22. Reforestation. Check the appropriate box(es).

☐ Planting. Tree Species: Douglas-fir

☐ Natural. Include a Natural Regeneration Plan

☐ Not required because of one or more of the following:

☐ I am converting some or all of this land to non-forest land in the next 3 years or lands are exempted under WAC 222-34-050.

☐ Individual dead, dying, down, or wind-thrown trees will be salvaged.

☐ Trees are removed under a thinning program reasonably expected to maximize the long-term productivity of commercial timber.

☐ I am leaving at least 100 vigorous, undamaged, and well-distributed saplings or merchantable trees per acre.

☐ An average of 190 tree seedlings per acre are established on the harvest area and my harvest will not damage it.

☐ Road right-of-way or rock pit development harvest only.

**** If you own MORE than 80 forested acres in Washington, skip to Question 27 ****

23. Are you using the exempt 20-acre parcel riparian management zone (RMZ) rule on type S, F, or Np waters?

☐ No If no, continue to Question 27.

☐ Yes If yes, continue to Question 24. See instructions for qualifications and information.

24. Choose the answer below that best fits your situation. Show all RMZs on the Activity Map.

☐ a. ALL of the following apply to me and my land: (If no, answer b.)
   - Between June 5, 2006 and today's date I have always owned less than 80 acres of forestland in Washington.
   - Between June 5, 2006 and today's date this parcel has always been 20 acres or less of contiguous ownership. See RCW 76.09.020 for definition of 'contiguous'.
   - Between June 5, 2006 and today's date this parcel has always been owned by me or someone else that has owned less than 80 acres of forestland in Washington.
b. ONE OR MORE of the following apply to me and/or my land (check all that apply):

☐ I currently own more than 80 acres of forestland in Washington.

☐ Between June 5, 2006 and today’s date I have owned more than 80 acres of forestland in Washington.

☐ Between June 5, 2006 and today’s date this parcel has been a part of more than 20 acres of contiguous ownership. See RCW 76.09.020 for definition of ‘contiguous’.

☐ Between June 5, 2006 and today’s date this parcel has been owned by someone that has owned more than 80 forested acres in Washington.

If any of the statements in (b) above apply AND you use the 20-acre exempt RMZ rule, you are NOT authorized under the State’s Incidental Take Permits (see explanation in FPA instructions under Questions 24).

25. If harvesting within 115 feet of a Type S or F water on an exempt 20-acre parcel, complete the table below. Show RMZs and stream segment identifiers on the Activity Map. Conditions on Approval / Reasons for Disapproval

Conditions:
Fell and yard timber away from areas displaying forested wetland characteristics (standing water or saturated soils, wetland vegetation).
If equipment is to enter areas displaying forested wetland characteristics, apply a mat of slash to the operating area to minimize soil compaction/displacement. Remove and scatter mat of slash when yarding is complete. If excessive rutting or soil displacement occurs (ruts 6 inches or deeper on 10% or more of the area on which equipment is operated within forested wetlands), stop yarding until dry conditions prevail. Any areas rutted shall be recovered to prevent impacting hydrology.

Note:
Proposed road parallels stream A1. Road construction should respect the 30 foot equipment limitation zone on the stream except at crossings. WAC 222-30-021(2)(a) & 222-21-020

Hi Linda,

After talking to Molly Patterson at the county and Steve from DNR we’ve decided to request a withdrawal of FPA 2816472 which was applied for by Batjack Holdings LLC (Ben Cedarland 253-208-7686)

My husband, Justin, and I are the current landowners and will be applying for the class IV-general through Snohomish County.

Let me know if there’s anything else we need to do.

Thanks!
