RE: Bethany Adult Family Home License #752547

Dear Provider:

The Department completed a full inspection of your Adult Family Home on December 31, 2019 and found that your home does not meet the adult family home licensing requirements listed below.

The Department staff who did the inspection and provided consultation:
Martha Cornell, Field Manager

Consultation:

WAC 388-76-10485 Medication storage. The adult family home must ensure all prescribed and over-the-counter medications are stored:

(3) Appropriately for each medication, such as if refrigeration is required for a medication and the medication is kept in refrigerator in locked storage.

During the environmental tour at 9:35AM it was discovered Resident #1's insulin (Lantus) was unsecured in the fridge. The provider immediately secured the medication in the locked container and indicated she would talk to the staff about the incident.

You Must:

- Begin the process of correcting the deficiency or deficiencies immediately; and
- Complete correction as soon as possible.

You Are Not:

- Required to submit a plan-of-correction for the deficiency or deficiencies found.

The Department May:

- Inspect the home to determine if you have corrected all deficiencies.

You May:

- Ask for an informal dispute resolution meeting, according to the attached "Informal Dispute Resolution" instructions; and
