Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The proposed rules are intended to implement 2012 legislation, Substitute Senate Bill (SSB) 6105 (chapter 192, Laws of 2012). The proposed rules establish alternative PMP data reporting requirements for veterinarians that are related to the animal patient, types of prescriptions that need to be reported, and when the data must be reported. For dispensers other than veterinarians, SSB 6105 changed previous PMP reporting requirements that all controlled substance dispensing must be reported. The bill now requires reporting only drugs dispensed for more than one day use.

Reasons supporting proposal:

SSB 6105 requires the department, in collaboration with the Veterinary Board of Governors, to establish alternative requirements for veterinarians reporting the dispensing of controlled substances to the PMP. The bill also changed PMP reporting requirements for other dispensers. The proposed rules are needed to implement changes in the PMP law.
