Addressees:

**CANCELLATION OF APPROVAL FOR THE 200/600 AREAS FACILITIES SUPPORT
 DECONTAMINATION TRAILER**

This letter is to inform the State of Washington, Department of Health and the State of Washington, Department of Ecology that approval for emission units 486, 1186, and 1187 (all under Approval Number AIR 12-323, NOC ID 844) is no longer needed to support decontamination/decommissioning activities. These units were never operated and therefore never developed an annual possession quantity. Since the units have no potential to emit and have no future intended use, the approval can be canceled and removed from the Hanford Site Radioactive Air Emissions License Number FF-01 and the Hanford Site Air Operating Permit.

If you have any questions, please contact me, or your staff may contact Clifford E. Clark, Acting Director, Environmental, Safety, and Quality, on (509) 376-9333.

Sincerely,

Ray J. Corey, Assistant Manager
 for Safety and Environment
