Subject: Place licensing effort for letter 15-ECD-0003 on hold: changing radionuclide monitoring requirements

Randy:

Per our discussion at the RTAM yesterday, please place the license revision process on hold for the letter ORP recently transmitted to you, 15-ECD-0003, dated 1/14/15, due to questions raised on radionuclide sampling requirements. Placing the effort on hold will allow ORP the time to evaluate the concern and hold discussions with you at the RTAM.

Thanks Dennis
