CHAPTER 5.0
PERSONNEL TRAINING DURING POST-CLOSURE
CHANGE CONTROL LOG**

Change Control Logs ensure that changes to this unit are performed in a methodical, controlled, coordinated, and transparent manner. Each unit addendum will have its own change control log with a modification history table. The “**Modification Number**” represents Ecology’s method for tracking the different versions of the permit. This log will serve as an up to date record of modifications and version history of the unit.

Modification History Table

1 **5.0 PERSONNEL TRAINING DURING POST-CLOSURE**

2 This section describes the training of the groundwater sampling and analysis task leader and sampling
3 personnel required to complete post-closure care requirements as contained in this post-closure plan.

4 The training of the sampling and analysis task leader and sampling personnel will receive either
5 classroom instruction or on-the-job training. Sampling and analysis personnel will be trained to perform
6 these functions in accordance with the Hanford Analytical Services Quality Assurance Requirements
7 Documents (DOE-RL 1996c). A person successfully completing the required training courses will be
8 qualified as a groundwater sampler and/or task leader. All personnel will undergo training and at least an
9 annual review for required course.
