Partially obscured by scree
Partially obscured by scree
Heavily weathered, fine grained
No. 15138
WOs = 0.48
COz = 2.48
Random grab sample weathered irregular mineralization over 2' maximum wedging out
LEGEND
Coarse grained leucocratic granite and pegmatite
Variable melanocratic granite, granodiorite, gneiss and schist
Epidotized silicious metamorphics
Marble - limestone, impure
Fractures
Vertical fractures
Foliation
Vertical foliation
Bedding
Dyke plane
Contours, 5' intervals
Zero point contour datum
