Medication assistance is done under nurse delegation.

ADDITIONAL COMMENTS REGARDING MEDICATION SERVICES :

The Provider or Caregiver will assist the Resident with their medications, if needed. If a Resident is unable to administer His / Her own medications, is unaware that they are taking medications due to confusion, or is unable to determine when they need a specific medications (medication – as needed), Nurse delegation will be required in order for the Caregiver to administer the medication to the Resident. Under Washington law, a RN determines that the Resident is in a predictable and stable condition and receives the consent from Resident / Representative to delegate the Nursing task. The Resident's Family / Representative may also administer medications to the Resident.

All the medication will be kept in locked storage and logged onto Resident's records when taken. If the Resident does not needed assistance with medication administration, a lockable container will be provided to secure the medication in the Resident's room.

Medication should be brought to the Facility by the Resident, the responsible party or delivered by the pharmacy and billed directly to the Resident or responsible party. All the medications including Vitamins or other food supplements must be approved in writing by a Physician and be included in the Resident's medication log. A cognitively alert Resident may take an over-the-counter medication without a Physician's order but it is the Policy of the Adult Family Home to notify the Physician when this occurs. If a Resident refuses a medication, the Physician will also be notified.

Skilled Nursing Services and Nurse Delegation

If the home identifies that a resident has a need for nursing care and the home is not able to provide the care per chapter 18.79 RCW, the home must contract with a nurse currently licensed in the state of Washington to provide the nursing care and service, or hire or contract with a nurse to provide nurse delegation.
