**STANDARD TERMS AND CONDITIONS
HANFORD SITE AIR OPERATING PERMIT
NO. 00-05-006
RENEWAL 3**

In the matter of the compliance by the) 00-05-006 Renewal 3
U.S. Department of Energy – Hanford Operations, with)
Section 70.94.161 RCW, Operating Permits for Air) Issue Date: 07/15/2019
Contaminant Sources, and the applicable rules and) Effective Date: 08/01/2019
regulations of the Departments of Ecology and Health.) Expiration Date: 08/01/2024

This AIR OPERATING PERMIT is issued under the authority and provisions of the Federal Clean Air Act (FCAA), (42 U.S.C. 7401, et. seq.) and the Washington Clean Air Act, Chapter 70.94, Revised Code of Washington (RCW) and the Operating Permit Regulation, Chapter 173-401 Washington Administrative Code (WAC).

The U.S. Department of Energy (DOE), the permittee, at the Hanford Site is required to comply with provisions within this air operating permit, including all standard terms and general conditions and provisions contained in all the Attachments, identified below.

Attachments 1, 2, and 3 are integral and enforceable provisions of this permit.

Attachment 1 contains the State of Washington Department of Ecology (Ecology) permit terms and conditions.

Attachment 2 contains the State of Washington Department of Health (Health) Radioactive Air Emissions License (FF-01) as permit terms and conditions.

Attachment 3 contains the Benton Clean Air Agency (BCAA) permit terms and conditions applicable to the regulations of open burning.

The regulatory agency relationships are described in the Statement of Basis (Statement). The Statement is issued by Ecology as a separate supporting reference document to this air operating permit. The Statement contains non-enforceable legal and factual basis for permit conditions. The Statement also includes references to the applicable statutory or regulatory provisions, technical supporting information on specific emission units, and clarifications of specific requirements. [WAC 173-401-700(8)]

The Hanford Site and facilities are managed by two DOE Office of Environmental Management offices in Richland, Washington. The Office of River Protection (DOE-ORP) oversees the Hanford Site's tank waste remediation system at the 200 Area. The Richland Operation Office (DOE-RL) is responsible for the Hanford Site's environmental cleanup activities and the site-wide infrastructure support. The Pacific Northwest Site Office (DOE-PNSO) of the DOE Office of Science offices, located in Richland, provide programmatic oversight of some Hanford Site facilities utilized by the Pacific Northwest National Laboratory (PNNL). These PNNL-operated facilities are in the Hanford 300 area. DOE-RL is the owner and steward of these facilities. This joint DOE-RL/DOE-PNSO oversight is conducted in accordance with an Operational Agreement between DOE-RL and DOE-PNSO. The official permittee addresses are listed below:

1 Mailing Address

Department of Energy-RL
P.O. Box 550
Richland, WA 99352

Department of Energy-ORP
P.O. Box 450
Richland, WA 99352

2 Physical Address

Department of Energy-RL
2420 Stevens Center Place
Richland, WA 99354

Department of Energy-ORP
2440 Stevens Center Place
Richland, WA 99354

3 The Hanford Air Operating Permit (AOP), hereinafter referred to as ‘permit’, was initially issued in 2001,
4 and shall be renewed toward the end of each five-year term. Renewal 2 of the permit was issued for a
5 fixed term of 5 years from April 1, 2013, to March 31, 2018. Renewal 3 will also cover a fixed five year
6 timeframe that will start on the date of the final permit issuance. Before the expiration date of renewal 3,
7 the permittee shall apply for another five-year renewal according to WAC 173-401-500 and
8 WAC 173-401-710 requirements. Ecology will notify the permittee at least 18 months in advance of the
9 expiration date by sending an application for renewal which details the necessary data required to have a
10 complete application submitted at least 6 months prior to the expiration date. Ecology will request the
11 submission of the next renewal classification at least 8 months prior to the expiration of Renewal 3 to
12 allow for time to review the renewal application for completeness.

1 **2.0 GENERAL HANFORD SITE INFORMATION**

2 The Hanford Site was acquired by the federal government in 1943 and for many years was dedicated
3 primarily to the production of plutonium for national defense and the management of the resulting waste.
4 With the shutdown of the production facilities in the 1970s and 1980s, missions were redirected to
5 decommission and site cleanup, and diversified to include research and development in the areas of
6 energy, waste management, and environmental restoration. Decommissioned facilities or emission units
7 are those that cannot be operated as is, and are not planned to operate again. In the extremely unlikely
8 event that a decommissioned facility or emission unit is reactivated, an applicable requirements
9 assessment must be completed first.

10 The Hanford Site, located in south central Washington State, occupies about 1,450 square kilometers
11 (approximately 580 square miles) of semi-arid shrub and grasslands just north of the confluence of the
12 Snake and Yakima Rivers with the Columbia River. This land, with restricted public access, provides a
13 buffer for the smaller areas historically used for the production of nuclear materials, waste storage, and
14 waste disposal. The Hanford site is divided into the following five operational areas:

- 15 • 100 Area, including 100-B/C, 100-D, 100-DR, 100-F, 100-H, 100-K, and 100-N Areas, which lie
16 along the south shore of the Columbia River in the northern portion.
- 17 • 200 Area, including 200 East and 200 West Areas, which lie in the center near the basalt outcrops
18 of Gable Mountain and Gable Butte.
- 19 • 300 Area, near the southern border of the Hanford Site.
- 20 • 400 Area, between the 300 and 200 Areas.
- 21 • 600 Area, land not within the defined boundaries of the other operational areas.

22 Other areas and facilities that support Hanford Site activities can be found in the nearest cities (i.e.,
23 Richland, Kennewick, and Pasco). The facilities in these areas are not considered part of the Hanford Site
24 major source because these areas are not considered contiguous or adjacent to the Hanford Site. These
25 areas include, but are not limited to, the following facilities:

- 26 • 700 Area in Richland, i.e., 825 Building.
- 27 • Richland Central Area, i.e., Butler Loop facilities and the Hanford Technical Training Center.
- 28 • 1100 Area, Stevens Center, Evergreen Facilities, Cold Test Facility, various PNNL-operated
29 facilities (as specified herein), Benton County Sheriff's Facilities including firing range and
30 training course

31 The Hanford site is considered a "major source" of air pollutant emitting activities. A partial list of North
32 American Industry Classification System categories include:

- 33 541715 Research and Development in the Engineering and Life Sciences
- 34 562211 Hazardous Waste Treatment and Disposal
- 35 562910 Remediation Services
- 36 924110 Administration of Air and Water Resource and Solid Waste Management Program
- 37 999999 Unclassified Establishments.

38 This permit specifically excludes facilities that do not meet the criteria for inclusion in a major source
39 subject to the Air Operating Permit Regulation (i.e., WAC 173-401-200(19)); the exclusion criteria are
40 described in the Statement of Basis. Examples of facilities excluded at the time of permit renewal are in
41 the following:

- 42 • PermaFix Northwest Richland
- 43 • Unitech Services, Inc. (doing business as Unifirst) laundry

- 1 • Pacific Northwest National Laboratory operated by Battelle Memorial Institute
- 2 • Energy Northwest Applied Process Engineering Laboratory
- 3 • Laser Interferometer Gravitational-Wave Observatory
- 4 • all Energy Northwest facilities not determined to be a support facility
- 5 • all Port of Benton facilities not determined to be a support facility
- 6 • US Ecology, Inc. commercial low-level radioactive waste burial site
- 7 • Kaiser Aluminum and Chemical Corporation extrusion press located in an 1100 Area Building
- 8 • AREVA NP
- 9 • Tri-City and Olympia Railroad, located in an 1100 Area Building
- 10 • PN Services
- 11 • Oasis Physical Therapy located at the Stevens Center
- 12 • Montessori School located at the Stevens Center
- 13 • Bulk Vitrification Testing Facility located across from Hammer in Richland.

14 **3.0 EMISSION UNITS IDENTIFICATION**

15 Emission units subject to this permit are identified in Attachments 1 through 3.

16 **4.0 PERMIT PROVISOS**

17 **4.1 Permit Shield**

18 **4.1.1** Compliance with the conditions of this permit shall be deemed compliance with those applicable
19 requirements that are specifically included in and identified in the permit as of the date of permit
20 issuance. [WAC 173-401-640(1)]

21 **4.1.2** The permit shield shall not apply to any insignificant emissions unit or activity designated under
22 WAC 173-401-530. [WAC 173-401-530(3)]

23 **4.2 Severability**

24 If any provision of this permit is held to be invalid, all unaffected provisions of the permit shall remain in
25 effect and be enforceable. [WAC 173-401-620(2)(h); RCW 70.94.905 (State Only)]

26 **4.3 Property Rights**

27 This permit does not convey any property rights of any sort, or any exclusive privilege. [WAC 173-401-
28 620(2)(d)]

29 **4.4 Transfer of Ownership or Operation**

30 A change of ownership or operational control of this source shall be treated as an administrative permit
31 amendment if no other changes in this permit are necessary and provided that a written agreement
32 containing a specific date for transfer of permit responsibility, coverage, and liability between the current
33 and new permittee has been submitted to Ecology, Health, and BCAA. DOE is considered the owner and
34 operator of Hanford and contract changes to contractors to DOE are not considered changes in ownership
35 or operational control. [WAC 173-401-720(1)(d)]

36 **4.5 Emissions Trading**

37 No permit revision shall be required under any approved economic incentives, marketable permits,
38 emissions trading, and other similar programs or processes for changes that are provided in this permit.
39 [WAC 173-401-620(2)(g)]

1 **4.6 Enforceability**

2 All terms and conditions are enforceable by the U.S. Environmental Protection Agency (EPA) and United
3 States citizens unless specifically designated as not federally enforceable or listed as an inapplicable
4 requirement in Table 5.1 [WAC 173-401-625]. Any paraphrasing of regulations or other applicable
5 requirements is for the convenience of the reader. The underlying applicable requirement is the
6 enforceable requirement.

7 **4.7 General Obligation – Exclusions**

8 Nothing in this permit shall alter or affect the following

- 9 a. The provisions of Section 303 of the FCAA (emergency orders), including the authority of the
10 administrator under that section;
- 11 b. The liability of an owner or operator of a source for any violation of applicable requirements prior
12 to or at the time of permit issuance;
- 13 c. The applicable requirements of the acid rain program, consistent with Section 408(a) of the
14 FCAA;
- 15 d. The ability of EPA to obtain information from a source pursuant to Section 114 of the FCAA; or
- 16 e. The ability of Ecology to establish or revise requirements for the use of Reasonably Available
17 Control Technology (RACT) as provided in Chapter 252, Laws of 1993.
18 [WAC 173-401-640(4)]

19 **4.8 Reasonably Available Control Technology**

20 Emission standards and other requirements contained in rules or regulatory orders in effect at the time of
21 operating permit issuance or renewal shall be considered RACT for purpose of permit issuance or
22 renewal. This does not preclude RACT determinations under Section 8, Chapter 252, Laws of 1993,
23 which shall be incorporated into an operating permit as provided in WAC 173-401-730. [WAC 173-401-
24 605(3) and RCW 70.94.154, 2011 (State Only)]

25 **4.9 Need to Halt or Reduce Activity Not a Defense**

26 It shall not be a defense for a permittee in an enforcement action that it would have been necessary to halt
27 or reduce the permitted activity in order to maintain compliance with the conditions of this permit. [WAC
28 173-401-620(2)(b)]

29 **4.10 Permit Actions**

30 This permit may be modified, revoked, reopened, reissued, or terminated for cause. The filing of a
31 request by the permittee for a permit modification, revocation and reissuance, termination, or of a
32 notification of planned changes or anticipated noncompliance does not stay any permit condition.
33 [WAC173-401-620(2)(c)]

34 **4.11 Permit Continuance**

35 This permit and all terms and conditions contained therein, including any permit shield provided under
36 WAC 173-401-640, shall not expire until renewal permit has been issued or denied if a timely and
37 complete application has been submitted. An application shield granted pursuant to WAC 173-401-705(2)
38 shall remain in effect until the renewal permit has been issued or denied if a timely and complete
39 application has been submitted. [WAC 173-401-620(2)(j)]

40 **4.12 Permit Appeals**

41 The permittee has the right to appeal this permit or any condition in the permit, including the Attachments
42 or any conditions in the Attachments to the Pollution Control Hearings Board (PCHB) within 30 days of

1 the date of receipt of this permit. The appeal process is governed by Chapter 43.21B RCW and Chapter
2 371-08 WAC. "Date of receipt" is defined in RCW 43.21B.001(2).

3 To appeal, the permittee must do the following within 30 days of the date of receipt of this permit:

- 4 • File the appeal and a copy of this Order with the PCHB (see addresses below). Filing means
5 actual receipt by the PCHB during regular business hours.
- 6 • Serve a copy of the appeal and this Order on Ecology - in paper form - by mail or in person (See
7 addresses below). E-mail is not accepted.

8 The permittee must also comply with other applicable requirements in Chapter 43.21B RCW and Chapter
9 371-08 WAC.

10 Address and Location Information:

Street Addresses

Department of Ecology

PO Box 47608
Olympia, WA 98504-7608

Pollution Control Hearings Board
PO Box 40903
Olympia, WA 98504-0903

11 This provision for appeal in this section is separate from and additional to any federal rights to petition
12 and review under Section 505(b) of the FCAA. [WAC 173-401-620(2)(i), RCW 70.94.221 (State only)]

13 **5.0 PERMIT ADMINISTRATION**

14 **5.1 Duty to Comply**

15 The permittee must comply with all conditions of this WAC 173-401 permit. Any permit noncompliance
16 constitutes a violation of Chapter 70.94 RCW and, for federally enforceable provisions, a violation of the
17 FCAA. Such violations are grounds for enforcement action; for permit termination, revocation and
18 reissuance, or modification; or for denial of a permit renewal application. [WAC 173-401-620(2)(a)]

19 **5.2 Inspection and Entry**

20 On presentation of appropriate credentials and equipped with appropriate personal protective equipment,
21 the permittee shall allow Ecology, Health, BCAA, and EPA to perform the following:

- 22 a. Enter upon the permittee's premises where a Chapter 401 source is located or emissions related
23 activity is conducted, or where records must be kept under the conditions of this permit.
- 24 b. Have access to and copy, at reasonable times, any records that must be kept under the conditions
25 of this permit.
- 26 c. Inspect, at reasonable times, any facilities, equipment (including monitoring and air pollution
27 control equipment), practices, or operations regulated or required under this permit. Health may
28 require a demonstration of as low as reasonably achievable control technology at any time.
29 Where controlled access areas will be entered, Ecology, Health, or BCAA shall provide a
30 reasonable advance notice and enter in the presence of a facility representative.
- 31 d. As authorized by WAC 173-400-105 and the FCAA, sample or monitor, at reasonable times,
32 substances or parameters for the purpose of assuring compliance with the permit.

33 [WAC 173-401-630(2); RCW 70.94.200 (State only)]

- 1 **5.2.1** Ecology may require the permittee to conduct stack and/or ambient air monitoring and report the
2 results to Ecology. [WAC 173-400-105(2)]
- 3 **5.2.2** Ecology may conduct or require that a test be conducted using approved EPA methods from 40
4 Code of Federal Regulations (CFR) Parts 51, 60, 61 and 63 or approved procedures contained in
5 “Source Test Manual - Procedures for Compliance Testing,” Ecology, 9/20/04. The permittee
6 may be required to provide platform and sampling ports. Ecology shall be allowed to obtain a
7 sample from any emissions unit. The permittee shall be given the opportunity to observe the
8 sampling and to obtain a sample at the same time. [WAC 173-400-105(4)]
- 9 **5.2.3** The permittee shall respond in writing in a timely manner, or within a time limit set by Health per
10 WAC 246-247-080(11) (State only), to inspection results that require a facility to implement
11 corrective actions or any other actions so directed by Health.
- 12 **5.2.4** Nothing in this condition shall limit the ability of EPA to inspect or enter the premises of the
13 permittee under Section 114 or other provisions of the FCAA.
- 14 **5.2.5** No person shall obstruct, hamper, or interfere with any such authorized representative while in
15 the process of carrying out their official duties. In the event the hazards associated with
16 accessibility to a unit require training and/or restrictions or requirements for entry, the permittee
17 shall inform Ecology, Health, or BCAA before arrival of those restrictions or requirements. The
18 permittee shall be responsible for providing the necessary training, escorts, and support services
19 to allow Ecology, Health, or BCAA to inspect. [WAC 173-401-630(2); WAC 246-247-080(1);
20 WAC 246-247-080(9); and RCW 70.94.200]

21 **5.3 Permit Fees**

22 The permittee shall pay fees as a condition of this permit in accordance with Ecology’s fee schedule.
23 Failure to pay fees in a timely fashion shall subject the permittee to civil and criminal penalties as
24 described in Chapter 70.94 RCW. Ecology may revoke this permit if the permit fees are not paid.
25 [WAC 173-401-620(2)(f); RCW 70.94.162(1); and WAC 173-401-930(3)]

26 Per WAC 246-247-065, fees for all non-AOP airborne emissions of radioactive materials shall be
27 submitted in accordance with WAC 246-254-160. The permittee shall pay costs associated with direct
28 staff time of the air emissions program in accordance with WAC 246-254-120(1)(e). In any case where
29 the permittee fails to pay a prescribed fee or actual costs incurred during a calendar quarter, Health (1)
30 shall not process an application and (2) may suspend or revoke any license or approval involved; or (3)
31 may issue any order with respect to licensed activities as Health determines appropriate or necessary to
32 carry out the provisions of WAC 246-254-170. [WAC 246-247-065 (State only); WAC 246-254-120
33 (1)(e) (State only); WAC 246-254-160 (State only); and WAC 246-254-170 (State only)]

34 **5.4 Duty to Provide Information**

35 The permittee shall furnish to Ecology, within a reasonable time, any information that Ecology may
36 request in writing to determine whether cause exists for modifying, revoking and reissuing, or terminating
37 the permit or to determine compliance with the permit. On request, the permittee also shall furnish to
38 Ecology copies of records required to be kept by the permit or, for information claimed to be confidential,
39 the permittee may furnish such records directly to the administrator along with a claim of confidentiality.
40 Ecology shall maintain confidentiality of such information in accordance with RCW 70.94.205. [WAC
41 173-401-620(2)(e)]

42 [Note: The permittee shall afford access to requested copies of records containing classified information
43 provided the Ecology, Health, or BCAA representatives reviewing the documents possess (1) the
44 appropriate access authorizations (security clearances) for the level and category of information involved,
45 (2) all required formal access approval(s), and (3) a legitimate need-to-know. [WAC 246-247-080(10)
46 (State only)]

1 **5.5 Submittals**

2 **5.5.1** Reports, test data, monitoring data, notifications, and compliance certifications regarding
3 nonradioactive air emissions, except open burning, shall be submitted as specified in
4 Attachment 1 to:

5 **Program Manager**
6 Nuclear Waste Program
7 State of Washington
8 Department of Ecology
9 3100 Port of Benton Blvd
10 Richland, WA 99354

11 or other address as directed by Ecology.

12 **5.5.2** Reports, test data, monitoring data, notifications, and compliance certifications regarding
13 radioactive air emissions shall be submitted as specified in Attachment 2 to:

14 **Manager**
15 State of Washington Department of Health
16 The Division of Environmental Health
17 The Office of Radiation Protection
18 Radioactive Air Emissions Section
19 309 Bradley Blvd, Suite 201
20 Richland, WA 99352

21 or other address as directed by Health.

22 **5.5.3** Reports, test data, monitoring data, notifications, and compliance certifications required to be sent
23 to the EPA shall be submitted to:

24 **ATTN:** Air Permits Office AWT-07
25 U.S. EPA Region 10 Administrator
26 1200 Sixth Avenue, Suite 900
27 Seattle, WA 98101-3140

28 or other address as directed by the EPA.

29 **5.5.4** Reports, notifications, and compliance certifications regarding regulated open burning activities
30 shall be submitted as specified in Attachment 3 to:

31 Control Officer
32 Benton Clean Air Agency
33 526 South Steptoe Street
34 Kennewick, WA 99336

35 or other address as directed by the BCAA.

36 **5.5.5** Any application form, report, or compliance certification submitted to Ecology, Health, BCAA,
37 or EPA pursuant to this permit shall contain certification by a responsible official of truth,
38 accuracy, and completeness. All certifications shall state that based on information and belief
39 formed after reasonable inquiry, the statements and information in the document are true,
40 accurate, and complete. [WAC 173-401-520 and WAC 173-401-615]

41 **5.5.6** No person shall make any false material statement, representation or certification in any form,
42 notice or report required under chapter 70.94 or 70.120 RCW, or any ordinance, resolution,
43 regulation, permit or order in force pursuant thereto. [WAC 173-400-105(7)]

1 **5.5.7** No person shall render inaccurate any monitoring device or method required under chapter 70.94
2 or 70.120 RCW, or any ordinance, resolution, regulation, permit, or order in force pursuant
3 thereto. [WAC 173-400-105(8)]

4 **5.6 Semiannual Reporting**

5 **5.6.1** Semiannual reports shall be submitted by September 15th and by March 15th. Reports for
6 January 1st through June 30th and July 1st through December 31st, shall be due September 15th and
7 March 15th, respectively. All instances of deviations from permit requirements must be clearly
8 identified in such reports. All required reports must be certified by a responsible official
9 consistent with WAC 173-401-520. [WAC 173-401-615(3)(a)]

10 **5.6.2** Each semiannual report shall contain the following information for the applicable reporting
11 period.

- 12 a. Reference to reports submitted to the regulatory agencies as required by Section 5.16.
13 b. Reports of any required monitoring not previously submitted or reference to reports
14 of required monitoring that were submitted previously during the reporting period.
15 c. A summary of any substantiated air emission complaint investigation(s) required in
16 Table 1.1 of Attachment 1 and issued during the reporting period.
17 d. For all minor radioactive emission units (potential to emit <0.1 millirem [mrem] to
18 the maximally exposed individual listed in Attachment 2), a general statement
19 confirming that any required monitoring was conducted to verify low emissions
20 during the reporting period for those emission units with specific periodic monitoring
21 required during that period. For all emission units with continuous monitoring, a
22 general statement will be provided stating that required monitoring operated
23 continuously.
24 e. Emission unit(s) that operated for any part of the calendar year, and were not closed
25 per WAC 246-247-080(6) (reference to FF-01 Attachment 2), will have monitoring
26 data reported in the annual National Emission Standard for Hazardous Air Pollutants
27 (NESHAP) report (Section 5.11). Diffuse and Fugitive minor emission units listed in
28 Attachment 2 are not required to be reported on except annually as a composite
29 portion of the annual NESHAP report.
30 f. List any new regulatory orders, (e.g., Notice of Construction [NOC]) imposed during
31 the reporting period by Ecology or Health.
32 [WAC 173-401-615(3)(a)]

33 **5.6.3** Submittal of the information required in Section 5.11 Annual NESHAPs Report will meet the
34 semiannual reporting requirements of diffuse and fugitive sources in Table 2.1 of Attachment 1
35 and point source emission unit specific information (i.e., height, diameter, velocity, temperature,
36 and operational status) of the FF-01 License.

37 **5.7 Recordkeeping**

38 **5.7.1** Permittee shall keep records of required monitoring information that includes, where applicable,
39 the following:

- 40 a. The date, place, and time of sampling or measurements;
41 b. The date(s) analyses were performed;
42 c. The company or entity that performed the analyses;
43 d. The analytical techniques or methods used;
44 e. The results of such analyses; and

1 f. The operating conditions as existing at the time of sampling or measurement.
2 [WAC 173-401-615(2)(a)]

3 **5.7.2** Permittee shall keep records describing changes made at the source that result in emissions of a
4 regulated air pollutant subject to an applicable requirement, but not otherwise regulated under the
5 permit, and the emissions resulting from those changes. [WAC 173-401-615(2)(b)]

6 **5.7.3** Permittee shall retain records of all required monitoring data and support information for a period
7 of at least five (5) years from the date of the monitoring sample, measurement, report, or
8 application. Support information includes all calibration and maintenance records and all original
9 strip-chart recordings from continuous monitoring instrumentation, and copies of all reports
10 required by this permit. [WAC 173-401-615(2)(c)]

11 **5.8 Monitoring and Recordkeeping for Emission Units without Continuous Operation**

12 **5.8.1 Emission Units with Nonradioactive Air Emission Conditions**

13 The permittee is not required to conduct the monitoring and associated recordkeeping for any
14 emission unit if the emission unit did not operate at any time between required monitoring events
15 (e.g., if the monitoring requires recording pressure drop daily, such readings would not be
16 required on any full day in which the emission unit did not operate), provided the following
17 conditions are met.

18 **5.8.1.1 Permanent shutdown of the emission unit:**

- 19 a. The permittee makes a contemporaneous record in a log or file maintained on site of
20 the date and time that the emission unit ceased operation and,
21 b. The permittee shall provide written notice to Ecology within a reasonable time.

22 **5.8.1.2 Temporary shutdown of the emission unit:**

- 23 a. The permittee makes a contemporaneous record in a log or file maintained on site of
24 the date and time that the emission unit ceased operation and the reason why the
25 emission unit did not operate;
26 b. The permittee makes a contemporaneous record in a log or file maintained on site of
27 the date and time that the emission unit resumed operation; and
28 c. The periodic report of monitoring required by Section 5.6 and/or the specific permit
29 condition includes a summary of the period or periods when the emission unit did not
30 operate.

31 **5.8.2 Emission Units with Radioactive Air Emission Conditions**

32 The permittee is not required to conduct the monitoring and associated recordkeeping for any
33 emission unit if the emission unit did not operate at any time between required monitoring events
34 (e.g., if the monitoring requires continuous sampling, such readings would not be required on any
35 full day in which the emission unit did not operate), provided the following conditions are met.

36 Note: These conditions do not apply to temporary radioactive emissions units (e.g.,
37 high-efficiency particulate air [HEPA] vacuums or portable/temporary radioactive air emission
38 units, etc.).

39 **5.8.2.1 Permanent shut down of an emission unit.**

40 **5.8.2.1.1** The permittee shall complete the monitoring and associated recordkeeping for the
41 period before the shutdown.

42 **5.8.2.1.2** The facility shall file a report of closure with Health whenever operations producing
43 emissions of radioactive material are permanently ceased at any emission unit (except

1 temporary radioactive emission units) regulated under WAC 246-247. The closure
2 report shall indicate whether, despite cessation of operations, there is still a potential
3 for radioactive air emissions and a need for an active or passive ventilation system
4 with emission control and/or monitoring devices. If decommissioning is planned and
5 will constitute a modification, a NOC shall be required, as applicable, in accordance
6 with WAC 246-247-080(6).

7 **5.9 Annual Air Emission Inventory**

8 The permittee shall upon notification by the director of Ecology, maintain records on the type and
9 quantity of emissions from the source and other information deemed necessary to determine
10 whether the source is in compliance with applicable emission limitations and control measures.
11 The annual emission inventory shall be submitted to Ecology in the format specified by Ecology.
12 When submittal of emission inventory information for criteria pollutants is requested by Ecology,
13 the emissions inventory shall be submitted no later than 105 days after the end of the calendar
14 year. The annual air emissions inventory report will minimally contain information on air
15 emissions:

- 16 a. For emission unit composites, as requested and listed in the permit Attachment 1,
17 Section 1.4 and,
- 18 b. For other emission units as directed by Ecology in the format specified by Ecology to
19 the permittee.
20 [WAC 173-400-105]

21 **5.10 Annual Compliance Certification**

22 **5.10.1** Annual compliance certification will be certified consistent with WAC 173-401-520
23 requirements, and submitted by July 31st for the previous calendar year. The report is to be
24 certified for truth, accuracy, and completeness by a Responsible Official
25 [WAC 173-401-200(29)]. The compliance certification will consist of the following:

- 26 a. Each emission unit-specific term or condition listed in Attachments 1, 2, and 3,
27 pursuant to the source's or emission unit's operational portion of the calendar year.
28 Source(s) or emission unit(s) closed per request letter (Ecology) or pursuant to WAC
29 246-247-080(6) (Health), prior to January 1st of the reporting period will not be
30 included in the calendar year certification report;
- 31 b. The compliance status;
- 32 c. Whether compliance was continuous, intermittent, or not applicable;
- 33 d. The method(s) used to determine the compliance status of the source over the
34 reporting period consistent with WAC 173-401-615(3)(a); and
- 35 e. Such other facts as Ecology, Health, or BCAA may require in order to determine the
36 compliance status of the source.

37 **5.10.2** All compliance certifications shall be submitted to Ecology, Health, or BCAA with a copy to EPA
38 at the address shown in Section 5.5 by July 31st of the following calendar year.

39 **5.10.3** Submittal of the information required in Section 5.11 Annual NESHAPs Report will meet the
40 annual compliance certification requirements of diffuse and fugitive sources in Table 2.1 of
41 Attachment 2 and point source emission unit specific information (i.e., height, diameter, velocity,
42 temperature, and operational status) of the FF-01 License.

43 [WAC 173-401-520, WAC 173-401-630 and WAC 246-247]

1 **5.11 Annual NESHAPs Reporting**

2 Submit an annual NESHAPs report that shall consist of the annual Radionuclide Air Emissions Report for
3 the Hanford Site required by 40 CFR 61.94

4 **5.11.1** Compliance with this standard shall be determined by calculating the highest effective dose
5 equivalent to any member of the public at any offsite point where there is a residence, school,
6 business, or office. The owners or operators of each facility shall submit an annual report to both
7 EPA headquarters and the appropriate regional office by June 30th which includes the results of
8 the monitoring as recorded in DOE's Effluent Information System and the dose calculations
9 required by 40 CFR 61.93(a) for the previous calendar year.

10 **5.11.2** The annual report shall include:

- 11 a. Name and location of the facility;
- 12 b. List of the radioactive materials used at the facility;
- 13 c. Descriptions of the handling and processing that the radioactive materials undergo at
14 the facility;
- 15 d. List of the stacks or vents or other points where radioactive materials are released to
16 the atmosphere;
- 17 e. Description of the effluent controls used on each stack, vent, or other release point
18 and an estimate of the efficiency of each device;
- 19 f. Distances from the point(s) of release to the nearest residence, school, business or
20 office and the nearest farms producing vegetables, milk, and meat;
- 21 g. Values for all other user supplied input parameters for computer models (e.g.,
22 meteorological data) and sources of these data; and
- 23 h. Brief description of all construction and modifications completed in the calendar year
24 for which the report is prepared, but for which the requirement to apply for approval
25 to construct or modify was waived under 40 CFR 61.96 and associated
26 documentation developed by DOE to support the waiver. EPA reserves the right to
27 require that DOE send to EPA all the information that normally would be required in
28 an application to construct or modify, following receipt of the description and
29 supporting documentation.

30 **5.11.3** The annual report shall also include:

- 31 a. Results of emission measurements for those emission units subject only to periodic
32 confirmatory measurements;
- 33 b. Wind rose or joint frequency table;
- 34 c. Annual average ambient temperature;
- 35 d. Annual average emission unit gas temperature, if available;
- 36 e. Annual total rainfall;
- 37 f. Annual average emission unit flow rate and total volume of air released during the
38 calendar year; and
- 39 g. If additional information is available in another annual report, the permittee may
40 provide a copy of that report along with the listed information requirements.

41 [WAC 246-247-080(3)(State only)]

1 **5.11.4** Each report shall be signed and dated by a corporate officer or public official in charge of the
2 facility and contain the following declaration immediately above the signature line: “I certify
3 under penalty of law that I have personally examined and am familiar with the information
4 submitted herein and based on my inquiry of those individuals immediately responsible for
5 obtaining the information, I believe that the submitted information is true, accurate and complete.
6 I am aware that there are significant penalties for submitting false information including the
7 possibility of fine and imprisonment. {18 U.S.C. 1001}.” Note: The certification language
8 (including the 18 United States Code [U.S.C.] 1001) comes directly from 40 CFR 61.94(b)(9) and
9 is an applicable requirement for the annual report. The report is to be submitted to both the EPA
10 as well as the Health.

11 **5.12 Environmental Surveillance Program**

12 Under the requirements of WAC 246-247-075(9), Health may conduct an environmental surveillance
13 program to ensure that radiation doses to the public from emission units are in compliance with applicable
14 standards. Health may require the operator of an emission unit to conduct stack sampling, ambient air
15 monitoring, or other testing as necessary to demonstrate compliance with the standards in 40 CFR 61.92
16 and WAC 246-247-040.

17 **5.13 Emission Standards and Controls for Sources Emitting Gasoline Vapors**

18 Stage 1 requirements are applicable to 20 eastern Washington counties with new gasoline dispensing
19 facilities greater than 10,000 gallons storage capacity. Hanford is located in one of these 20 eastern
20 counties (Benton County). Total annual throughput records shall be maintained for the most recent 2-year
21 period. [WAC 173-491]

22 **5.14 Accidental Release Prevention Requirements**

23 The Hanford Site is currently not subject to 40 CFR 68 (Chemical Accident Prevention Provisions).

24 **5.15 Approval Order Terms and Conditions that Become Irrelevant During Permit Term**

25 Nothing herein shall be construed to preclude the permittee from making changes consistent with Chapter
26 401 that would render existing permit compliance terms and conditions irrelevant.

27 [(WAC 173-401-725(4)(a))]

28 **5.16 Permit Deviation Reporting**

29 The permittee shall report deviations from permit conditions, including those attributable to upset
30 conditions as defined below, the probable cause of such deviations, and any corrective actions or
31 preventative measures taken.

32 **5.16.1 Potential Threats to Human Health or Safety**

33 Deviations, which represent a potential threat to human health or safety, shall be reported
34 promptly or as soon as possible. Promptly, as defined here, means as soon as possible following
35 discovery¹, but in no case later than 12 hours after discovery¹ of a potential threat to human health
36 or safety. This notice shall contain a description of the emergency, any steps taken to mitigate
37 emissions, and corrective actions taken. This notice fulfills the immediate reporting requirements
38 of WAC 173-401-615(3)(b), WAC 173-400-107(3) and WAC 246-247-080(5) (State Only).

¹ Qualitative determination that a potential threat to public health or safety exists or existed after an evaluation of pertinent information.

1 **5.16.2 Non-Health or Safety Related Deviations**

2 **5.16.2.1** Other deviations from permit requirements or excess emissions shall be reported within 30 days
3 after the end of the month during which the deviation is discovered or as part of routine
4 emission monitoring reports. [WAC 173-401-615(3)(b) and WAC 173-400-107(3)]

5 **5.16.2.2** Additional written reports may be required by either Ecology or Health, according to the
6 requirements of WAC 173-400-107(3) or WAC 246-247-080(5) (State only) respectively.

7 **5.16.2.3** Notification must be given to Health within 24 hours (or during the course of the next normal
8 business day) from the time of discovery of the condition or emission that would require
9 notification pursuant to WAC 246-247-080(5) (State only). Such notification shall be required
10 for other than normal operations when a potential or actual release of radionuclides to the air is
11 due to any one or more of the following:

- 12 a. Non-routine bypass or failure of required abatement control technology identified in
13 Attachment 2.
- 14 b. Non-routine and/or unexpected operational changes resulting in increased emissions.
- 15 c. An excess of the dose standard of 10 mrem/year for the Hanford Site.
- 16 d. Emission in excess of emission limits or conditions in a regulatory order (e.g., NOC,
17 enforcement actions, or License).

18 **5.16.3 Excess Emissions Due to Emergency**

19 The permittee may seek to establish that noncompliance with a technology-based² emission
20 limitation under this permit was due to an emergency³, in accordance with WAC 173-401-645.
21 To do so, the permittee shall demonstrate the affirmative defense of emergency through properly
22 signed, contemporaneous operating logs, or other relevant evidence that:

- 23 a. An emergency occurred and that the permittee can identify the cause(s) of the
24 emergency;
- 25 b. The permitted source was at the time being properly operated;
- 26 c. During the period of the emergency the permittee did not allow the condition to
27 persist and took all reasonable steps to minimize levels of emissions that exceeded
28 the emissions standards, or other requirements in this permit;
- 29 d. The permittee submitted notice of the emergency to Ecology (non-radiological
30 emissions) and Health (radiological emissions) within 24 hours of the time when
31 emission limitations were exceeded due to the emergency or within 12 hours when
32 there is a threat to human health. This notice must contain a description of the
33 emergency, any steps taken to mitigate emissions, and corrective actions taken

34 [WAC 173-400-107, WAC 173-401-615, WAC 173-401-645, and WAC 246-247-080
35 (State only)]

² Technology-based emission limits are those established on the basis of emission reductions achievable with various control measures or process changes (e.g., a new source performance standard) rather than those established to attain a health based air quality standard.

³ An “emergency” means any situation arising from sudden and reasonably unforeseeable events beyond the control of this source, including acts of God, which situation requires immediate corrective action to restore normal operation, and that causes this source to exceed a technology-based emission limitation under this permit, due to unavoidable increases in emissions attributable to the emergency. An emergency shall not include noncompliance to the extent caused by improperly designed equipment, lack of preventative maintenance, careless or improper operation, or operator error.

1 **5.16.4 Unavoidable Excess Emissions**

2 **5.16.4.1** Excess emissions determined to be unavoidable under the procedures and criteria in WAC 173-
3 400-107 shall be excused and not subject to penalty.

4 **5.16.4.2** The permittee shall have the burden of proving to Ecology that excess emissions were
5 unavoidable.

6 **5.16.4.3** Excess emission due to startup or shutdown conditions shall be considered unavoidable
7 provided the source reports as required under WAC 173-400-107(3) and adequately
8 demonstrates that the excess emissions could not have been prevented through careful planning
9 and design and if a bypass of control equipment occurs, that such bypass is necessary to prevent
10 loss of life, personal injury, or severe property damage.

11 **5.16.4.4** Excess emission due to scheduled maintenance shall be considered unavoidable if the source
12 reports as required under WAC 173-400-107(3) and adequately demonstrates that the excess
13 emissions could not have been avoided through reasonable design, better scheduling for
14 maintenance or through better operation and maintenance practices.

15 **5.16.4.5** Excess emissions due to upsets shall be considered unavoidable provided the source reports as
16 required under WAC 173-400-107(3) and adequately demonstrates that:

- 17 a. The event was not caused by poor or inadequate design, operation, maintenance, or
18 any other reasonably preventable condition;
- 19 b. The event was not of a recurring pattern indicative of inadequate design, operation, or
20 maintenance; and
- 21 c. The operator took immediate and appropriate corrective action in a manner consistent
22 with good air pollution control practice for minimizing emissions during the event,
23 taking into account the total emissions impact of the corrective action, including
24 slowing or shutting down the emission unit as necessary to minimize emissions,
25 when the operator knew or should have known that an emission standard or permit
26 condition was being exceeded.

27 **5.16.4.6** Excess emissions which represent a potential threat to human health or safety or which the
28 owner or operator of the source believes to be unavoidable shall be reported to Ecology **as soon**
29 **as possible**. Other excess emissions shall be reported within **thirty (30) days** after the end of
30 the month during which the event occurred or as part of the routine emission monitoring reports.
31 Upon request by Ecology, the permittee shall submit a full written report including the known
32 causes, the corrective actions taken, and the preventative measures to be taken to minimize or
33 eliminate the chance of recurrence.

34 [WAC 173-400-107(3)]

35 **5.17 Reporting of Greenhouse Gases**

36 If the permittee emits 10,000 metric tons of greenhouse gases (GHGs) or more per calendar year, as
37 defined under WAC 173-441-020(1)(g), reporting of GHGs to Ecology is mandatory. (Note: WAC 173-
38 441-030(5) details reporting requirements for facilities which exceed the threshold in 2012 or later years,
39 but subsequently have lower annual carbon dioxide equivalent emissions).

40 The permittee is subject to the following program requirements if GHG emissions exceed 10,000 metric
41 tons of GHGs.

1 Permittee shall develop a written GHG monitoring plan in accordance with WAC 173-441-050(6)(e). The
2 permittee shall revise the GHG monitoring plan as needed to reflect changes in processes, monitoring
3 instrumentation, and quality assurance procedures; or to improve procedures for the maintenance and
4 repair of monitoring systems to reduce the frequency of monitoring equipment downtime.

5 [WAC 173-441-050(6) (State only)]

6 Reports must meet the requirements of WAC 173-441-050, and include the annual emissions of the GHGs
7 listed in WAC 173-441-040 from source categories listed in WAC 173-441-120. The annual GHG report
8 shall be submitted electronically in accordance with the requirements of WAC 173-441-050 and 173-441-
9 060 and in a format specified by Ecology.

10 All requests, notifications, and communications to Ecology pursuant to GHG emissions reporting, other
11 than submittal of the annual GHG report, shall be submitted to the following address:

12 **Greenhouse Gas Report**

13 Air Quality Program
14 Department of Ecology
15 P.O. Box 47600
16 Olympia, WA 98504-7600

17 The permittee shall submit a revised annual GHG report within 45 days of discovering that an annual
18 GHG report that the permittee previously submitted contains one or more substantive errors. A
19 substantive error is an error that impacts the quantity of GHG emissions reported or otherwise prevents
20 the reported data from being validated or verified. The revised report must correct all substantive errors.

21 Ecology may notify the permittee in writing that an annual GHG report previously submitted contains one
22 or more substantive errors. Such notification will identify each such error. The permittee shall, within 45
23 days of receipt of the notification, either resubmit the report that, for each identified substantive error,
24 corrects the identified substantive error (in accordance with the applicable requirements of this permit) or
25 provide information demonstrating that the previously submitted report does not contain the identified
26 substantive error or that the identified error is not a substantive error.

27 [WAC 173-441-050 (State only) and WAC 173-441-100 (State only)]

28 **5.17.1** Facilities required to report GHG emissions to the EPA under 40 CFR Part 98 must submit a
29 report to Ecology no later than **March 31st** of each calendar year for GHG emissions in the
30 previous calendar year.

31 **5.17.2** Facilities which are not anticipated to be required to report GHG emissions to the EPA under 40
32 CFR Part 98 must submit a report to Ecology, no later than **October 31st** of each calendar year,
33 for GHG emissions in the previous calendar year if GHG emissions were equal to or greater than
34 the 10,000 metric tons threshold. Permittee is expected to exceed this threshold and will be
35 required to submit a GHG report by the October 31st deadline.

36 **5.17.3** The Permittee shall maintain records in accordance with WAC 173-441-050.

37 [WAC 173-441-050(6) (State only)]

38 Permittee must pay a reporting fee for each year they submit a report to Ecology. [WAC 173-
39 441-110 (State only)]

40 **5.18 Permit Renewal and Expiration**

41 **5.18.1** This permit is issued for a fixed term of five (5) years. The permittee's right to operate this
42 source terminates with the expiration of this permit unless a timely and complete renewal
43 application is submitted at least 6 months, but no earlier than 18 months, before the date of permit
44 expiration. On receipt of a timely and complete application for renewal, this source may continue

1 to operate subject to final action by Ecology on the renewal application. This protection shall
2 cease to apply if, subsequent to a completeness determination, the applicant fails to submit by the
3 deadline specified in writing by Ecology any additional information identified as being needed to
4 process the renewal application. The application for renewal shall provide all information
5 required pursuant to WAC 173-401-510 and shall include the current permit number, description
6 of permit revisions and off-permit changes that occurred during the permit term, any applicable
7 requirements that were promulgated and not incorporated into the permit during the permit term
8 and shall provide a compliance schedule therefore, and information listed in the renewal
9 application sent to the applicant.

10 **5.18.2** Upon receipt of a complete and timely application for renewal, this source may continue to
11 operate subject to final action by Ecology on the renewal application.

12 **5.18.3** The application shall be sent to:

13 **Program Manager**
14 Nuclear Waste Program
15 State of Washington, Department of Ecology.
16 3100 Port of Benton Blvd.
17 Richland, WA 99354

18 and

19 **Manager**
20 State of Washington, Department of Health
21 The Division of Environmental Health
22 The Office of Radiation Protection
23 Radioactive Air Emissions Section
24 309 Bradley Blvd, Suite 201
25 Richland, WA 99352

26 and

27 **Control Officer**
28 Benton Clean Air Agency
29 526 South Steptoe Street
30 Kennewick, WA 99336

31 or other address, as directed by the agencies.

32 [WAC 173-401-610, WAC 173-401-710(1), WAC 246-247-060(6) (State only)]

33 **5.18.4** Duty to supplement or correct application. The permittee, upon becoming aware that any relevant
34 facts were omitted or incorrect information was submitted in the permit application, shall
35 promptly submit such supplementary facts or corrected information. The permittee shall also
36 provide additional information as necessary to address any requirements that become applicable
37 to the source after the date a complete renewal application was submitted but prior to release of a
38 draft permit. [WAC 173-401-500(6)]

1 **5.19 Off-permit Changes**

2 **5.19.1** The source shall be allowed to make changes not specifically addressed or prohibited by the
3 permit terms and conditions without requiring a permit revision, provided that the proposed
4 changes do not weaken the enforceability of the existing permit conditions. Any change that is a
5 Title I modification or is a change subject to the acid rain requirements under Title IV of the
6 FCAA must be submitted as a permit revision.

7 **5.19.2** Each such change shall meet all applicable requirements and shall not violate any existing permit
8 term or condition.

9 **5.19.3** Sources must provide contemporaneous written notice to Ecology and EPA of each such change.

10 Notification shall be submitted to:

11 **Program Manager**
12 Nuclear Waste Program
13 State of Washington
14 Department of Ecology
15 3100 Port of Benton Blvd
16 Richland, WA 99352

17 and

18 **ATTN:** Air Permits Office AWT-107
19 U.S. EPA Region 10 Administrator
20 1200 Sixth Avenue, Suite 900
21 Seattle, WA 98101-3140

22 Such written notice shall describe each such change, including the date, any change in emissions,
23 pollutants emitted, and any applicable requirement that would apply as a result of the change.

24 **5.19.4** The change shall not qualify for the permit shield under WAC 173-401-640.

25 **5.19.5** The permittee shall keep a record describing changes made at the source that result in emissions
26 of a regulated air pollutant subject to an applicable requirement, but not otherwise regulated
27 under the permit, and the emissions resulting from those changes.

28 **5.19.6** A source making a change under this section shall comply with applicable preconstruction review
29 requirements established pursuant to RCW 70.94.152.

30 [WAC 173-401-724]

31 **5.20 Changes Not Requiring Permit Revisions**

32 **5.20.1** Permittee is authorized to make the changes described in this section without a permit revision,
33 providing the following conditions are met:

- 34 a. The proposed changes are not Title I modifications;
- 35 b. The proposed changes do not result in emissions which exceed those allowable
36 under the permit, whether expressed as a rate of emissions, or in total emissions;
- 37 c. The proposed changes do not alter permit terms that are necessary to enforce
38 limitations on emissions from units covered by the permit; and
- 39 d. The source provides the administrator and Ecology with written notification at
40 least seven (7) days prior to making the proposed changes except that written
41 notification of a change made in response to an emergency shall be provided as
42 soon as possible after the event.

1 Notification shall be submitted to:

2 **Program Manager**
3 Nuclear Waste Program
4 State of Washington
5 Department of Ecology
6 3100 Port of Benton Blvd
7 Richland, WA 99352

8 and

9 **ATTN:** Air Permits Office AWT-107
10 U.S. EPA Region 10 Administrator
11 1200 Sixth Avenue, Suite 900
12 Seattle, WA 98101-3140

13 The permittee and Ecology shall attach each notice to their copy of the relevant permit.

14 **5.20.2** Pursuant to conditions in 5.20.1, a Chapter 173-401 WAC source is authorized to make Title V
15 Section 502(b)(10) changes without a permit revision.

16 **5.20.2.1** For each such change, the written notification required shall include a brief description of the
17 change within the permitted source, the date on which the change will occur, any change in
18 emissions, and any permit term or condition that is no longer applicable as a result of the
19 change.

20 **5.20.2.2** The permit shield authorized under WAC 173-401-640 shall not apply to any change made
21 pursuant to this paragraph.

22 **5.20.3** A Chapter 173-401 WAC source is authorized to trade increases and decreases in emissions in the
23 permitted source, where the Washington state implementation plan (SIP) provides for such
24 emissions trades without requiring a permit revision. This provision is available in those cases
25 where the permit does not already provide for such emissions trading.

26 **5.20.3.1** Written notification shall include such information as may be required by the provision in the
27 Washington SIP authorizing the emissions trade, including at a minimum, when the proposed
28 change will occur, a description of each such change, any change in emissions, the permit
29 requirements with which the source will comply using the emissions trading provisions of the
30 Washington SIP, and the pollutants emitted subject to the emissions trade. The notice shall also
31 refer to the provisions with which the source will comply in the applicable implementation plan
32 and that provide for the emissions trade.

33 **5.20.3.2** The permit shield described in WAC 173-401-640 shall not extend to any change made under
34 this paragraph. Compliance with the permit requirements that the source will meet using the
35 emissions trade shall be determined according to requirements of the applicable SIP authorizing
36 the emissions trade.

37 **5.20.4** Upon the request of the permittee, Ecology shall issue permits that contain terms and conditions,
38 including all terms required under WAC 173-401-600 through 173-401-630 to determine
39 compliance, allowing for the trading of emissions increases and decreases in the WAC 173-401
40 source solely for the purpose of complying with a federally enforceable emissions cap that is
41 established in the permit independent of otherwise applicable requirements. The permittee shall
42 include in its application proposed replicable procedures and permit terms that ensure the
43 emissions trades are quantifiable and enforceable. The emissions trading provisions shall not be
44 applied to any emissions units for which emissions are not quantifiable or for which there are no
45 replicable procedures to enforce the emissions trades.

1 **5.20.4.1** Written notification, shall state when the change will occur and shall describe the changes in
2 emissions that will result and how these increases and decreases in emissions will comply with
3 the terms and conditions of the permit.

4 **5.20.4.2** The permit shield described in WAC 173-401-640 shall extend to terms and conditions that
5 allow such increases and decreases in emissions.

6 **5.20.5** A source making a change under this section shall comply with applicable preconstruction review
7 requirements established pursuant to RCW 70.94.152.

8 [WAC 173-401-722]

9 **5.21 Reopening for Cause**

10 **5.21.1** Permits shall be reopened and revised under any of the following circumstances:

- 11 a. Additional applicable requirements become applicable to a Chapter 173-401 WAC
12 source with a remaining permit term of three (3) or more years. Such a reopening
13 shall be completed no later than 18 months after promulgation of the applicable
14 requirements. No such reopening is required if the effective date of the requirement
15 is later than the date on which the permit is due to expire, unless the original permit
16 or any of its terms and conditions have been extended pursuant to
17 WAC 173-401-620(2)(j);
- 18 b. Ecology, or the administrator determines that the permit contains a material mistake
19 or that inaccurate statements were made in establishing the emissions standards or
20 other terms or conditions of the permit; or
- 21 c. Ecology or the administrator determines that the permit must be revised or revoked to
22 assure compliance with the applicable requirements.

23 **5.21.2** Proceedings to reopen and issue a permit shall follow the same procedures as they apply to initial
24 permit issuance and shall affect only those parts of the permit for which cause to reopen exists.
25 Such reopening shall be made as expeditiously as practicable.

26 **5.21.3** All permit conditions remain in effect until such time as Ecology takes final action. Respective
27 regulatory agencies may take temporary corrective measures in cases of material mistakes or
28 potential negative impact to public health.

29 **5.21.4** Reopenings under this section shall not be initiated before a notice of such intent is provided to
30 the Chapter 173-401 WAC source by Ecology at least thirty days in advance of the date that the
31 permit is to be reopened, except that Ecology may provide a shorter time period in the case of an
32 emergency.

33 [WAC 173-401-730]

34 **5.22 New Source Review**

35 The permittee shall not construct new sources or make modifications required to be reviewed under WAC
36 173-400-110, WAC 173-400-560, WAC 173-400-720, WAC 173-400-820, or WAC 173-460-040 before
37 the permittee obtains written final approval from Ecology in accordance with those regulations and pays
38 the appropriate fees required by WAC 173-455-120. [WAC 173-400-110, (State only); WAC 173-400-
39 171 (State only); WAC 173-400-560 (State only); WAC 173-400-720 (State Only); WAC 173-400-820;
40 WAC 173-455-120 (State only); WAC 173-460-040 (State only); and RCW 70.94.152, 2011 (State only)]

1 **5.23 Replacement or Substantial Alteration of Emission Control Technology**

2 Prior to replacing or substantially altering emission control technology subject to review under
3 WAC 173-400-114, the permittee shall file for and obtain approval from Ecology according to that
4 regulation. The permittee shall pay the appropriate fees required by WAC 173-455-100 prior to
5 commencing construction. [WAC 173-400-114, (State only); WAC 173-455-100 (State only), RCW
6 70.94.153, 2011 (State only)]

7 **5.24 Nonroad Engines**

8 Prior to installation or operation of a nonroad engine, as defined in WAC 173-400-030(56), the permittee
9 shall meet the requirements of WAC 173-400-035, as applicable. If the nonroad engine(s) has a
10 cumulative maximum rated brake horsepower greater than 500, a notification of intent to operate will be
11 submitted to Ecology. If the nonroad engine(s) has a cumulative maximum rated brake horsepower
12 greater than 2,000, the permittee will not operate the engine(s) unless Ecology issues written approval to
13 operate. [WAC 173-400-035 (State only)]

14 **5.25 Reserved**

15 **5.26 Federal Chlorofluorocarbon Requirements**

16 **5.26.1** The permittee shall comply with the following standards for recycling and emissions reductions
17 pursuant to 40 CFR 82, Subpart F, except as provided for motor vehicle air conditioners
18 (MVACs) in Subpart B:

- 19 a. Persons conducting maintenance, service, repair, or disposing must follow the
20 prohibitions pursuant to 40 CFR 82.154.
- 21 b. Persons opening appliances for maintenance, service, repair, or disposal must comply
22 with the required practices pursuant to 40 CFR 82.157.
- 23 c. Equipment used during the maintenance, service, repair or disposal must comply with
24 the standards for recycling and recovery equipment pursuant to 40 CFR 82.158.
- 25 d. Persons performing maintenance, service, repair, or disposal of appliances must be
26 certified by an approved technician certification program pursuant to 40 CFR 82.161.
- 27 e. Persons disposing of small appliances, MVACs, and MVAC-like appliances (as that
28 term is defined in 40 CFR 82.152) must comply with recordkeeping requirements
29 pursuant to 40 CFR 82.166.
- 30 f. Persons owning commercial or industrial process refrigeration equipment must
31 comply with the leak repair requirements pursuant to 40 CFR 82.156.
- 32 g. Owners/operators of appliances normally containing 50 or more pounds of refrigerant
33 must keep servicing records documenting the date and type of service, as well as the
34 quantity of refrigerant added. The owner/operator must keep records of refrigerant
35 purchased and added to such appliances in cases where owners add their own
36 refrigerant, pursuant to 40 CFR 82.166.

37 **5.26.2** If the permittee manufactures, transforms, imports, or exports a class I or class II substance, the
38 permittee is subject to all the requirements as specified in 40 CFR 82, Subpart A - Production and
39 Consumption Controls.

40 **5.26.3** If the permittee performs service, maintenance, repair or disposal of air conditioners in MVACs
41 and MVAC-like appliances (as that term is defined in 40 CFR 82.152) that involves refrigerant as
42 defined in 40 CFR 82.32(f), the permittee is subject to the applicable requirements in 40 CFR 82,
43 Subpart B - Servicing of Motor Vehicle Air Conditioners.

1 **5.26.4** The permittee shall be allowed to switch from any ozone depleting substance to any alternative
2 that is listed in the Significant New Alternative Program promulgated pursuant to 40 CFR 82,
3 Subpart G - Significant New Alternative Policy Program.
4 [40 CFR 82, 7/1/10; RCW 70.94.970, 2011 (State only); RCW 70.94.980, 2011(State only)]

5 **5.27 Inapplicable Requirements**

6 Ecology has determined that the Hanford Site, including all sources, is not subject to certain requirements.
7 In accordance with the provisions of WAC 173-401-640(2), inapplicable requirements at the time of
8 permit issuance are shown in Table 5-1. The permit shield shall apply to these inapplicable requirements.
9 [WAC 173-401-640(2)]

1 **Table 5-1. Inapplicable Requirements**

Requirement	Reason for Inapplicability
BCAA, Regulation 1, Articles 1, 2, 3, 4, 6, 7, 8, 9	Authority to regulate Hanford Site air emissions pre-empted by Ecology, except for Article 5.
WAC 173-400-040(4)(b)	The Hanford Site has not been identified as a significant contributor to the nonattainment status of a designated nonattainment area.
WAC 173-400-040(9)(b)	The Hanford Site has not been identified as a significant contributor to a PM-10 or PM-2.5 nonattainment area.
WAC 173-400-060, “Emission Standards for General Process Units”	No general process units have been identified on the Hanford Site.
WAC 173-400-070, “Emission Standards for Certain Source Categories”	No affected sources on the Hanford Site.
WAC 173-400-105(5)(b), (c) and (d), Continuous monitoring and recording for Sulfuric acid plants, fluid bed catalytic cracking units, and wood residue fuel-fired steam generators	No affected sources on the Hanford Site.
WAC 173-400-112, “Requirements for New Sources in Nonattainment Areas”	The Hanford Site and surrounding areas are not classified as nonattainment areas for any regulated pollutant.
WAC 173-400-151, “Retrofit Requirements for Visibility Protection”	The Hanford Site has not been identified as a cause or contributor to visibility impairment in any mandatory Class I area.
WAC 173-400-190, “Requirements for Nonattainment Areas”	The Hanford Site is not located in a nonattainment area.
WAC 173-400-210, “Emission Requirements of Prior Jurisdictions”	The Hanford Site always has been regulated by Ecology. No local authority previously has regulated the Hanford Site.
WAC 173-405, “Kraft Pulp Mill”	No affected sources on the Hanford Site.
WAC 173-406, “Acid Rain Regulation”	No affected sources on the Hanford Site.
WAC 173-407, “Carbon Dioxide Mitigation Program Greenhouse Gases Emissions Performance Standard and Sequestration Plans and Programs for Thermal Electric Generating Facilities”	No affected sources on the Hanford Site.
WAC 173-410, “Sulfite Pulp Mill”	No affected sources on the Hanford Site.
WAC 173-415, “Primary Aluminum Plants”	No affected sources on the Hanford Site.
WAC 173-421, “Motor Vehicle Emission Control Systems”	The site is not located in a noncompliance area or emission contributing area requiring a vehicle inspection program
WAC 173-422, “Motor Vehicle Emission Inspection”	The site is not located in a noncompliance area or emission contributing area requiring a vehicle inspection program

Requirement	Reason for Inapplicability
WAC 173-430, "Agricultural Burning"	No affected sources on the Hanford Site.
WAC 173-433, "Solid Fuel Burning Devices"	No affected sources on the Hanford Site.
WAC 173-434, "Solid Waste Incinerator Facilities"	No affected sources on the Hanford Site.
WAC 173-442, "Clean Air Rule"	No affected sources on the Hanford Site
WAC 173-490, Emission Standards and Controls for Sources Emitting Volatile Organic Compounds (VOCs)	This supplements WAC 173-400 and applies to VOC sources in ozone nonattainment areas. The Hanford Site is not located in a designated ozone nonattainment area.
WAC 173-492, "Motor Fuel Specifications for Oxygenated Gasoline"	The site is not located in the control areas requiring oxygenated gasoline use.
WAC 246-247-060(10), Commercial Nuclear Power Plants	The permittee does not operate a commercial nuclear power plant.
WAC 246-247-075(5) and (7), Facilities Licensed by the U.S. Nuclear Regulatory Commission (NRC)	The permittee does not have point source emissions from NRC licensed facilities. Any NRC license would be to handle a specific sealed source term.
WAC 463-78, "General and Operating Permit Regulations for Air Pollution Sources"	The site emission sources are not subject to Energy Facility Site Evaluation Council jurisdiction and/or authority.
40 CFR 60 Subpart B, "Adoption and Submittal of State Plans for Designated Facilities"	These are permitting authority procedural requirements.
40 CFR 60 Subpart C, "Emission Guidelines and Compliance Times"	These are permitting authority procedural requirements.
40 CFR 60 Subpart Cb, "Emissions Guidelines and Compliance Times for Large Municipal Waste Combustors that are Constructed on or Before September 20, 1994"	No affected sources on the Hanford Site.
40 CFR 60 Subpart Cc, "Emission Guidelines and Compliance Times for Municipal Solid Waste Landfills"	No affected sources on the Hanford Site.
40 CFR 60 Subpart Cd, "Emissions Guidelines and Compliance Times for Sulfuric Acid Production Units"	No affected sources on the Hanford Site.
40 CFR 60 Subpart Ce, "Emission Guidelines and Compliance Times for Hospital/Medical/Infectious Waste Incinerators"	No affected sources on the Hanford Site.
40 CFR 60 Subpart Cf, "Emission Guidelines and Compliance Times for Municipal Solid Waste (MSW) Landfills"	The MSW landfill on the Hanford Site meets the conditions of §60.3F (d)(1)
40 CFR 60 Subpart D, Standards of Performance for Fossil-Fuel-Fired Steam Generators for Which Construction is Commenced After August 17, 1971	No affected sources on the Hanford Site.
40 CFR 60 Subpart Da, "Standards of Performance for Electric Utility Steam Generating Units for Which Construction is Commenced After September 18, 1978"	No affected sources on the Hanford Site.

Requirement	Reason for Inapplicability
40 CFR 60 Subpart Db, “Standards of Performance for Industrial-Commercial-Institutional Steam Generating Units”	No affected sources on the Hanford Site.
40 CFR 60 Subpart E, “Standards of Performance for Incinerators”	No affected sources on the Hanford Site.
40 CFR 60 Subpart Ea, “Standards of Performance for Municipal Waste Combustors for Which Construction is Commenced After December 20, 1989 and On or Before September 20, 1994”	No affected sources on the Hanford Site.
40 CFR 60 Subpart Eb, “Standards of Performance for Large Municipal Waste Combustors for Which Construction is Commenced after September 20, 1994 or for Which Modification or Reconstruction is Commenced After June 19, 1996”	No affected sources on the Hanford Site.
40 CFR 60 Subpart Ec, “Standards of Performance for Hospital/Medical/Infectious Waste Incinerators for Which Construction is Commenced After June 20, 1996”	No affected sources on the Hanford Site.
40 CFR 60 Subpart F, “Standards of Performance for Portland Cement Plants”	No affected sources on the Hanford Site.
40 CFR 60 Subpart G, “Standards of Performance for Nitric Acid Plants	No affected sources on the Hanford Site.
40 CFR 60 Ga, “Standards of Performance for Nitric Acid Plants for Which Construction, Reconstruction, or Modification Commenced After October 14, 2011”	No affected sources on the Hanford Site
40 CFR 60 Subpart H, Standards of Performance for Sulfuric Acid Plants”	No affected sources on the Hanford Site.
40 CFR 60 Subpart I, “Standards of Performance for Hot Mix Asphalt Facilities”	No affected sources on the Hanford Site.
40 CFR 60 Subpart J, “Standards of Performance for Petroleum Refineries”	No affected sources on the Hanford Site.
40 CFR 60 Subpart Ja, “Standards of Performance for Petroleum Refineries for Which Construction, Reconstruction, or Modification Commenced After May 14, 2007”	No affected sources on the Hanford Site.
40 CFR 60 Subpart K, “Standards of Performance for Storage Vessels for Petroleum Liquids for Which Construction, Reconstruction, or Modification Commenced After June 11, 1973, and Prior to May 19, 1978”	No affected sources on the Hanford Site.
40 CFR 60 Subpart Ka, “Standards of Performance for Storage Vessels for Petroleum Liquids for Which Construction, Reconstruction, or Modification Commenced After May 18, 1978, and Prior to July 23, 1984”	No affected sources on the Hanford Site.

Requirement	Reason for Inapplicability
40 CFR 60 Subpart Kb, “Standards of Performance for Volatile Organic Liquid Storage Vessels (Including Petroleum Liquid Storage Vessels) for Which Construction, Reconstruction, or Modification Commenced After July 23, 1984”	No affected sources on the Hanford Site.
40 CFR 60 Subpart L, “Standards of Performance for Secondary Lead Smelters”	No affected sources on the Hanford Site.
40 CFR 60 Subpart M, “Standards of Performance for Secondary Brass and Bronze Production Plants”	No affected sources on the Hanford Site.
40 CFR 60 Subpart N, “Standards of Performance for Primary Emissions From Basic Oxygen Process Furnaces for Which Construction is Commenced After June 11, 1973”	No affected sources on the Hanford Site.
40 CFR 60 Subpart Na, “Standards of Performance for Secondary Emissions from Basic Oxygen Process Steelmaking Facilities for Which Construction is Commenced After January 20, 1983”	No affected sources on the Hanford Site.
40 CFR 60 Subpart O, “Standards of Performance for Sewage Treatment Plants”	No affected sources on the Hanford Site.
40 CFR 60 Subpart P, “Standards of Performance for Primary Copper Smelters”	No affected sources on the Hanford Site.
40 CFR 60 Subpart Q, “Standards of Performance for Primary Zinc Smelters”	No affected sources on the Hanford Site.
40 CFR 60 Subpart R, “Standards of Performance for Primary Lead Smelters”	No affected sources on the Hanford Site.
40 CFR 60 Subpart S, “Standards of Performance for Primary Aluminum Reduction Plants”	No affected sources on the Hanford Site.
40 CFR 60 Subpart T, “Standards of Performance for the Phosphate Fertilizer Industry: Wet-Process Phosphoric Acid Plants”	No affected sources on the Hanford Site.
40 CFR 60 Subpart U, “Standards of Performance for the Phosphate Fertilizer Industry: Superphosphoric Acid Plants”	No affected sources on the Hanford Site.
40 CFR 60 Subpart V, “Standards of Performance for the Phosphate Fertilizer Industry: Diammonium Phosphate Plants”	No affected sources on the Hanford Site.
40 CFR 60 Subpart W, “Standards of Performance for the Phosphate Fertilizer Industry: Triple Superphosphate Plants”	No affected sources on the Hanford Site.
40 CFR 60 Subpart X, “Standards of Performance for the Phosphate Fertilizer Industry: Granular Triple Superphosphate Storage Facilities”	No affected sources on the Hanford Site.
40 CFR 60 Subpart Y, “Standards of Performance for Coal Preparation and Processing Plants”	No affected sources on the Hanford Site.

Requirement	Reason for Inapplicability
40 CFR 60 Subpart Z, “Standards of Performance for Ferroalloy Production Facilities”	No affected sources on the Hanford Site.
40 CFR 60 Subpart AA, “Standards of Performance for Steel Plants: Electric Arc Furnaces Constructed After October 21, 1974, and On or Before August 17, 1983”	No affected sources on the Hanford Site.
40 CFR 60 Subpart AAa, “Standards of Performance for Steel Plants: Electric Arc Furnaces and Argon-Oxygen Decarburization Vessels Constructed After August 17, 1983”	No affected sources on the Hanford Site.
40 CFR 60 Subpart BB, “Standards of Performance for Kraft Pulp Mills”	No affected sources on the Hanford Site.
40 CFR 60 Subpart BBa, “Standards of Performance for Kraft Pulp Mill Affected Sources for Which Construction, Reconstruction, or Modification Commenced After May 23, 2013	No affected sources on the Hanford Site.
40 CFR 60 Subpart CC, “Standards of Performance for Glass Manufacturing Plants”	No affected sources on the Hanford Site.
40 CFR 60 Subpart DD, “Standards of Performance for Grain Elevators”	No affected sources on the Hanford Site.
40 CFR 60 Subpart EE, “Standards of Performance for Surface Coating of Metal Furniture”	No affected sources on the Hanford Site.
40 CFR 60 Subpart GG, “Standards of Performance for Stationary Gas Turbines”	No affected sources on the Hanford Site.
40 CFR 60 Subpart HH, “Standards of Performance for Lime Manufacturing Plants”	No affected sources on the Hanford Site.
40 CFR 60 Subpart KK, “Standards of Performance for Lead-Acid Battery Manufacturing Plants”	No affected sources on the Hanford Site.
40 CFR 60 Subpart LL, “Standards of Performance for Metallic Mineral Processing Plants”	No affected sources on the Hanford Site.
40 CFR 60 Subpart MM, “Standards of Performance for Automobile and Light Duty Truck Surface Coatings Operations”	No affected sources on the Hanford Site.
40 CFR 60 Subpart NN, “Standards of Performance for Phosphate Rock Plants”	No affected sources on the Hanford Site.
40 CFR 60 Subpart PP, “Standards of Performance for Ammonium Sulfate Manufacture”	No affected sources on the Hanford Site.
40 CFR 60 Subpart QQ, “Standards of Performance for the Graphic Arts Industry: Publication Rotogravure Printing”	No affected sources on the Hanford Site.
40 CFR 60 Subpart RR, “Standards of Performance for Pressure Sensitive Tape and Label Surface Coating Operations”	No affected sources on the Hanford Site.
40 CFR 60 Subpart SS, “Standards of Performance for Industrial Surface Coating: Large Appliances”	No affected sources on the Hanford Site.

Requirement	Reason for Inapplicability
40 CFR 60 Subpart TT, “Standards of Performance for Metal Coil Surface Coating”	No affected sources on the Hanford Site.
40 CFR 60 Subpart UU, “Standards of Performance for Asphalt Processing and Asphalt Roofing Manufacture”	No affected sources on the Hanford Site.
40 CFR 60 Subpart VV, “Standards of Performance for Equipment Leaks of VOC in the Synthetic Organic Chemicals Manufacturing Industry for Which Construction, Reconstruction, or Modification Commenced After January 5, 1981, and On or Before November 7, 2006”	No affected sources on the Hanford Site.
40 CFR 60 Subpart VVa, “Standards of Performance for Equipment Leaks of VOC in the Synthetic Organic Chemicals Manufacturing Industry for Which Construction, Reconstruction, or Modification Commenced After November 7, 2006”	No affected sources on the Hanford Site.
40 CFR 60 Subpart WW, “Standards of Performance for the Beverage Can Surface Coating Industry”	No affected sources on the Hanford Site.
40 CFR 60 Subpart XX “Standards of Performance for Bulk Gasoline Terminals”	No affected sources on the Hanford Site.
40 CFR 60 Subpart AAA, “Standards of Performance for New Residential Wood Heaters”	No affected sources on the Hanford Site.
40 CFR 60 Subpart BBB, “Standards of Performance for the Rubber Tire Manufacturing Industry”	No affected sources on the Hanford Site.
40 CFR 60 Subpart DDD, “Standards of Performance for Volatile Organic Compound (VOC) Emissions from the Polymer Manufacturing Industry”	No affected sources on the Hanford Site.
40 CFR 60 Subpart FFF, “Standards of Performance for Flexible Vinyl and Urethane Coating and Printing”	No affected sources on the Hanford Site.
40 CFR 60 Subpart GGG, “Standards of Performance for Equipment Leaks of VOC in Petroleum Refineries for Which Construction, Reconstruction, or Modification Commenced After January 4, 1983, and On or Before November 7, 2006”	No affected sources on the Hanford Site.
40 CFR 60 Subpart GGGa, “Standards of Performance for Equipment Leaks of VOC in Petroleum Refineries for Which Construction, Reconstruction, or Modification Commenced After November 7, 2006”	No affected sources on the Hanford Site.
40 CFR 60 Subpart HHH, “Standards of Performance for Synthetic Fiber Production Facilities”	No affected sources on the Hanford Site.
40 CFR 60 Subpart III, “Standards of Performance for Volatile Organic Compound (VOC) Emissions from the Synthetic Organic Chemical Manufacturing Industry (SOCMI) Air Oxidation Unit Processes”	No affected sources on the Hanford Site.
40 CFR 60 Subpart JJJ, “Standards of Performance for Petroleum Dry Cleaners”	No affected sources on the Hanford Site.

Requirement	Reason for Inapplicability
40 CFR 60 Subpart KKK, “Standards of Performance for Equipment Leaks of VOC from Onshore Natural Gas Processing Plants”	No affected sources on the Hanford Site.
40 CFR 60 Subpart LLL, “Standards of Performance for Onshore Natural Gas Processing: SO ₂ Emissions”	No affected sources on the Hanford Site.
40 CFR 60 Subpart NNN, “Standards of Performance for Volatile Organic Compound (VOC) Emissions from Synthetic Organic Chemical Manufacturing Industry (SOCMI) Distillation Operations”	No affected sources on the Hanford Site.
40 CFR 60 Subpart OOO, “Standards of Performance for Nonmetallic Mineral Processing Plants”	No affected sources on the Hanford Site.
40 CFR 60 Subpart PPP, “Standard of Performance for Wool Fiberglass Insulation Manufacturing Plants”	No affected sources on the Hanford Site.
40 CFR 60 Subpart QQQ, “Standards of Performance for VOC Emissions from Petroleum Refinery Wastewater Systems”	No affected sources on the Hanford Site.
40 CFR 60 Subpart RRR, “Standards of Performance for Volatile Organic Compound Emissions from Synthetic Organic Chemical Manufacturing Industry (SOCMI) Reactor Processes”	No affected sources on the Hanford Site.
40 CFR 60 Subpart SSS, “Standards of Performance for Magnetic Tape Coating Facilities”	No affected sources on the Hanford Site.
40 CFR 60 Subpart TTT, “Standards of Performance for Industrial Surface Coating: Surface Coating of Plastic Parts for Business Machines”	No affected sources on the Hanford Site.
40 CFR 60 Subpart UUU, Standards of Performance for Calciners and Dryers in Mineral Industries”	No affected sources on the Hanford Site.
40 CFR 60 Subpart VVV, “Standards of Performance for Polymeric Coating of Supporting Substrates Facilities”	No affected sources on the Hanford Site.
40 CFR 60 Subpart WWW, “Standards of Performance for Municipal Solid Waste Landfills”	No affected sources on the Hanford Site.
40 CFR 60 Subpart AAAA, “Standards of Performance for Small Municipal Waste Combustion Units for Which Construction is Commenced After August 30, 1999 or for Which Modification or Reconstruction is Commenced After June 6, 2001”	No affected sources on the Hanford Site.
40 CFR 60 Subpart BBBB, “Emission Guidelines and Compliance Times for Small Municipal Waste Combustion Units Constructed On or Before August 30, 1999”	No affected sources on the Hanford Site.

Requirement	Reason for Inapplicability
40 CFR 60 Subpart CCCC, “Standards of Performance for Commercial and Industrial Solid Waste Incineration Units for Which Construction is Commenced After November 30, 1999 or for Which Modification or Reconstruction is Commenced On or After June 1, 2001”	No affected sources on the Hanford Site.
40 CFR 60 Subpart DDDD, “Emission Guidelines and Compliance Times for Commercial and Industrial Solid Waste Incineration Units that Commenced Construction On or Before November 30, 1999”	No affected sources on the Hanford Site.
40 CFR 60 Subpart EEEE, “Standards of Performance for Other Solid Waste Incineration Units for Which Construction is Commenced After December 9, 2004, or for Which Modification or Reconstruction is Commenced On or After June 16, 2006”	No affected sources on the Hanford Site.
40 CFR 60 Subpart FFFF, “Emission Guidelines and Compliance Times for Other Solid Waste Incineration Units that Commenced On or Before December 9, 2004”	No affected sources on the Hanford Site.
40 CFR 60 Subpart HHHH, “Emission Guidelines and Compliance Times for Coal-Fired Electric Steam Generating Units”	No affected sources on the Hanford Site.
40 CFR 60 Subpart LLLL, “Standards of Performance for New Sewage Sludge Incinerator Units”	No affected sources on the Hanford Site.
40 CFR 60 Subpart MMMM, “Emission Guidelines and Compliance Times for Existing Sewage Sludge Incinerator Units”	No affected sources on the Hanford Site.
40 CFR 60 Subpart OOOO, “Standards of Performance for Crude Oil and Natural Gas Production, Transmission and Distribution”	No affected sources on the Hanford Site.
40 CFR 60 Subpart QQQQ, “Standards of Performance for New Residential Hydronic Heaters and Forced-Air Furnaces”	No affected sources on the Hanford Site.
40 CFR 60 Subpart TTTT, “Standards of Performance for Greenhouse Gas Emissions for Electric Generating Units”	No affected sources on the Hanford Site.
40 CFR 60 Subpart UUUU, “Emission Guidelines for Greenhouse Gas Emissions and Compliance Times for Electric Utility Generating Units”	No affected sources on the Hanford Site.
40 CFR 61 Subpart B, “National Emission Standards for Radon Emissions From Underground Uranium Mines”	No affected sources on the Hanford Site.
40 CFR 61 Subpart C, “National Emission Standard for Beryllium	No affected sources on the Hanford Site.
40 CFR 61 Subpart D, “National Emission Standard for Beryllium Rocket Motor Firing”	No affected sources on the Hanford Site.

Requirement	Reason for Inapplicability
40 CFR 61 Subpart E, “National Emission Standard for Mercury”	No affected sources on the Hanford Site.
40 CFR 61 Subpart F, “National Emission Standard for Vinyl Chloride”	No affected sources on the Hanford Site.
40 CFR 61 Subpart I, “National Emission Standards for Radionuclide Emissions from Federal Facilities Other Than Nuclear Regulatory Commission Licensees and Not Covered by Subpart H”	No affected sources on the Hanford Site.
40 CFR 61 Subpart J, “National Emission Standard for Equipment Leaks (Fugitive Emission Sources) of Benzene”	No affected sources on the Hanford Site.
40 CFR 61 Subpart K, “National Emission Standards for Radionuclide Emissions from Elemental Phosphorus Plants”	No affected sources on the Hanford Site.
40 CFR 61 Subpart L, “National Emission Standard for Benzene Emissions from Coke By-Product Recovery Plants”	No affected sources on the Hanford Site.
40 CFR 61 Subpart N, “National Emission Standard for Inorganic Arsenic Emissions from Glass Manufacturing Plants”	No affected sources on the Hanford Site.
40 CFR 61 Subpart O, “National Emission Standard for Inorganic Arsenic Emissions from Primary Copper Smelters”	No affected sources on the Hanford Site.
40 CFR 61 Subpart P, “National Emission Standard for Inorganic Arsenic Emissions from Arsenic Trioxide and Metallic Arsenic Production Facilities”	No affected sources on the Hanford Site.
40 CFR 61 Subpart Q, “National Emission Standards for Radon Emissions from Department of Energy Facilities”	No affected sources on the Hanford Site.
40 CFR 61 Subpart R, “National Emission Standards for Radon Emissions from Phosphogypsum Stacks”	No affected sources on the Hanford Site.
40 CFR 61 Subpart T, “National Emission Standards for Radon Emissions from the Disposal of Uranium Mill Tailings”	No affected sources on the Hanford Site.
40 CFR 61 Subpart V, “National Emission Standard for Equipment Leaks (Fugitive Emission Sources)”	No affected sources on the Hanford Site.
40 CFR 61 Subpart W, “National Emission Standards for Radon Emissions from Operating Mill Tailings”	No affected sources on the Hanford Site.
40 CFR 61 Subpart Y, “National Emission Standard for Benzene Emissions from Benzene Storage Vessels”	No affected sources on the Hanford Site.
40 CFR 61 Subpart BB, “National Emission Standard for Benzene Emissions from Benzene Transfer Operations”	No affected sources on the Hanford Site.
40 CFR 61 Subpart FF, “National Emission Standard for Benzene Waste Operations”	No affected sources on the Hanford Site.

Requirement	Reason for Inapplicability
40 CFR 63 Subpart E, "Approval of State Programs and Delegation of Federal Authorities"	These are permitting authority procedural requirements.
40 CFR 63 Subpart F, "National Emission Standards for Organic Hazardous Air Pollutants from the Synthetic Organic Chemical Manufacturing Industry"	No affected sources on the Hanford Site.
40 CFR 63 Subpart G, "National Emission Standards for Organic Hazardous Air Pollutants from the Synthetic Organic Chemical Manufacturing Industry for Process Vents, Storage Vessels, Transfer Operations and Wastewater"	No affected sources on the Hanford Site.
40 CFR 63 Subpart H, "National Emission Standards for Organic Hazardous Air Pollutants for Equipment Leaks"	No affected sources on the Hanford Site.
40 CFR 63 Subpart I, "National Emission Standards for Organic Hazardous Air Pollutants for Certain Processes Subject to the Negotiated Regulation for Equipment Leaks"	No affected sources on the Hanford Site.
40 CFR 63 Subpart J, "National Emission Standards for Hazardous Air Pollutants for Polyvinyl Chloride and Copolymers Production"	No affected sources on the Hanford Site.
40 CFR 63 Subpart L, "National Emission Standards for Coke Oven Batteries"	No affected sources on the Hanford Site.
40 CFR 63 Subpart M, "National Perchloroethylene Air Emission Standards for Dry Cleaning Facilities"	No affected sources on the Hanford Site.
40 CFR 63 Subpart N, "National Emission Standards for Chromium Emissions from Hard and Decorative Chromium Electroplating and Chromium Anodizing Tanks"	No affected sources on the Hanford Site.
40 CFR 63 Subpart O, "Ethylene Oxide Emissions Standards for Sterilization Facilities"	No affected sources on the Hanford Site.
40 CFR 63 Subpart Q, "National Emission Standards for Hazardous Air Pollutants for Industrial Process Cooling Towers"	No affected sources on the Hanford Site.
40 CFR 63 Subpart R, "National Emission Standards for Gasoline Distribution Facilities (Bulk Gasoline Terminals and Pipeline Breakout Stations)"	No affected sources on the Hanford Site.
40 CFR 63 Subpart S, "National Emission Standards for Hazardous Air Pollutants from the Pulp and Paper Industry"	No affected sources on the Hanford Site.
40 CFR 63 Subpart T, "National Emission Standards for Halogenated Solvent Cleaning"	No affected sources on the Hanford Site.
40 CFR 63 Subpart U, "National Emission Standards for Hazardous Air Pollutant Emissions: Group I Polymers and Resins"	No affected sources on the Hanford Site.

Requirement	Reason for Inapplicability
40 CFR 63 Subpart W, “National Emission Standards for Hazardous Air Pollutants for Epoxy Resins Production and Non-Nylon Polyamides Production”	No affected sources on the Hanford Site.
40 CFR 63 Subpart X, “National Emission Standards for Hazardous Air Pollutants from Secondary Lead Smelting”	No affected sources on the Hanford Site.
40 CFR 63 Subpart Y, “National Emission Standards for Marine Tank Vessel Loading Operations”	No affected sources on the Hanford Site.
40 CFR 63 Subpart AA, “National Emission Standards for Hazardous Air Pollutants from Phosphoric Acid Manufacturing Plants”	No affected sources on the Hanford Site.
40 CFR 63 Subpart BB, “National Emission Standards for Hazardous Air Pollutants from Phosphate Fertilizers Production Plants”	No affected sources on the Hanford Site.
40 CFR 63 Subpart CC, “National Emission Standards for Hazardous Air Pollutants from Petroleum Refineries”	No affected sources on the Hanford Site.
40 CFR 63 Subpart DD, “National Emission Standards for Hazardous Air Pollutants from Off-Site Waste and Recovery Operations”	No affected sources on the Hanford Site.
40 CFR 63 Subpart EE, “National Emission Standards for Magnetic Tape Manufacturing Operations”	No affected sources on the Hanford Site.
40 CFR 63 Subpart GG, “National Emission Standards for Aerospace Manufacturing and Rework Facilities”	No affected sources on the Hanford Site.
40 CFR 63 Subpart HH, “National Emission Standards for Hazardous Air Pollutants from Oil and Natural Gas Production Facilities”	No affected sources on the Hanford Site.
40 CFR 63 Subpart II, “National Emission Standards for Shipbuilding and Ship Repair (Surface Coatings)”	No affected sources on the Hanford Site.
40 CFR 63 Subpart JJ, “National Emission Standards for Wood Furniture Manufacturing Operations”	No affected sources on the Hanford Site.
40 CFR 63 Subpart KK, “National Emission Standards for the Printing and Publishing Industry”	No affected sources on the Hanford Site.
40 CFR 63 Subpart LL, “National Emission Standards for Hazardous Air Pollutants for Primary Aluminum Reduction Plants”	No affected sources on the Hanford Site.
40 CFR 63 Subpart MM, “National Emission Standards for Hazardous Air Pollutants for Chemical Recovery Combustion Sources at Kraft, Soda, Sulfite, and Stand-Alone Semichemical Pulp Mills”	No affected sources on the Hanford Site.
40 CFR 63 Subpart NN, “National Emission Standards for Hazardous Air Pollutants for Wool Fiberglass Manufacturing at Area Sources”	No affected sources on the Hanford Site.

Requirement	Reason for Inapplicability
40 CFR 63 Subpart OO, “National Emission Standards for Tanks – Level 1”	No affected sources on the Hanford Site subject to other rule subparts that reference this section for emission control requirements.
40 CFR 63 Subpart PP, “National Emission Standards for Containers”	No affected sources on the Hanford Site subject to other rule subparts that reference this section for emission control requirements.
40 CFR 63 Subpart QQ, “National Emission Standards for Surface Impoundments”	No affected sources on the Hanford Site subject to other rule subparts that reference this section for emission control requirements.
40 CFR 63 Subpart RR, “National Emission Standards for Individual Drain Systems”	No affected sources on the Hanford Site subject to other rule subparts that reference this section for emission control requirements.
40 CFR 63 Subpart SS, “National Emission Standards for Closed Vent Systems, Control Devices, Recovery Devices and Routing to a Fuel Gas System or a Process”	No affected sources on the Hanford Site subject to other rule subparts that reference this section for emission control requirements.
40 CFR 63 Subpart TT, “National Emission Standards for Equipment Leaks – Control Level 1”	No affected sources on the Hanford Site subject to other rule subparts that reference this section for emission control requirements.
40 CFR 63 Subpart UU, “National Emission Standards for Equipment Leaks – Control Level 2 Standards”	No affected sources on the Hanford Site subject to other rule subparts that reference this section for emission control requirements.
40 CFR 63 Subpart VV, “National Emission Standards for Oil-Water Separators and Organic-Water Separators”	No affected sources on the Hanford Site subject to other rule subparts that reference this section for emission control requirements.
40 CFR 63 Subpart WW, “National Emission Standards for Storage Vessels (Tanks) – Control Level 2”	No affected sources on the Hanford Site subject to other rule subparts that reference this section for emission control requirements.
40 CFR 63 Subpart XX, “National Emission Standards for Ethylene Manufacturing Process Units: Heat Exchange Systems and Waste Operations”	No affected sources on the Hanford Site.
40 CFR 63 Subpart YY, “National Emission Standards for Hazardous Air Pollutants for Source Categories: Generic Maximum Achievable Control Technology Standards”	No affected sources on the Hanford Site.

Requirement	Reason for Inapplicability
40 CFR 63 Subpart CCC, “National Emission Standards for Hazardous Air Pollutants for Steel Pickling – HCL Process Facilities and Hydrochloric Acid Regeneration Plants”	No affected sources on the Hanford Site.
40 CFR 63 Subpart DDD, “National Emission Standards for Hazardous Air Pollutants for Mineral Wool Production”	No affected sources on the Hanford Site.
40 CFR 63 Subpart EEE, “National Emission Standards for Hazardous Air Pollutants from Hazardous Waste Combustors”	No affected sources on the Hanford Site.
40 CFR 63 Subpart GGG, “National Emission Standards for Pharmaceuticals Production”	No affected sources on the Hanford Site.
40 CFR 63 Subpart HHH, “National Emission Standards for Hazardous Air Pollutants from Natural Gas Transmission and Storage Facilities”	No affected sources on the Hanford Site.
40 CFR 63 Subpart III, “National Emission Standards for Hazardous Air Pollutants for Flexible Polyurethane Foam Production”	No affected sources on the Hanford Site.
40 CFR 63 Subpart JJJ, “National Emission Standards for Hazardous Air Pollutant Emissions: Group IV Polymers and Resins”	No affected sources on the Hanford Site.
40 CFR 63 Subpart LLL, “National Emission Standards for Hazardous Air Pollutants from the Portland Cement Manufacturing Industry”	No affected sources on the Hanford Site.
40 CFR 63 Subpart MMM, “National Emission Standards for Hazardous Air Pollutants for Pesticide Active Ingredient Production”	No affected sources on the Hanford Site.
40 CFR 63 Subpart NNN, “National Emission Standards for Hazardous Air Pollutants for Wool Fiberglass Manufacturing”	No affected sources on the Hanford Site.
40 CFR 63 Subpart OOO, “National Emission Standards for Hazardous Air Pollutant Emissions: Manufacture of Amino/Phenolic Resins”	No affected sources on the Hanford Site.
40 CFR 63 Subpart PPP, “National Emission Standards for Hazardous Air Pollutant Emissions for Polyether Polyols Production”	No affected sources on the Hanford Site.
40 CFR 63 Subpart QQQ, “National Emission Standards for Hazardous Air Pollutants for Primary Copper Smelting”	No affected sources on the Hanford Site.
40 CFR 63 Subpart RRR, “National Emission Standards for Hazardous Air Pollutants for Secondary Aluminum Production”	No affected sources on the Hanford Site.
40 CFR 63 Subpart TTT, “National Emission Standards for Hazardous Air Pollutants for Primary Lead Smelting”	No affected sources on the Hanford Site.

Requirement	Reason for Inapplicability
40 CFR 63 Subpart UUU, “National Emission Standards for Hazardous Air Pollutants for Petroleum Refineries: Catalytic Cracking Units, Catalytic Reforming Units, and Sulfur Recovery Units”	No affected sources on the Hanford Site.
40 CFR 63 Subpart VVV, “National Emission Standards for Hazardous Air Pollutants: Publicly Owned Treatment Works”	No affected sources on the Hanford Site.
40 CFR 63 Subpart XXX, “National Emission Standards for Hazardous Air Pollutants for Ferroalloys Production: Ferromanganese and Silicomanganese”	No affected sources on the Hanford Site.
40 CFR 63 Subpart AAAA, “National Emission Standards for Hazardous Air Pollutants: Municipal Solid Waste Landfills”	No affected sources on the Hanford Site.
40 CFR 63 Subpart CCCC, “National Emission Standards for Hazardous Air Pollutants: Manufacturing of Nutritional Yeast”	No affected sources on the Hanford Site.
40 CFR 63 Subpart DDDD, “National Emission Standards for Hazardous Air Pollutants: Plywood and Composite Wood Products”	No affected sources on the Hanford Site.
40 CFR 63 Subpart EEEE, “National Emission Standards for Hazardous Air Pollutants: Organic Liquid Distribution (Non-Gasoline)”	No affected sources on the Hanford Site.
40 CFR 63 Subpart FFFF, “National Emission Standards for Hazardous Air Pollutants: Miscellaneous Organic Chemical Manufacturing”	No affected sources on the Hanford Site.
40 CFR 63 Subpart GGGG, “National Emission Standards for Hazardous Air Pollutants: Solvent Extraction for Vegetable Oil Production”	No affected sources on the Hanford Site.
40 CFR 63 Subpart HHHH, “National Emission Standards for Hazardous Air Pollutants for Wet-Formed Fiberglass Mat Production”	No affected sources on the Hanford Site.
40 CFR 63 Subpart IIII, “National Emission Standards for Hazardous Air Pollutants: Surface Coating of Automobiles and Light-Duty Trucks”	No affected sources on the Hanford Site.
40 CFR 63 Subpart JJJJ, “National Emission Standards for Hazardous Air Pollutants: Paper and Other Web Coating”	No affected sources on the Hanford Site.
40 CFR 63 Subpart KKKK, “National Emission Standards for Hazardous Air Pollutants: Surface Coating of Metal Cans”	No affected sources on the Hanford Site.
40 CFR 63 Subpart MMMM, “National Emission Standards for Hazardous Air Pollutants for Surface Coating of Miscellaneous Metal Parts and Products”	No affected sources on the Hanford Site.

Requirement	Reason for Inapplicability
40 CFR 63 Subpart NNNN, “National Emission Standards for Hazardous Air Pollutants: Surface Coating of Large Appliances”	No affected sources on the Hanford Site.
40 CFR 63 Subpart OOOO, “National Emission Standards for Hazardous Air Pollutants: Printing, Coating, and Dyeing of Fabrics and Other Textiles”	No affected sources on the Hanford Site.
40 CFR 63 Subpart PPPP, “National Emission Standards for Hazardous Air Pollutants for Surface Coating of Plastic Parts and Products”	No affected sources on the Hanford Site.
40 CFR 63 Subpart QQQQ, “National Emission Standards for Hazardous Air Pollutants: Surface Coating of Wood Building Products”	No affected sources on the Hanford Site.
40 CFR 63 Subpart RRRR, “National Emission Standards for Hazardous Air Pollutants: Surface Coating of Metal Furniture”	No affected sources on the Hanford Site.
40 CFR 63 Subpart SSSS, “National Emission Standards for Hazardous Air Pollutants: Surface Coating of Metal Coil”	No affected sources on the Hanford Site.
40 CFR 63 Subpart TTTT, “National Emission Standards for Hazardous Air Pollutants for Leather Finishing Operations”	No affected sources on the Hanford Site.
40 CFR 63 Subpart UUUU, “National Emission Standards for Hazardous Air Pollutants for Cellulose Products Manufacturing”	No affected sources on the Hanford Site.
40 CFR 63 Subpart VVVV, “National Emission Standards for Hazardous Air Pollutants for Boat Manufacturing”	No affected sources on the Hanford Site.
40 CFR 63 Subpart WWWW, “National Emissions Standards for Hazardous Air Pollutants: Reinforced Plastic Composites Production”	No affected sources on the Hanford Site.
40 CFR 63 Subpart XXXX, “National Emissions Standards for Hazardous Air Pollutants: Rubber Tire Manufacturing”	No affected sources on the Hanford Site.
40 CFR 63 Subpart AAAAA, “National Emission Standards for Hazardous Air Pollutants for Lime Manufacturing Plants”	No affected sources on the Hanford Site.
40 CFR 63 Subpart BBBB, “National Emission Standards for Hazardous Air Pollutants for Semiconductor Manufacturing”	No affected sources on the Hanford Site.
40 CFR 63 Subpart CCCC, “National Emission Standards for Hazardous Air Pollutants for Coke Ovens: Pushing, Quenching, and Battery Stacks”	No affected sources on the Hanford Site.
40 CFR 63 Subpart EEEEE, “National Emission Standards for Hazardous Air Pollutants for Iron and Steel Foundries”	No affected sources on the Hanford Site.

Requirement	Reason for Inapplicability
40 CFR 63 Subpart FFFFF, “National Emission Standards for Hazardous Air Pollutants for Integrated Iron and Steel Manufacturing Facilities”	No affected sources on the Hanford Site.
40 CFR 63 Subpart GGGGG, “National Emission Standards for Hazardous Air Pollutants: Site Remediation”	No affected sources on the Hanford Site.
40 CFR 63 Subparts HHHHH, “National Emission Standards for Hazardous Air Pollutants: Miscellaneous Coating Manufacturing”	No affected sources on the Hanford Site.
40 CFR 63 Subpart IIIII, “National Emission Standards for Hazardous Air Pollutants: Mercury Emissions from Mercury Cell Chlor-Alkali Plants”	No affected sources on the Hanford Site.
40 CFR 63 Subpart JJJJJ, “National Emission Standards for Hazardous Air Pollutants for Brick and Structural Clay Products Manufacturing”	No affected sources on the Hanford Site.
40 CFR 63 Subpart KKKKK, “National Emission Standards for Hazardous Air Pollutants for Clay Ceramics Manufacturing”	No affected sources on the Hanford Site.
40 CFR 63 Subpart LLLLL, “National Emission Standards for Hazardous Air Pollutants: Asphalt Processing and Asphalt Roofing Manufacturing”	No affected sources on the Hanford Site.
40 CFR 63 Subpart MMMMM, “National Emission Standards for Hazardous Air Pollutants: Flexible Polyurethane Foam Fabrication Operations”	No affected sources on the Hanford Site.
40 CFR 63 Subpart NNNNN, “National Emission Standards for Hazardous Air Pollutants: Hydrochloric Acid Production”	No affected sources on the Hanford Site.
40 CFR 63 Subpart PTTTT, “National Emission Standards for Hazardous Air Pollutants for Engine Test Cells/Stands”	No affected sources on the Hanford Site.
40 CFR 63 Subpart QQQQQ, “National Emission Standards for Hazardous Air Pollutants for Friction Materials Manufacturing Facilities”	No affected sources on the Hanford Site.
40 CFR 63 Subpart RRRRR, “National Emission Standards for Hazardous Air Pollutants: Taconite Iron Ore Processing”	No affected sources on the Hanford Site.
40 CFR 63 Subpart SSSSS, “National Emission Standards for Hazardous Air Pollutants for Refractory Products Manufacturing”	No affected sources on the Hanford Site.
40 CFR 63 Subpart TTTTT, “National Emissions Standards for Hazardous Air Pollutants for Primary Magnesium Refining”	No affected sources on the Hanford Site.
40 CFR 63 Subpart UUUUU, “National Emission Standards for Hazardous Air Pollutants: Coal-and Oil-Fired Electric Utility Steam Generating Units”	No affected sources on the Hanford Site.

Requirement	Reason for Inapplicability
40 CFR 63 Subpart WWWW, “National Emission Standards for Hospital Ethylene Oxide Sterilizers”	No affected sources on the Hanford Site.
40 CFR 63 Subpart YYYYY, “National Emission Standards for Hazardous Air Pollutants for Area Sources: Electric Arc Furnace Steelmaking Facilities”	The Hanford Site is not an Area Source.
40 CFR 63 Subpart ZZZZ, “National Emission Standards for Hazardous Air Pollutants for Iron and Steel Foundries Area Sources”	The Hanford Site is not an Area Source.
40 CFR 63 Subpart BBBB, “National Emission Standards for Hazardous Air Pollutants for Source Category: Gasoline Distribution Bulk Terminals, Bulk Plants, and Pipeline Facilities”	The Hanford Site is not an Area Source.
40 CFR 63 Subpart CCCCC, “National Emission Standards for Hazardous Air Pollutants for Source Category: Gasoline Dispensing Facilities”	The Hanford Site is not an Area Source.
40 CFR 63 Subpart DDDDD, “National Emission Standards for Hazardous Air Pollutants for Polyvinyl Chloride and Copolymers Production Area Sources”	The Hanford Site is not an Area Source.
40 CFR 63 Subpart EEEEE, “National Emission Standards for Hazardous Air Pollutants for Primary Copper Smelting Area Sources”	The Hanford Site is not an Area Source.
40 CFR 63 Subpart FFFFF, “National Emission Standards for Hazardous Air Pollutants for Secondary Copper Smelting Area Sources”	The Hanford Site is not an Area Source.
40 CFR 63 Subpart GGGGG, “National Emission Standards for Hazardous Air Pollutants for Primary Nonferrous Metals Area Sources – Zinc, Cadmium, and Beryllium”	The Hanford Site is not an Area Source.
40 CFR 63 Subpart HHHHH, “National Emission Standards for Hazardous Air Pollutants: Paint Stripping and Miscellaneous Surface Coating Operations at Area Sources”	The Hanford Site is not an Area Source.
40 CFR 63 Subpart JJJJJ, “National Emission Standards for Hazardous Air Pollutants for Industrial, Commercial and Institutional Boiler Area Sources”	The Hanford Site is not an Area Source.
40 CFR 63 Subpart LLLLL, “National Emission Standards for Hazardous Air Pollutants for Acrylic and Modacrylic Fibers Production Area Sources”	The Hanford Site is not an Area Source.
40 CFR 63 Subpart MMMMM, “National Emission Standards for Hazardous Air Pollutants for Carbon Black Production Area Sources”	The Hanford Site is not an Area Source.
40 CFR 63 Subpart NNNNN, “National Emission Standards for Hazardous Air Pollutants for Chemical Manufacturing Area Sources: Chromium Compounds”	The Hanford Site is not an Area Source.

Requirement	Reason for Inapplicability
40 CFR 63 Subpart OOOOOO, “National Emission Standards for Hazardous Air Pollutants for Flexible polyurethane Foam Production and Fabrication Area Sources”	The Hanford Site is not an Area Source.
40 CFR 63 Subpart PPPPPP, “National Emission Standards for Hazardous Air Pollutants for Lead Acid Battery Manufacturing Area Sources”	The Hanford Site is not an Area Source.
40 CFR 63 Subpart QQQQQQ, “National Emission Standards for Hazardous Air Pollutants for Wood Preserving Area Sources”	The Hanford Site is not an Area Source.
40 CFR 63 Subpart RRRRRR, “National Emission Standards for Hazardous Air Pollutants for Clay Ceramics Manufacturing Area Sources”	The Hanford Site is not an Area Source.
40 CFR 63 Subpart SSSSSS, “National Emission Standards for Hazardous Air Pollutants for Glass Manufacturing Area Sources”	The Hanford Site is not an Area Source.
40 CFR 63 Subpart TTTTTT, “National Emission Standards for Hazardous Air Pollutants for Secondary Nonferrous Metals Processing Area Sources”	The Hanford Site is not an Area Source.
40 CFR 63 Subpart VVVVVV, “National Emission Standards for Hazardous Air Pollutants for Chemical Manufacturing Area Sources”	The Hanford Site is not an Area Source.
40 CFR 63 Subpart WWWWWW, “National Emission Standards for Hazardous Air Pollutants: Area Source Standards for Plating and Polishing Operations”	The Hanford Site is not an Area Source.
40 CFR 63 Subpart XXXXXX, “National Emission Standards for Hazardous Air Pollutants Area Source Standards for Nine Metal Fabrication and Finishing Source Categories”	The Hanford Site is not an Area Source.
40 CFR 63 Subpart YYYYYY, “National Emission Standards for Hazardous Air Pollutants Area Sources: Ferroalloys Production Facilities”	The Hanford Site is not an Area Source.
40 CFR 63 Subpart ZZZZZZ, “National Emission Standards for Hazardous Air Pollutants: Area Source Standards for Aluminum, Copper, and Other Nonferrous Foundries”	The Hanford Site is not an Area Source.
40 CFR 63 Subpart AAAAAA, “National Emission Standards for Hazardous Air Pollutants for Area Sources: Asphalt Processing and Asphalt Roofing Manufacturing”	The Hanford Site is not an Area Source.
40 CFR 63 Subpart BBBBBB, “National Emission Standards for Hazardous Air Pollutants for Area Sources: Chemical Preparations Industry”	The Hanford Site is not an Area Source.

Requirement	Reason for Inapplicability
40 CFR 63 Subpart CCCCCCC, “National Emission Standards for Hazardous Air Pollutants for Area Sources: Paints and Allied Products Manufacturing”	The Hanford Site is not an Area Source.
40 CFR 63 Subpart DDDDDDD, “National Emission Standards for Hazardous Air Pollutants for Area Sources: Prepared Feeds Manufacturing”	The Hanford Site is not an Area Source.
40 CFR 63 Subpart EEEEEEE, “National Emission Standards for Hazardous Air Pollutants: Gold Mine Ore-Processing and Production Area Source Category”	The Hanford Site is not an Area Source.
40 CFR 63 Subpart HHHHHHH, “National Emission Standards for Hazardous Air Pollutant Emissions for Polyvinyl Chloride and Copolymers Production”	No affected sources on the Hanford Site.
40 CFR 64, “Compliance Assurance Monitoring”	No affected emission units on the Hanford Site.
40 CFR 68, “Chemical Accident Prevention Provisions”	The Hanford Site no longer has any facilities or activities subject to these requirements.
40 CFR 72 through 40 CFR 78, Acid Rain Regulations”	No affected sources on the Hanford Site.
40 CFR 79, “Registration of Fuels and Fuel Additives”	DOE does not manufacture or import fuel on the Hanford Site.
40 CFR 98, “Mandatory Greenhouse Gas Reporting”	Excluded by EPA rule from being considered an applicable requirement for Title V permits.

1 **6.0 STATEMENT OF BASIS**

2 The Statement is issued by Ecology as a separate supporting reference document to this air operating
3 permit. This Statement is non-enforceable and sets forth the legal and factual basis for permit conditions.

4 The Statement includes references to the applicable statutory or regulatory provisions, technical
5 supporting information on specific emission units, and clarifications of specific requirements.

6 [WAC 173-401-700(8)]
