or over Type S, F, or complex N Water(s) see instructions for required plan information. If applicable, include mitigation measures from a geotechnical memo, letter, or report.

A storm event plugged the existing culvert (crossing B) and washed out the existing mainline. This proposal is to realign the road to install a properly sized culvert (crossing A) in a more entrenched part of the stream. The road over the culvert will be dipped and the culvert will be armored with coarse rip rap on both ends. Incidental trees will needed to be cut for this realignment (3 trees total). They will however be left on site.

The original undersized culvert (crossing B) will be removed. Also the stream channel about 50' upstream of the original crossing will be pulled back at a 2H:1V slope (the culvert plugging caused gravel to deposit here and looking at the stream gradients above and below the existing road the channel is expected to degrade in this area and this will remove excess material that could deposit in the new proposed culvert). This excess material will be used on the new "Bypass" road.
29. We acknowledge the following:
   - The information on this application/notification is true.
   - We understand this proposed forest practice is subject to:
     - The Forest Practices Act and Rules AND
     - All other federal, state or local regulations.
   - Compliance with the Forest Practices Act and Rules does not ensure compliance with the Endangered Species Act
     or other federal, state or local laws.
   - If we said that we would not convert any portion of the land to non-forestry use, the county or city may deny
     development permits on this parcel for the next 6 years.
   - The following may result in an unauthorized incidental take of certain endangered or threatened fish species:
     - Conversion of land to non-forestry use.
     - Harvesting within the maximum RMZ on a 20-acre exempt parcel that was acquired after June 5, 2006.
     - Equipment Crossings/Fords in or over Type S and F Waters.
   - Inadvertent Discovery – Chapters 27.44, 27.53, 68.50 and 68.60 RCW
     - If you find or suspect you have found an archaeological object or Native American cairn, grave, or glyptic
       record, immediately cease disturbance activity, protect the area and promptly contact the Department of
       Archaeology and Historic Preservation at 360 586-3077.
     - If you find or suspect you have found human skeletal remains, immediately cease disturbance activity,
       protect the area, and contact the County Coroner or Medical Examiner and local law enforcement as soon as
       possible. Failure to report human remains is a misdemeanor.

The landowner understands that by signing and submitting this FPA, he/she is authorizing the Department of
Natural Resources to enter the property in order to review the proposal, inspect harvest operations, and monitor
compliance for up to three years after its expiration date. RCW 76.09.150

Transfer of Forest Practices Application/Notification (WAC 222-20-010)
Use the “Notice of Transfer of Approved Forest Practices Application/Notification” form. This form is available at region offices and on the Forest Practices website: http://www.dnr.wa.gov/businesspermits/forestpractices. Notify DNR of new Operators within 48 hours.

Continuing Forest Land Obligations (RCW 76.09.060, RCW 76.09.070, RCW 76.09.390, and WAC 222-20-055)
Obligations include reforestation, road maintenance and abandonment plans, conversions of forest land to non-forestry use and/or harvest strategies on perennial non-fish habitat (Type Np) waters in Eastern Washington.

Before the sale or transfer of land or perpetual timber rights subject to continuing forest land obligations, the seller must notify the buyer of such an obligation on a form titled “Notice of Continuing Forest Land Obligation”. The seller and buyer must both sign the “Notice of Continuing Forest Land Obligation” form and send it to the DNR Region Office for retention. This form is available at DNR region offices.

If the seller fails to notify the buyer about the continuing forest land obligation, the seller must pay the buyer’s costs related to continuing forest land obligations, including all legal costs and reasonable attorneys’ fees incurred by the buyer in enforcing the continuing forest land obligation against the seller.

Failure by the seller to send the required notice to the DNR at the time of sale will be prima facie evidence in an action by the buyer against the seller for costs related to the continuing forest land obligation prior to sale.
