ENHANCEMENTS & BUG FIXES
Release Notes for Version 5.13.7 - 5.13.8.3 – October 25, 2013

| | AREA OF CHANGE | DESCRIPTION |
|----------|---|--|
| 1 | ADMINISTRATION- USER ACCOUNT | 1) When a user has an Organization Client access level, they will no longer be able to assign permissions on user accounts. The Available and Current permission fields, along with the arrows, will not be available. |
| 2 | LOT NUMBER & RECONCILIATION SECTIONS | A legend has been added to define the colors that are used on the Reconciliation and Lot Number Search Screens. 1) Red – Expired Vaccines 2) Yellow – Expires in 30 days or less 3) Pale Grey – Private Lots 4) Dark Grey – Public Lots. |
| 3 | RECONCILIATION & LOT NUMBER MANAGER | 1) Added an additional reason: ‘Expired Open Multi-dose Vials’ to the Reason section for an Expired Category. |
| 4 | REPORTS – REPORT MODULE – VACCINE MANAGEMENT - LHJ | 2 reports are now available at the LHJ level in the Report Module under the Vaccine Management section. 1) Inventory Submission 2) Monthly Inventory Reconciliation Audit Report |
| 5 | REPORTS – REPORTS MODULE – PATIENT DETAIL REPORT | The default of ‘Only Show Patient Info’ being checked on the Patient Detail Report has been corrected. |
| 6 | REPORTS – REPORT MODULE – PROVIDER SUBMISSION REPORT | Provider Submission Report now has a menu screen. This allows the user to limit the report by providers with VFC PIN only, current ordering providers and/or current provider Agreements only. If more than one parameter is selected then all the selected criteria are included in the search results. |
