Subject: Sumner SMP Periodic Review - Conditional Approval

THIS EMAIL ORIGINATED FROM OUTSIDE THE WASHINGTON STATE EMAIL SYSTEM - Take caution not to open attachments or links unless you know the sender AND were expecting the attachment or the link

Hi Laura,

Hope all is well with you and your team during this time. Sumner recently completed its SMP periodic review and received conditional approval from Ecology on March 5, 2020 (attached for reference). Sumner agreed to all the language in the recommended and required changes document with the exception of a minor edit to #7, which we discussed/reviewed with Ecology prior to adoption. Sumner's Council was not able to take immediate action on this item due to COVID 19; however, Sumner's Council was able to reconvene in a virtual setting on Monday June 15th and adopted Ecology's recommended and required items as shown in attached ordinance 2732.

Sumner looks forward to receiving final approval from Ecology on this update.

Please feel free to contact if anything else is needed or you have any questions or clarifications.

Thanks,

City Hall is currently closed to the public. Permit center will be by appointment only on Monday and Wednesday between 9:00am-2:00pm the remaining staff will continue to work remotely at this time. Please continue to mail in payments.
