# Joint Public Notice

## Application for a Department of the Army Permit and a Washington Department of Ecology Water Quality Certification – REVISION

---

### 15-DAY PUBLIC NOTICE

**REVISION:** This notice revises the total amount of material proposed to be dredged on the U.S. Army Corps of Engineers/Washington Department of Ecology Joint Public Notice dated September 15, 2016.

The revised information is as follows: The applicant, Longview Fibre Paper and Packaging, Inc. d.b.a. KapStone Kraft Paper Corporation, is proposing to dredge a total of 400,000 cubic yards (cy) of sediment over a 10-year period. The original public notice specified the applicant proposed to remove 180,000 cy. The increase in volume is requested because of extended high water and large flow volumes resulting in additional shoaling. The applicant is requesting the increase to ensure future unimpeded vessel access to the existing facility.

All other information shown on Public Notice dated September 15, 2016 for NWS-2014-451 remains unchanged.
