Spokane River Basin Toxics Reduction Grant Program - Funding Offer List

Document Number	Organization	Project Title	Project Description	Total Cost	Total Eligible Cost	Funds Offered*
WQCRBR-2527-Spokan-00011	City of Spokane	Baseline PFAS Fate and Transport Study in COS Wastewater System	This project will characterize the presence, transport, and fate of per- and polyfluoroalkyl substances (PFAS) within the City of Spokane's wastewater system to establish a baseline understanding of system-wide concentrations.	$183,975.00	$183,975.00	$183,975.00
WQCRBR-2527-SpCoPW-00009	Spokane County Public Works	Spokane County POET Filter Distribution Program Administration	Spokane County will install point-of-entry treatment (POET) water filters to reduce per- and polyfluoroalkyl substances (PFAS) exposure for private residences and buildings on the West Plains. This grant would support County staff time establishing and administering the POET filter distribution program.	$7,670,000.00	$170,000.00	$170,000.00
WQCRBR-2527-EastWU-00013	Eastern Washington University	Per- and Polyfluoroalkyl Substances (PFAS) Identification in the Spokane River	This project will conduct late summer sampling of the Spokane River basin to identify locations of PFAS contamination, seasonal sampling at limited locations, and then focus on two locations that are contaminated with toxic PFAS to help guide potential remediation as well as support education and outreach activities.	$240,536.25	$240,536.25	$240,536.25
			*Final agreement amounts may be adjusted during negotiations	**$8,094,511.25**	**$594,511.25**	**$594,511.25**
