The following errata sheets correct discrepancies in the visual representation of functional analysis scores in the Shoreline Analysis Report for Grays Harbor County. The discrepancies resulted from transcription errors, and they did not affect the ecological analysis of reach characteristics in the Shoreline Analysis Report.

The following table replaces Table 5-11 on Page 107 of the Shoreline Analysis Report.

Table 5-11. Reach Functional Analysis Scores for Humptulips AU.

L=Low, L/M= Low/Moderate, M=Moderate, M/H=Moderate/High, and H=High Functions. Blank cells indicate data not available.
