Publication No. 09-10-060erratum1

Erratum South Fork Palouse River Fecal Coliform Bacteria Total Maximum Daily Load Water Quality Improvement Project

Page xiii

In the paragraph between tables ES-1 and ES-2, the second sentence mistakenly reads:

“In this watershed, the Pullman and **Colfax*** wastewater treatment plants (WWTP) and stormwater from Pullman, Washington State University’s (WSU) campus and Washington State Department of Transportation’s highways and facilities require wasteload allocations. The municipal WWTP limits are shown in Table ES-2.”

Instead of “Colfax” the town should be “Albion”, as listed in table ES-2.

This Erratum identifies errors only in the cited paragraph and sentence. **The error was corrected in the online version of the document only, www.ecy.wa.gov/biblio/0910060.html.**

The error does not affect the conclusions and recommendations of the TMDL water quality improvement report. This error appears only in the executive summary; the correct town is referenced in the body of the document.

* Emphasis for identification in this erratum only.
