**WAC 388-112A-0610 Who is required to complete continuing education training each year, how many hours of continuing education are required, and when must they be completed?**

(1) Adult family homes.

(d) Continuing education must include one half hour per year on safe food handling in adult family homes as described in RCW 70.128.250 when the long-term worker does not maintain a food handler's permit.

**This requirement was not met as evidenced by:**

Based on interview and record review, the provider failed to ensure 1 of 2 sampled staff (Provider) completed 0.5 hours of safe food handling training or maintained a food worker card. This failure placed the residents at risk of harm from food borne illness.

**Findings included:**

Record review revealed no evidence of a current, valid food worker card. The food safety training expired 02/20/18. When interviewed on 01/10/19, the Provider said she did not realize the food safety training was only valid for 1 year. The Provider said she thought it was good for 2 years like the food handler card.

**Attestation Statement**

I hereby certify that I have reviewed this report and have taken or will take active measures to correct this deficiency. By taking this action, YOUR BAYVIEW HOME B is or will be in compliance with this law and / or regulation on (Date) 1-24-19. In addition, I will implement a system to monitor and ensure continued compliance with this cited deficiency.

**WAC 388-76-10750 Safety and maintenance. The adult family home must:**

(5) Ensure water temperature does not exceed one hundred twenty degrees Fahrenheit at all fixtures used by or accessible to residents, such as:

- (a) Tubs;
- (b) Showers; and
- (c) Sinks.

**This requirement was not met as evidenced by:**

Based on observation and interview, the Provider failed to ensure the water temperature in the main bathroom used by residents did not exceed 120 degrees Fahrenheit. This failure placed the residents at risk of harm from thermal burns.

**Findings included:**

During a tour of the home on 01/10/19, the hot water temperature was tested. The thermometer

was observed to read 123.7 degrees Fahrenheit. On 01/10/19, the Provider was asked if she checked the water temperature regularly. The provider said, "No, it's never been a problem before." The Provider turned the hot water tank dial down and when it was checked again at 4:00 PM the temperature read 114 degrees Fahrenheit.

**Attestation Statement**

I hereby certify that I have reviewed this report and have taken or will take active measures to correct this deficiency.
