WAC 388-76-10285 Tuberculosis Two step skin testing. Unless the person meets the requirement for having no skin testing or only one test, the adult family home, choosing to do skin testing, must ensure that each person has the following two-step skin testing:

(1) An initial skin test within three days of employment; and

This requirement was not met as evidenced by:

Based on interview and record review the adult family home (AFH) failed to ensure one of two caregivers (Caregiver A) had Tuberculosis (TB) skin test as required. This placed four residents (R#1, R#2, R#3, and R#4) at risk of possible exposure to communicable disease.

Findings include:

Interview and record review occurred on 12/04/2018.

Administrative record review showed the AFH hired Caregiver A on 11/16/2018. Caregiver A's record review showed a negative TB skin test dated 10/26/2017. There was no record found Caregiver A had a TB skin test done within three days of hire. There was no record found Caregiver A had two-step TB skin test. There was no other TB test record found for Caregiver A.

In an interview, Caregiver A said she did not have a TB skin test between the dates of 11/16/2018 and 11/19/2018.

In an interview, the Provider said she was not aware Caregiver A needed a TB skin test within three days of hire.

Attestation Statement

I hereby certify that I have reviewed this report and have taken or will take active measures to correct this deficiency. By taking this action, STAR LAKE ADULT FAMILY HOME is or will be in compliance with this law and / or regulation on (Date) 01/03/2019. In addition, I will implement a system to monitor and ensure continued compliance with this cited deficiency.
