### ALTERNATIVE PRESCRIPTIONS

- [ ] Alternate Plan
- [ ] Ten-Year Forest Management Plan
- [ ] Columbia River Gorge National Scenic Area
- [ ] Watershed Analysis:

### RESOURCE REVIEW

- [X] Unstable Slopes (Risk: Highway, Water: )
  - [ ] Soils Map (Highly Erodible & Very Unstable)
  - [ ] Landslide Hazard Zonation
  - [ ] Landslide Inventory Polygon
  - [ ] Rain-on-Snow and Outside Approved WA
  - [ ] Hydric Soils
    - [ ] Wetland
    - [ ] Forested
    - [ ] A
    - [ ] B
  - [ ] In WMZ of [ ] A, or [ ] B Wetland
  - [ ] In RMZ/ELZ of Type [ ] S, [ ] F, [ ] N water
  - [ ] Water Verification

### ASSOCIATED NON-SCANNED DOCUMENTS - On file with the FPA/N at the Region office.

- [ ] Large Landowner Road Maintenance and Abandonment Plan

### ASSOCIATED SCANNED DOCUMENTS

- [ ] Conversion Option Harvest Plan
- [ ] FHP Plan & Specifications
- [ ] Qualified Expert Report; Type:
- [ ] Natural Regeneration Plan
- [ ] Shoreline Permit
- [ ] Marbled Murrelet Form
- [ ] FPBM Appendix(s)
- [ ] Small Landowner RMAP Checklist
- [ ] CMZ Assessment Form

EARR Tax Credit: [ ] Yes [ ] No

3. Landownership information: See instructions

a. [ ] No  X Yes Are you a small forest landowner per RCW 76.09.450?
   If yes, continue to b.

b. [ ] No  X Yes Is your entire proposed harvest area on a single contiguous ownership consisting of one or more parcel?

4. If you are harvesting timber, enter the Forest Tax Reporting Account Number of the Timber Owner:

800-078-149

For tax reporting information or to receive a tax number, call the Department of Revenue at 1-800-548-8829.

5. Are you substituting prescriptions from an approved state or federal conservation agreement or watershed analysis?

[ ] No  X Yes Write 'HCP' or 'Using Prescriptions' in tables that apply. Attach or reference prescriptions and/or crosswalks on file at the Region office.
6. What is the legal description of your forest practices?

<table>
<thead>
<tr>

7. When are you planning to begin work on the proposed activity?  
   Summer/Fall 2017

8. Is the taxpayer eligible for the EARR Tax Credit?
   □ No  ❑ Yes

9. Have you reviewed this forest practices activity area to determine whether it may involve historic sites and/or Native American cultural resources? Read the instructions before answering this question.
   ❑ No  □ Yes

10. Do you have a DNR approved Road Maintenance and Abandonment Plan (RMAP)?
    a. □ No  ❑ Yes  List the RMAP number: __________________________
       If no, continue to b.
    b. □ No  ❑ Yes  Is a Checklist RMAP required (see instructions)?

11. Are there potentially unstable slopes or landforms in the area of your forest practices activity?
    ❑ No  □ Yes – attach Slope Stability Informational Form. If applicable, attach geotechnical report, the SEPA Environmental Checklist, HCP, or Watershed Analysis prescriptions.

12. Are there potentially unstable slopes or landforms around the area of your forest practices activity?
    □ No  ❑ Yes – attach Slope Stability Informational Form. If applicable, attach geotechnical report, HCP, or Watershed Analysis prescriptions.

13. Is this forest practice application/notification (answer every question):
    a. ❑ No  □ Yes  Within city limits or inside an urban growth area? If yes, see instructions for additional required documents.
    b. ❑ No  □ Yes  For road work that is included in an approved Road Maintenance and Abandonment Plan (RMAP)?
    c. ❑ No  □ Yes  Within a public park? If yes, include SEPA Environmental Checklist or SEPA Determination – except for harvest/salvage of less than 5,000 board feet within a developed public park.
    d. ❑ No  □ Yes  Within 500 feet of a public park? Park name: _________________________
    e. ❑ No  □ Yes  In an approved Conversion Option Harvest Plan (COHP) from the local government? If yes, include a copy. This only applies to proposals within urban growth areas.
    f. ❑ No  □ Yes  Within 200' of the Ordinary High Water Mark (OHWM) or floodway of Type S water? If yes, check with the county or city to determine whether a substantial development permit is required under the local shorelines master plan.
    g. ❑ No  □ Yes  A request for a multi-year permit? If yes, length requested: □ 4 years or □ 5 years. Not everyone qualifies for a multi-year permit. See instructions for details.
h. ☑ No □ Yes An Alternate Plan? If yes, include a copy.

i. □ No ☑ Yes Within 50 miles of saltwater and do you own more than 500 acres of forest land in Washington State? If yes, include Marbled Murrelet Form or attach/reference HCP prescriptions.

j. ☑ No □ Yes In or directly adjacent to a potential Channel Migration Zone (CMZ)? If yes, include CMZ Assessment Form. Attach/reference applicable HCP and/or Watershed Analysis prescriptions.

***** If not working in or over typed waters, skip to Question 18 *****

You are required to verify Type Np and Ns water types within 200 feet of your proposed forest practices activities prior to submitting a Forest Practices Application / Notification. Use the Additional Information section, additional pages, the Water Type Classification Worksheet, and/or a Water Type Modification form to explain how you verified water types. See Water Typing Requirements in the instructions.

Prior to answering Questions 14-17 in this section please refer to the Forest Practices Application Instructions and Forest Practices Board Manual Section 5.

14. Are you proposing any of the following projects NOT permitted by current HPAs from WDFW?

a. ☑ No □ Yes Installing, replacing, or repairing a culvert at or below the bankfull width of Type S or F water(s) that exceeds a five percent gradient?

b. ☑ No □ Yes Constructing, replacing, or repairing a bridge at or below the bankfull width of unconfined streams in Type S or F water(s)?

c. ☑ No □ Yes Placing fill material within the 100-year flood level of unconfined streams in Type S or F water(s)?

15. Have you consulted with DNR and/or WDFW about the proposed hydraulic project(s) in or over Type S or F water? ☑ No □ Yes

16. If installing, replacing, removing, or maintaining structures in or over any typed water, complete the table below. Type S and F waters require detailed plan information. Provide plan details in Question 31 or attach plan to the FPA/N. Provide crossing locations and identifiers on your Activity Map. A detailed plan with profiles may also be required for more complex hydraulic projects in Type N Waters per WAC 222-24-042(2).

</table>

22. Reforestation. Check the appropriate box(es).

☐ Planting. Tree Species: Noble fir

☐ Natural. Include a Natural Regeneration Plan

☐ Not required because of one or more of the following:

☐ I am converting some or all of this land to non-forest land in the next 3 years or lands are exempted under WAC 222-34-050.

☐ Individual dead, dying, down, or wind-thrown trees will be salvaged.

☐ Trees are removed under a thinning program reasonably expected to maximize the long-term productivity of commercial timber.

☐ I am leaving at least 100 vigorous, undamaged, and well-distributed saplings or merchantable trees per acre.

☐ An average of 190 tree seedlings per acre are established on the harvest area and my harvest will not damage it.

☐ Road right-of-way or rock pit development harvest only.

**** If you own MORE than 80 forested acres in Washington, skip to Question 27 ****

23. Are you using the exempt 20-acre parcel riparian management zone (RMZ) rule on type S, F, or Np waters?

☐ No If no, continue to Question 27.

☐ Yes If yes, continue to Question 24. See instructions for qualifications and information.

24. Choose the answer below that best fits your situation. Show all RMZs on the Activity Map.

☐ a. ALL of the following apply to me and my land: (If no, answer b.)

   - Between June 5, 2006 and today's date I have always owned less than 80 acres of forestland in Washington.
   - Between June 5, 2006 and today's date this parcel has always been 20 acres or less of contiguous ownership. See RCW 76.09.020 for definition of 'contiguous'.
   - Between June 5, 2006 and today's date this parcel has always been owned by me or someone else that has owned less than 80 acres of forestland in Washington.
b. ONE OR MORE of the following apply to me and/or my land (check all that apply):

☐ I currently own more than 80 acres of forestland in Washington.

☐ Between June 5, 2006 and today's date I have owned more than 80 acres of forestland in Washington.

☐ Between June 5, 2006 and today's date this parcel has been a part of more than 20 acres of contiguous ownership. See RCW 76.09.020 for definition of 'contiguous'.

☐ Between June 5, 2006 and today's date this parcel has been owned by someone that has owned more than 80 forested acres in Washington.

If any of the statements in (b) above apply AND you use the 20-acre exempt RMZ rule, you are NOT authorized under the State's Incidental Take Permits (see explanation in FPA instructions under Questions 24).

25. If harvesting within 115 feet of a Type S or F water on an exempt 20-acre parcel, complete the table below. Show RMZs and stream segment identifiers on the Activity Map. If you are harvesting within 75 feet or within the maximum RMZ (whichever is less), stream shade must be assessed and met following harvest. Describe how stream shade was determined to be met, using the 'Stream Shade Assessment Worksheet' if necessary.

<table>
<thead>
<tr>
<th>Stream Segment Identifier (letter)</th>
<th>Water Type (S, F)</th>

</tbody>
</table>

26. Are you harvesting within 29 feet of a Type Np water on a 20-acre exempt parcel?

☐ No    Continue to Question 29.

☐ Yes    See instructions and describe leave tree strategy in Question 31. Then continue to Question 29.

27. If harvesting within 200 feet of any of Type S or F water, complete the table below. Include DFC for all inner zone harvests unless you have an HCP prescription. Show RMZs, CMZs, and stream segment identifiers on the Activity Map. If you are harvesting within 75 feet or within the maximum RMZ (whichever is less), stream shade must be assessed and met following harvest. Describe how stream shade was determined to be met, using the 'Stream Shade Assessment Worksheet' if necessary.

<table>
<thead>
<tr>

</tbody>
</table>

29. How are the following marked on the ground? *(Flagging, paint, road, fence, etc.)*

- **Harvest Boundaries:** Pink "Timber Harvest Boundary" Flagging
- **Clumped Wildlife Reserve Trees/Green Recruitment Trees:** Pink "Timber Harvest Boundary" Flagging
- **Right-of-way limits/road centerlines:** N/A
- **Stream Crossing Work:** Orange flagging
- **Riparian Management Zone Boundaries and Leave/Take Trees:** No cut Outerzone: Pink "THB" Flagging
- **Channel Migration Zone:** Pink "Timber Harvest Boundary" Flagging
- **Wetland Management Zone Boundaries and Leave/Take Trees:** N/A

30. Are you converting the land to non-forestry use within 3 years of harvest?  
☑ No ☐ Yes  If yes, include your SEPA Determination and/or SEPA checklist.

31. Additional Information (attach additional pages if necessary): For hydraulic projects in or over Type S, F, or complex N water(s) see instructions for required plan information.  

The reference name for this activity is "Needle".

Please see attached FPA Addendum.

Notice: Any agency, person or persons desiring to conduct a filed review of this FPA must contact American Forest Management, Inc. (AFM) for access and traffic information. Such access will be granted to those having a legitimate, specific interest in reviewing the FPA during a specific time frame. These precautions are necessary for the safety and protection of our tree farm visitors as well as the people who work on the tree farm. Thank you for your cooperation.
32. We acknowledge the following:

- The information on this application/notification is true.
- We understand this proposed forest practice is subject to:
  - The Forest Practices Act and Rules AND
  - All other federal, state or local regulations.
- Compliance with the Forest Practices Act and Rules does not ensure compliance with the Endangered Species Act or other federal, state or local laws.
- If we said that we would not convert the land to non-forestry use, the county or city may deny development permits on this parcel for the next 6 years.
- The following may result in an unauthorized incidental take of certain endangered or threatened fish species:
  - Conversion of land to non-forestry use.
  - Harvesting within the maximum RMZ on a 20-acre exempt parcel that was acquired after June 5, 2006.
  - Equipment Crossings/Fords in or over Type S and F Waters.
- Inadvertent Discovery – Chapters 27.44, 27.53, 68.50 and 68.60 RCW
  - If you find or suspect you have found an archaeological object or Native American cairn, grave, or glyptic record, immediately cease disturbance activity, protect the area and promptly contact the Department of Archaeology and Historic Preservation at 360 586-3077.
  - If you find or suspect you have found human skeletal remains, immediately cease disturbance activity, protect the area, and contact the County Coroner or Medical Examiner and local law enforcement as soon as possible. Failure to report human remains is a misdemeanor.

The landowner understands that by signing and submitting this FPA, he/she is authorizing the Department of Natural Resources to enter the property in order to review the proposal, inspect harvest operations, and monitor compliance for up to three years after its expiration date. RCW 76.09.150

* NOTE: If you are a "Perpetual Timber Rights Owner," and are submitting this without the Landowner's Signature, provide written evidence the landowner has been notified.

Please make a copy of this FPA/N for your records. If this FPA/N contains a hydraulic project requiring WDFW concurrence review, it will not be available online for public review until after the WDFW concurrence review period.
#17. Activities in Typed Waters

Timber will be felled away from typed waters where possible, but some timber may need to be felled towards/into typed waters to facilitate safe harvesting practices. An equipment limitation zone will restrict all harvesting equipment within 30’ of type Np and Ns waters.

#18. Road Reconstruction

Approximately 740 feet of R1 will be reconstructed to access the property. 880 feet of R2 will be reconstructed due to water flow down the existing road. The remaining road will be brushed clear of debris and new pipes will be added where needed. Intermediate relief pipes will be added in-between typed streams.

#31. Additional Information

No part of this harvest unit is beyond 800’ of a reserve tree. There is an alluvial fan area located on stream K. This alluvial fan area only receives flow during high flow.
Appendix D. Slope Stability Informational Form

Complete and attach this form to your FPA if you answered ‘Yes’ to FPA Question 11 or 12. Refer to WAC 222-16-050(1)(d) and Forest Practices Board Manual Section 16—Guidelines for Evaluating Potentially Unstable Slopes for definitions and descriptions of potentially unstable slopes or landforms.

1. What screening tools were used? ☒ Aerial Photo, ☒ LiDAR, ☐ Landslide Inventory, ☐ Landslide Hazard Zone Polygon, ☒ GIS/Other (describe):
   Field Review

2. Were there any features identified using the screening tools in #1 that did not exist in the field? If yes, describe:
   No.

3. a. What potentially unstable slopes or landforms were identified in the area of your forest practices activity? Check all that apply:
   ☐ Inner Gorge ☐ Groundwater recharge areas for glacial deep-seated landslides
   ☐ Bedrock Hollow ☐ Convergent Headwall ☐ Toe of deep-seated landslide
   ☐ Outer edges of meander bends
   ☐ Other (Deep-seated landslides or other features of potentially unstable slopes). Describe:

b. What activities may occur in potentially unstable slopes or landforms? Check all that apply:
   ☐ Timber harvest ☐ Road construction ☒ Suspending cables ☒ Yarding ☒ Tailholds

4. a. What potentially unstable slopes or landforms were identified around the area of your forest practices activity? Check all that apply:
   ☐ Inner Gorge ☐ Groundwater recharge areas for glacial deep-seated landslides
   ☒ Bedrock Hollow ☒ Convergent Headwall ☐ Toe of deep-seated landslide
   ☒ Outer edges of meander bends
   ☐ Other (Deep-seated landslides or other features of potentially unstable slopes). Describe:

b. What activities may occur around potentially unstable slopes or landforms? Check all that apply:
   ☒ Timber harvest ☒ Road construction ☒ Suspending cables ☒ Yarding ☐ Tailholds

For use with FPA/N dated 6/1/2016 or later
5. If any features identified in #3.a. and/or #4.a. were bounded out, describe the manner in which the boundary was determined:

Boundary was determined using GIS, LIDAR and field recon. Side-hill seeps that were observed in the field have a 50' buffer from the point of flow. Multiple convergent headwalls were observed in the field and bounded out along the break in slope. An alluvial fan was observed in the field and bounded out along the edge of the high water mark.

6. Were areas of public use (which may include, but are not limited to: public roads, utilities, designated recreation areas, occupied structures, etc.) identified in or around the area of your proposed forest practices activity? Show these locations on the map in #8.

No public access.

7. Date of field review: 06/8/2017

Person(s) that conducted field review: Ryan Stanley

Name

Title/position

8. Show all field reviewed areas for potentially unstable slopes or landforms on a map (may use a forest practices activity map, harvest map or GIS map – See example below). Show locations where areas of public use exist. This map is intended to be developed by the field practitioner.
Appendix A. Western Washington Water Type Classification Worksheet

Stream/Segment ID: MA, MB, NA, NB  Stream/Segment ID: KA, KB, KC  Stream/Segment ID: ______________

Date Observed: 11/8/2016  Date Observed: 11/8/2016  Date Observed: ______________

1. Do you have a protocol survey? (See the Board Manual Section 13) Or, does the stream have waiver characteristics? (See WAC 222-16-031(3) (b) (iii))
   [ ] Yes. Attach documentation or approved WTMF number:  [ ] Yes. Attach documentation or approved WTMF number:  [ ] Yes. Attach documentation or approved WTMF number:

[ ] Yes. Type Ns water. Stop.
[ ] No. non-typed water.
[ ] Yes. Type Ns water. Stop.
[ ] No. non-typed water.
[ ] Yes. Type Ns water. Stop.
[ ] No. non-typed water.
[ ] Yes. Type Ns water. Stop.
[ ] No. non-typed water.

9. Describe how you determined the uppermost point of perennial flow. Include a description of its location and show the point on a map (Use a separate piece of paper if necessary).
Stream/Segment ID A, K  Description:

UMPPF for stream A is located outside of the scope of this proposal. Stream K UMPPF was determined through field observations looking at stream characteristics. The UMPPF was flagged with a 56' buffer.
Appendix E. CMZ Assessment Form

Township: 27N  Range: 09E  Section: 19

Complete and attach this informational form to your FPA if you answered "Yes" to FPA question 13 j. Refer to Forest Practices Board Manual Section 2—Standard Methods for Identifying Bankfull Channel Features and Channel Migration Zones for guidance on evaluating Channel Migration Zones (forms within BM 2 are optional).

Applicant Office Review:

1. Screening tools used:GIS Aerial Photo Years: 1984-2016 LiDAR USGS Topographic Map
   □ Other (describe):

2. Are you aware of channel movement or did you observe obvious channel movement between aerial photograph years?
   □ No, continue with to question 3  □ Yes, skip to question 5

3. Evaluate valley confinement using USGS topographic map(s) or aerial photographs.
   □ Valley floor is significantly wider than the channel. Channel migration may be occurring.
   □ Valley floor is very narrow, obviously less than twice as wide as the channel. If you can clearly see this circumstance on the aerial photographs, it is unlikely that channel migration is occurring.

4. Did you observe any of the following on the aerial photographs?
   □ Side Channels  □ Multiple Channels (Braiding)
   □ Large Gravel Bars  □ Wood Jams
   □ Eroding Banks  □ High Sinuosity or Sharp Channel Bends
   □ New Channels Occurring Between Photo Years (Avulsions)

Field Review:

5. Date of field review: 11/16/2016

6. Person(s) that conducted field review: Ryan Stanley
   Name
   Forester
   Name
   Title/position
   Name
   Title/position

7. If CMZ is present check the component(s) present in your CMZ delineation.
   □ Avulsion hazard area  □ Erosion hazard area (attach erosion rate calculations)

8. What was the distance of channel walked? What was the length of CMZ boundary delineated?
   Approximately 1700' feet along the Np was walked with 322' of that being in the Alluvial fan area.

9. Briefly describe how you determined a CMZ exists, how you delineated the outer edge of the CMZ, and how you marked the outer edge of the CMZ on the ground (flagging color, paint, etc.):
   Multiple channels were observed during the field visit with some larger side channels. The outmost high water mark was bounded with Pink "Timber Harvest Boundary" flagging.
Marbled Murrelet Form
Western Washington Forest Practices Application/Notification

Complete this form only if you are harvesting timber (including salvage) or constructing roads. Do not complete this form if you have an HCP for marbled murrelets.

Answer every question.

1. ☒ No ☐ Yes For this FPA/N, has a protocol survey(s) been completed that includes:
   - Harvest units (and within 300 ft on your ownership), or
   - Salvage units (and within 300 ft on your ownership), or
   - Any area of proposed road construction (and within 300 ft on your ownership)?
   If 'Yes', fill out the table and check the appropriate findings below.

Explanation:

2. ☒ No ☐ Yes ☐ Unknown Will you harvest, salvage, or construct roads within 0.25 miles of an occupied site?

3. ☒ No ☐ Yes ☐ Unknown Will you fly helicopter(s) over or within 0.25 miles of an occupied site?

4. ☒ No ☐ Yes Will you harvest live trees in a buffer of an occupied site?
   If Yes, describe the leaf trees and buffer widths you will leave. NOTE: If you leave less than required in WAC 222-16-080(1) (h) (v) this is a Class IV-Special and an Environmental Checklist is required

Description of managed buffers:
5. **No** ☒ Yes  Are there nesting platforms within any harvest unit (including salvage and road construction) that are within 300 feet that:
* Are not located within a surveyed area, and;
* Have a minimum of 2 platforms per acre, and;
* Are located within 7 or more acres of contiguous habitat, and;
* Have a least 40% (number not volume) of the dominant and co-dominant trees made up of Douglas-fir, western hemlock, western red cedar, or Sitka spruce?

*If "Yes", complete the table below for those areas.*

<table>
<thead>
<tr>
<th>Name or # (as shown on map) of delineated stands of contiguous habitat</th>
<th>Delineated stand acres</th>
<th>Nesting platforms per acre</th>
<th>Number of trees 32 inches dbh or greater with platforms</th>
<th>Platform Assessment Method</th>
</tr>
</thead>
<tbody>

</tr>
</tbody>
</table>

6. **No** ☒ Yes  Are there areas within this forest practice or within 300 feet that:
* Are not surveyed, and;
* Are not listed in question 5, and;
* Have trees that are at least 32 inches dbh

*If "Yes", list the forest practice unit numbers from your activity map. Provide brief description of current stand conditions. Such as tree species composition, stand age (if known), and maximum tree size (dbh).*

Harvest Unit #(s) ☐ Within the Unit ☐ Within 300 feet of the Unit

Description:

Harvest Unit #(s) ☐ Within the Unit ☐ Within 300 feet of the Unit

Description:

Harvest Unit #(s) ☐ Within the Unit ☐ Within 300 feet of the Unit

Description:

7. If you answered yes to question 1, 4, or 5, include a map (separate from your map that shows your harvest units and/or road construction) *See the instructions for the information required on each map.*
SMALL FOREST LANDOWNER CHECKLIST RMAP
WHEN TO SUBMIT A CHECKLIST RMAP

Submit this checklist with your Forest Practices Application/Notification (FPA/N) for harvest or salvage. If you have already submitted a Checklist for these roads, please contact the DNR region office. The Checklist is for existing roads on your forest land that have been used by anyone for a forest practice since 1974. Do not include haul roads on your neighbor’s property. Do not include skid trails.

THIS CHECKLIST APPLIES TO (Check one)

☒ The forest roads on my forest land that I will use for this FPA/N. Minimum Required
☐ I assessed all the forest roads on my forest land. Assessing all your forest roads is optional. If you choose this, you will not be required to submit additional checklists with future FPA/N’s. If you check this box, include a DNR Activity Map(s) that shows all your forest roads. Maps are available at DNR region offices and on the DNR website at http://www.dnr.wa.gov/BusinessPermits/Topics/ForestPracticesApplications/Pages/fp_fpars.aspx. You need to know the legal description (section, township, and range) of your roads in order to request a map.

The approximate total number of miles of forest road assessed in this Checklist is: 1.25

This information will be used for statewide statistics.

FOREST ROAD ASSESSMENT

Please complete this section after you have assessed your forest roads.

☐ I need help with this section. (If you check this box, you may leave the rest of the boxes in this section blank. DNR will contact you)

The following boxes describe common sediment and road issues. Check all that apply.

☒ Water from the road or ditch runs directly into typed water.
☒ Water flows under, over, or around the culvert.
☒ The culvert keeps filling with dirt.
☒ The road has large cracks or ruts.
☐ The road has sinkholes. (Not a pothole – but a hole that you can’t drive over)
☒ Dirt from the uphill side of the road keeps falling into the ditch-line before regularly scheduled maintenance.
☐ Dirt from the cut-slope keeps falling downhill into or near a stream, pond, or wetland.
☒ There are indications of past surface erosion

☒ The road crosses typed water (a culvert, bridge, or ford exists).
☐ I have assessed my forest roads and they do not have any of the above issues.

FAMILY FOREST FISH PASSAGE PROGRAM

This is a program to fix fish passage barriers, such as culverts. Not all culverts are fish passage barriers. For an evaluation of your potential fish passage barrier please contact the DNR’s Small Forest Landowner Office in Olympia at (360) 902-1404 or go to www.dnr.wa.gov/fpfp for more information.
Check one of these boxes

☐ I choose to enroll in the Family Forest Fish Passage Program and would like to have my potential barrier evaluated for eligibility. I understand that by checking this box I may be required to provide cost-share associated with the barrier removal or replacement.

☐ I choose not to enroll in the Family Forest Fish Passage Program and accept responsibility for removing or repairing any artificial fish barrier on my forest roads at my own expense.

☐ This barrier is already enrolled in the Family Fish Passage Program.

ORPHANED ROADS
State law requires DNR to keep an inventory of orphaned roads that pose a risk to public safety or to public resources. Your help with this inventory is requested.

Orphaned roads are:
- Roads on your forest land that have not been used for forest activities since 1974. Forest Practices activities include timber cutting, timber hauling, tree planting, brush control, precommercial thinning, timber salvage, etc.

Check one of these boxes

☒ I do not have orphaned roads that I think pose a risk to public resources or public safety – such as houses, highways, county roads, streams, ponds, or wetlands.

☐ I have orphaned roads that I think may pose a risk to public resources or public safety – such as houses, highways, county roads, streams, ponds or wetlands. (Please show the locations of all these orphaned roads on a separate DNR Activity Map. This is not the same map that shows your harvest)

☐ I need help identifying orphaned roads.

ROAD MAINTENANCE OBLIGATIONS
All forest landowners have a legal obligation to maintain all their forest roads on all their forest land to the extent necessary to prevent damage to public resources. This includes forest roads not shown on this Checklist. Maintenance rules are in WAC 222-24-052. Best Management Practices (BMP's) for road maintenance are in the Forest Practices Board Manual Section 3. Both are in the forest practices rule book or on the DNR website at: http://www.dnr.wa.gov/BusinessPermits/Topics/ForestPracticesRules/Pages/Home.aspx

Road maintenance includes:
- Inspecting forest roads and fixing damage before, during, and after hauling timber and/or rock
- Keeping drainage structures (relief culverts, ditches, water bars, dips, etc.) and water crossings functional
- Making sure water from roads and ditches do not flow directly into streams, ponds, or wetlands

☐ My road(s) are maintained to Forest Practices standards.

LANDOWNER INFORMATION
I certify that at the time I submit this FPA/N I am a small forest landowner because:
- I have an average annual timber harvest level of two million board feet or less from my own forest land in Washington State; and
- I have not exceeded this average annual harvest level in the last three years; and
- I will not exceed this average annual harvest level for the next ten years.

Printed Name of Landowner: Jake Associates, LLC

Landowner Signature(s):

Washington State Department of Natural Resources • Notice of Decision • August 5, 2013
**Appeal Information**

You have thirty (30) days to appeal this Decision and any related State Environmental Policy Act determinations to the Pollution Control Hearings Board in writing at the following addresses:
Physical address: 1111 Israel Rd. SW, Ste 301, Tumwater, WA 98501
Mailing address: P.O. BOX 40903, OLYMPIA, WA 98504-0903
Information regarding the Pollution Control Hearings Board can be found at: [http://www.eluho.wa.gov/](http://www.eluho.wa.gov/)
At the same time you file an appeal with the Pollution Control Hearings Board, also send a copy of the appeal to the Department of Natural Resources' region office and the Office of the Attorney General at the following addresses:

Office of the Attorney General
Natural Resources Division
1125 Washington Street SE
PO Box 40100
Olympia, WA 98504-0100

Department Of Natural Resources
Northwest Region
And
919 N Township St
Sedro-Woolley WA 98284

**Other Applicable Laws**

Operating as described in this application/notification does not ensure compliance with the Endangered Species Act, or other federal, state, or local laws.

**Transfer of Forest Practices Application/Notification (WAC 222-20-010)**

Use the "Notice of Transfer of Approved Forest Practices Application/Notification" form. This form is available at region offices and on the Forest Practices website: [http://www.dnr.wa.gov/businesspermits/forestpractices](http://www.dnr.wa.gov/businesspermits/forestpractices).
Notify DNR of new Operators within 48 hours.

**Continuing Forest Land Obligations (RCW 76.09.060, RCW 76.09.070, RCW 76.09.390, and WAC 222-20-055)**

Obligations include reforestation, road maintenance and abandonment plans, conversions of forest land to non-forestry use and/or harvest strategies on perennial non-fish habitat (Type Np) waters in Eastern Washington.

Before the sale or transfer of land or perpetual timber rights subject to continuing forest land obligations, the seller must notify the buyer of such an obligation on a form titled "Notice of Continuing Forest Land Obligation". The seller and buyer must both sign the "Notice of Continuing Forest Land Obligation" form and send it to the DNR Region Office for retention. This form is available at DNR region offices.

If the seller fails to notify the buyer about the continuing forest land obligation, the seller must pay the buyer's costs related to continuing forest land obligations, including all legal costs and reasonable attorneys' fees incurred by the buyer in enforcing the continuing forest land obligation against the seller.

Failure by the seller to send the required notice to the DNR at the time of sale will be prima facie evidence in an action by the buyer against the seller for costs related to the continuing forest land obligation prior to sale.

2. Approved FPA/N Number 2815913

3. Describe the proposed amendment to the original FPA/N. You can attach revised pages of an FPA/N, or give specific details. Include a new Activity Map if you are proposing any changes to the original.

Stream K was miss-typed as a perennial stream. During a field assessment on August 10th 2017, the stream did not have any flow. The two sided 50 foot buffer, and UMPFF associated with Stream K was removed, along with the CMZ area. Attached is an updated map with the changes made in the field.

4. I affirm that the information contained herein is true, and understand that this proposed forest practice is subject to the Forest Practices Act and Rules, as well as all other federal, state or local regulations. Compliance with the Forest Practices Act and Rules does not ensure compliance with the Endangered Species Act or other federal, state or local laws. I understand this amendment is a request for a Notice to Comply for an authorized deviation as described in WAC 222-20-060.
