

TRANSMISSION CORRIDORS WORK GROUP

Transmission Corridors Work Group

EFSEC Contacts

Kathleen Drew, EFSEC Chair

kathleen.drew@utc.wa.gov – 360-515-6083

Joseph Wood, Site Specialist/TCWG Lead

Joseph.wood@utc.wa.gov – 360-664-1344

Stewart Henderson, Sr. Policy Advisor

Stewart.Henderson@utc.wa.gov – 360-664-1361

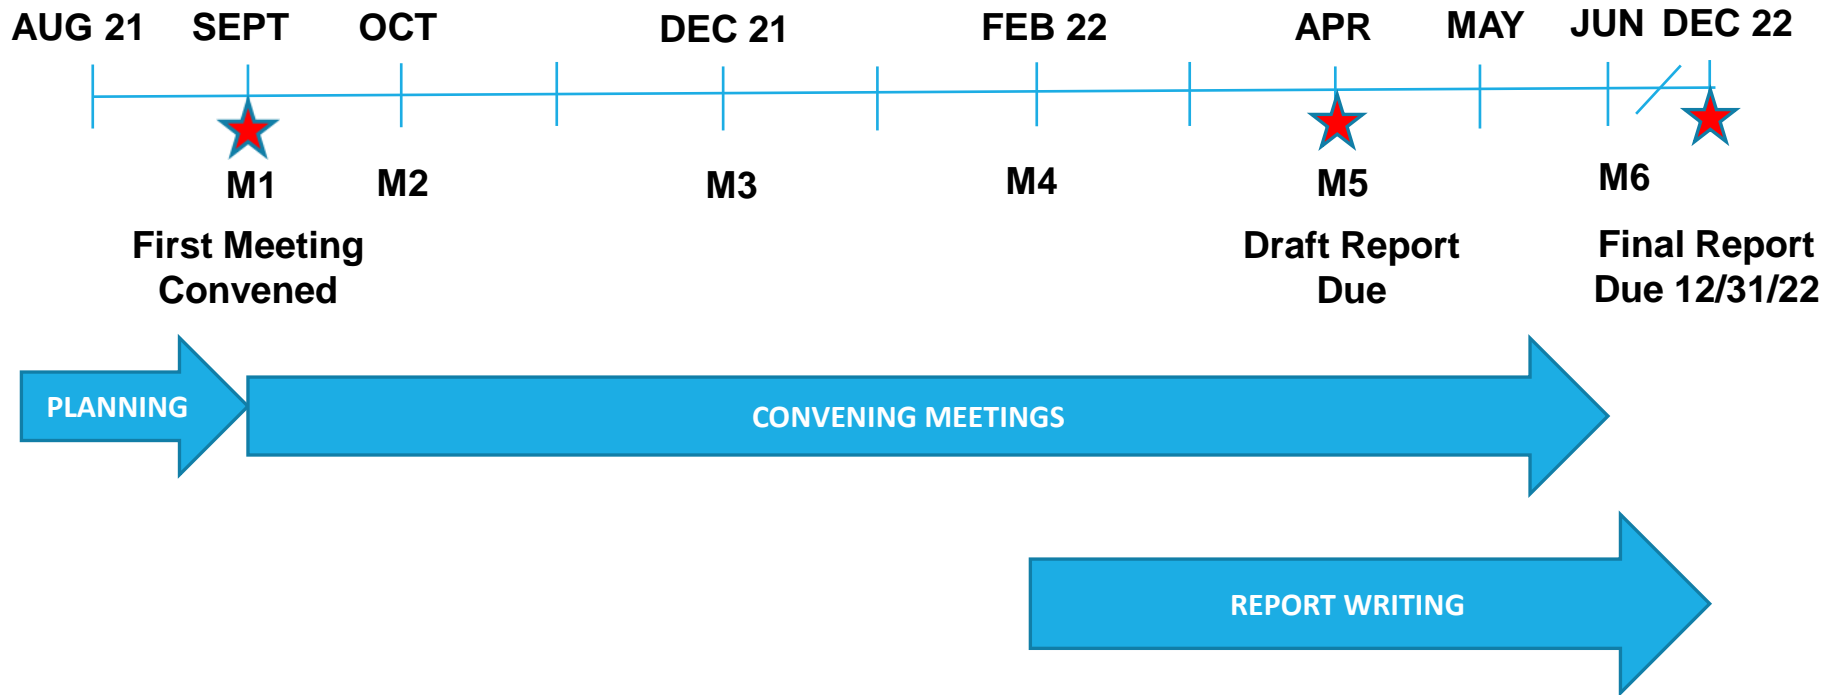

WORK GROUP TASKS

1. Review the need for upgraded and new transmission facilities
2. Identify where to site transmission
3. Identify options for siting review

TIMELINE

WORKING GROUP MEETINGS

- **MEMBERS** - 20 designated Working Group members (incl. representatives from ECY, DNR, DFW, WSDOT, UTC, COM)
- **MEETINGS** - Five 8-hour meetings convened (presentations, panels, discussion)*

* All meetings live streamed and publicly accessible via Youtube

WORKING GROUP MEETINGS

PRESENTATION TOPIC	PRESENTER
BPA's Transmission Offerings and Study Process	BPA
Contract Path versus Flow-Based Method Concepts	WECC
Washington Energy Strategy	COM
Transmission Overview: How it works in the state of WA	BPA
Energy Vision	CRITFC
Challenges to improving the existing transmission system	BPA
Challenges to Siting in ROW	WSDOT
Labor Needs & Shortages	IBEW 77
Long Distance, High Voltage Siting	Stoel Rives
Federal LDHV permitting	OR EFSC
Benefits of Regional Transmission Coordination	OR PUC
East to West Transmission Conditions in PNW	Hardy Consulting

Columbia River Inter-Tribal Fish Commission

FINAL REPORT FORMAT & CONTENT

- Executive Summary
- Introduction
- **Vision of Washington's Energy Future**
- **TCWG Recommended Principles**
- **Best Practices**
- Conclusions
- Appendices

FINAL REPORT FORMAT & CONTENT

Vision of Washington's Energy Future

- A. Energy Needs
- B. Geographic Needs & Considerations
- C. Transmission-Related Challenges

FINAL REPORT FORMAT & CONTENT

TCWG Recommended Principles

- A. Overarching Principles
- B. Transmission System Planning
- C. Expediting Environmental Review & Permitting w/out Compromising Protections
- D. Siting & Constructing New or Upgraded Transmission Infrastructure

EFSEC RECOMMENDATIONS

- A letter accompanying the TCWG final report will outline specific recommendations EFSEC has for transmission siting, review, etc. based on Work Group efforts.
