1.0 THE ENVIRONMENTAL PROTECTION AGENCY ORDER TO ECOLOGY

The Environmental Protection Agency (EPA) issued an Order on May 29, 2015, granting in part and denying in part two petitions for objection to permits 00-05-006, Renewal 2, and 00-05-006, Renewal 2, Revision A (the Hanford Air Operating Permit Renewal 2 and Revision A). The Order is attached as Exhibit F.

The EPA granted Claim 3B “… the Petitioner’s request to object to the Hanford Title V Permit on the basis that Ecology’s record is inadequate with respect to addressing Subpart H in the Hanford Title V Permit.” The EPA also proposed a number of options that could be used to address this inadequacy. Additionally, the EPA clarified the scope of judicial review in a discussion under Claim 4.

Ecology and Health discussed the findings of the Order and selected to implement one of the suggestions in the Order. Ecology will “attach an addendum to the Hanford Title V Permit to correct any omissions or errors – if any – contained in the license with respect to Subpart H, since Ecology also has authority to enforce the NESHAP.”

This addendum to the Hanford Title V Permit will be located in the Attachment 2 Section of the permit. The addendum will contain requirements that the Permittee will have to abide by in addition to the requirements in Attachment 2. Health will use the addendum in Attachment 2 to correct the underlying radiological air emission license(s) (RAEL) in the next revision of the Hanford RAEL (FF-01). The Addendum will be named “Addendum A.”
