RE: BETTYS ADULT CARE HOME License #750434

Dear Provider:

The Department completed a full inspection of your Adult Family Home on March 1, 2018 and found that your home does not meet the adult family home licensing requirements listed below.

The Department staff who did the inspection and provided consultation:  
Sarah Bjork, Licensor

**Consultation:**

**WAC 388-76-10750 Safety and maintenance. The adult family home must:**

(6) Provide storage for toxic substances, poisons, and other hazardous materials that is only accessible to residents under direct supervision, unless the resident is assessed for and the negotiated care plan indicates it is safe for the resident to use the materials unsupervised;

Laundry detergent and cans of yard sprays and chemicals were stored in the garage. The garage could be accessed from an unlocked door off the resident's dining room area. One resident in the home had confusion due to Alzheimer's disease (Resident #2) and was dependent on staff for mobility.

You Must:

- Begin the process of correcting the deficiency or deficiencies immediately; and
- Complete correction as soon as possible.

You Are Not:

- Required to submit a plan-of-correction for the deficiency or deficiencies found.

The Department May:

- Inspect the home to determine if you have corrected all deficiencies.

You May:
