John, John

In response to WDOH letter AIR 13-706 DOE/ORP accepts the conditions, controls, monitoring requirements, and limitations for the Sidewall Coring of SSTs Project effective immediately with the following change:

Condition 9) Change the last sentence to be the following "Work may continue when approved by Environmental and Radcon."

As modified this is consistent with ALARACT 5.1.

Thanks,

\* Resp. to LB# 3686  
NOC 898 EU 486
