Major modification overview

Why is Ecology modifying?

1. Ecology's experience simultaneously issuing the ISGP and the Construction Stormwater General Permit (CSGP);
2. Settlement agreement with industrial appellants leading to significant changes we've agreed to propose in the next draft reissuance.

Proposed modifications

- **Expiration date**
  Currently December 31, 2029, *proposed* December 31, 2028
- **Duty to reapply date**
  Currently July 3, 2029, *proposed* July 3, 2028
  - Date by which permittees must reapply for coverage
  - 180 days prior to the expiration date of the permit.

Duty to reapply

What is the duty to reapply date?

40 CFR 122.41 (b)

Duty to reapply. If the permittee wishes to continue an activity regulated by this permit after the expiration date of this permit, the permittee must apply for and obtain a new permit.

General Condition G8

If the permittee wishes to continue an activity regulated by this permit after the expiration date of this permit, **the permittee must reapply for the permit at least 180 days prior to the expiration date of this permit.**

Avoid a lapse in coverage

- Ecology's expedited timeline
- Ecology will communicate – early and often as a reminder to reapply
- We need your help –please ensure the contact information in your permit record is up to date!

Timeline

- Comments on the major modification must be submitted by October 2, 2026 at 11:59 pm.
- Response to comments and issuance of major modification ISGP end of October 2026.
