Ilwaco and Cape Disappointment
Tsunami Evacuation Walk Times

This map is a planning and preparation tool. Learn the evacuation routes for you and your family where you live, work, and play—evacuation maps may not be on hand during an actual emergency.

This evacuation walk time map for Ilwaco and Cape Disappointment is the result of a combination of the amount of time it would take to evacuate from the nearest tsunami inundation zone of a known tsunami event and the estimated time of tsunami arrival.

Evacuation should begin as soon as an earthquake shaking begins and/or if you receive your local tsunami warning.

Tsunami evacuation should be gradual. Do not walk to higher ground or up the beach in a single step. If you need to walk to higher ground or up the beach, do so slowly and carefully.

Tsunami evacuation should be gradual. Do not walk to higher ground or up the beach in a single step. If you need to walk to higher ground or up the beach, do so slowly and carefully.

In some places, a slow walk may not be fast enough to evacuate before waves arrive. In these cases, a faster evacuation pace will be necessary. Some areas may require vertical evacuation.
