Hello Misty,

I am writing to provide you the Resolution (2020-16) approved and signed by our City Council last Tuesday that officially acknowledged our withdrawal of the aquaculture limited amendment (Ord 2016-06, attached). As we discussed a few weeks back, staff will pursue changes to this section of our code through the periodic review.

Thank you for your feedback and guidance to date, and we look forward to continuing to work with you on our periodic review.

Sincerely,

Heather Wright
