Annual legislative report and recommendations
Diane Butorac, Ecology, presented updates about the annual legislative report including takeaways from the question and answer sessions that were held with interested parties on August 5th and with Tribes on August 7th. She also shared comments received from the public comment period and how the input received was incorporated into a revised version of the report. The co-leads will continue to review and finalize the report and any substantive changes will be shared with the council.

Agency updates
Agencies provided updates on agency clean energy efforts both planned and in progress.
