

Emission Check

You're on the Road to Cleaner Air.

Notice of Action Required

Western Washington (800) 272-3780

Eastern Washington (509) 329-3491

Facility: _____ **Shop No:** _____ **Date:** _____

The Department of Ecology Emission Check staff has recently conducted a Technical Assistance visit at your facility. Your facility has a deficiency that will temporarily exclude your shop from the Authorized Emission Specialist Program.

Repair invoice/receipts dated after date above will not be accepted at an Emission Check test station to obtain a waiver from further testing.

Failure to notify your customers of your temporary removal from the Emission Check program could result in continued removal from the program.

The requirement(s) your facility does not meet and the required corrective action(s) are listed in the checked items below:

Employ an Authorized Emission Specialist to perform all emission related repairs, diagnoses, and/or adjustments on vehicles that fail an Emission Check test

Action required: Hire an Authorized Emission Specialist. If you wish to have a current employee become an Authorized Emission Specialist call your Ecology Representative for class information.

Maintain an OBDII compliant scanner in good working order meeting the accuracy checks of the Department.

Action Required: Repair your OBDII scanner to meet accuracy requirements. Call your Ecology Representative to schedule a Technical Assistance visit.
