

## Burned watershed hydrology calculations spreadsheet

Publication No. 15-11-014

Revised August 2015

This spreadsheet was developed by engineers in the Dam Safety Office of the Washington State Department of Ecology. It is made available to other engineers as part of our technical assistance efforts.

This spreadsheet is intended for use by Professional Engineers only, or by junior engineers under the supervision of a Professional Engineer. Engineers using this spreadsheet must make sure that these calculations are correctly applied to their project.

Dam owners and design engineers are reminded that they retain full responsibility for the safety of their structures. Also, the design engineer retains full responsibility for the completeness and adequacy of his or her design. Neither the State of Washington, the Department of Ecology, nor Ecology's reviewing engineer(s) are authorized to accept any of the design engineer's professional responsibility and/or potential liability in this regard.

Be sure to read the instruction paper before using this spreadsheet:
