

The 2012-2013 provider flu vaccine pre-book survey for the State Childhood Vaccine Program is underway. It closes no later than January 16 2011. We faxed a notice about the survey to all health care providers enrolled in the State Childhood Vaccine Program in December. The survey allows providers to give us input about the amount and type of flu vaccine to pre-book for the program. It does not guarantee specific products to individual providers. Please help us by completing the on-line survey: <http://www.wafluvaccine.org>

- The person in the clinic who manages flu vaccine ordering and knows about flu vaccine use should complete the survey.

- They will need their vaccine ordering PIN to enter the survey.

For technical assistance with the survey e-mail help@wafluvaccine.org or contact us at 1-866-984-3638.

If you have questions about the State Childhood Vaccine Program, or the survey, please contact: The Washington State Office of Immunization and Child Profile at 360-236-3595, or via e-mail at Jan.Hicks-Thomson@doh.wa.gov
