

## **Appendix D. Copies of public involvement notices**

**NOTICE OF PUBLIC COMMENT PERIOD AND OPPORTUNITY TO REQUEST A PUBLIC HEARING ON STATE AIR QUALITY PLAN**

Ecology is seeking comments on a proposed revision to an air quality plan, called a State Implementation Plan (SIP). The proposed revision is to update Spokane Regional Clean Air Agency's (SRCAA) revised regulations for solid fuel burning devices in the Washington SIP. This revision to the SIP is required to meet federal requirements from the U.S. Environmental Protection Agency, and is designed to reduce wood smoke emissions and maintain compliance with federal air quality standards within Spokane County.

You may review and comment on the proposed plan revision March 2, 2015 through April 3, 2015. The document is available for review at: <http://www.ecy.wa.gov/programs/air/sips/plans/infrastructure.htm>.

To comment on the plan revision or to request a public hearing:

- email [AQComments@ecy.wa.gov](mailto:AQComments@ecy.wa.gov)
- mail comments to:  
Joanna Ekrem  
Air Quality Program  
Washington State Dept.  
of Ecology  
P.O. Box 47600  
Olympia, WA 98504-7600

For more information contact Joanna Ekrem at (360) 407-6826 or [joanna.ekrem@ecy.wa.gov](mailto:joanna.ekrem@ecy.wa.gov). Requests for a public hearing must be received by March 23, 2015.

If a hearing request is received by the deadline, it will be held at 9:30 a.m. on April 2, 2015, at Spokane Regional Clean Air Agency office: 3104 E. Augusta Avenue, Spokane, WA 99207. If a hearing request is not received, Ecology will announce a cancellation of the April 2 hearing on its public involvement calendar.

## **Spokane Solid Fuel Burning Devices Rule and a Required Revision to the State Implementation Plan**

Ecology is accepting public comment on a proposed State Implementation Plan (SIP) revision. The revision incorporates Spokane Regional Clean Air Agency's (SRCAA) current rule on solid fuel burning devices (like woodstoves, fireplaces, pellet stoves, and masonry heaters) into Washington's SIP. Ecology must submit this revision to the U.S. Environmental Protection Agency (EPA) for approval.

### **Q: What is the State Implementation Plan (SIP)?**

**A:** It is a tool for the EPA and the public to ensure the state and local clean air agencies do their job in safeguarding the air. States are required to develop a SIP to ensure the air is clean and meets the national standards. Washington's SIP is a compilation of:

- Ecology and local clean air agency rules.
- Technical data and analysis.
- Plans to clean up the air in areas of the state that do not meet national standards.

### **Q: How did the rule change?**

**A:** The 2014 changes to the rule help improve air quality and meet federal air quality standards for particle pollution (PM10 and PM2.5) in Spokane County. The focus was to:

- Align the process for calling burn bans with Washington State law.
- Clarify the exemption criteria that allow the use of a solid fuel burning device during a burn ban.
- Meet EPA requirements.
- Improve air quality in areas affected by pollution from solid fuel burning devices.

### **National Air Quality Standards**

EPA sets national air quality standards for six common pollutants. The standards are set to protect public health and welfare.

Violations result in economic penalties to communities and can result in more federal intervention.

Much like cigarette smoke, wood smoke contains hundreds of air pollutants that can cause cancer and other health problems.

For more information, contact:

Joanna Ekrem  
Air Quality Program  
Department of Ecology  
(360) 407-6826  
Joanna.ekrem@ecy.wa.gov

Margee Chambers  
Public Information and  
Business Assistance  
Spokane Regional Clean Air  
Agency  
(509) 477-4727 x114

### **Special accommodations**

If you need this document in a format for the visually impaired, call the Air Quality Program at 360-407-6600.

Persons with hearing loss, call 711 for Washington Relay Service. Persons with a speech disability, call 877-833-6341.

**Q: Why is Ecology proposing to submit this revised plan for approval?**

**A:** SRCAA's 1994 rule on solid fuel burning devices is currently included in Washington's SIP. SRCAA revised this rule, found in Regulation 1, Article VIII, after a public comment period in 2014. The rule took effect September 2, 2014. Ecology is submitting the revised plan for SIP approval to meet EPA requirements and help the area meet health-based federal air quality standards.

Download the SIP revision at: <http://www.ecy.wa.gov/programs/air/sips/pdfs/SIPspokane.pdf>.

**Q: How can the public get involved?**

**A:** The public can submit comments to Ecology through April 10, 2015. You may submit comments:

- **In writing:**
  - By Mail to Joanna Ekrem, Department of Ecology, P.O. Box 47600, Olympia, WA 98504-7600
  - By email to [AQComments@ecy.wa.gov](mailto:AQComments@ecy.wa.gov)
- **In person at public hearings:**
  - On April 2, 2015 at 9:30 a.m. or 6 p.m. at Spokane Regional Clean Air Agency, 3104 E Augusta Avenue, Spokane, WA 99207.

**Q: What is Ecology accepting public comment on?**

**A:** Ecology is accepting comments on:

- Should Ecology submit the SIP revision to EPA for approval?
- Is the SIP revision adequate to help the area continue to meet air quality standards?

Ecology will consider all of the public comments received. Ecology may also work with SRCAA to amend the proposed SIP revision based on comments we receive. If Ecology submits the proposed SIP revision to EPA, EPA will publish a notice and accept public comments before deciding whether or not to approve the SIP submission.

**Department of Ecology News Release - March 2, 2015**

## **Updating the clean air plan for Spokane County** *Review and comment on the plan now through April 3*

SPOKANE –Wood smoke is a common contributor to air pollution in Washington. Keeping air clean for everyone requires routine monitoring and careful management.

An updated clean air plan for managing pollution from solid-fuel burning devices like wood stoves, fireplaces, pellet stoves and fireplace inserts to protect air quality and public health in Spokane County is available for public review.

The Department of Ecology is seeking comments on Spokane Regional Clean Air Agency's updated plan that reflects changes made to local rules in 2014 for solid-fuel burning devices.

The proposed clean air plan for Spokane County allows air quality managers to issue burn bans at a lower threshold to help improve overall air quality. It also contains updated criteria for individuals to obtain an exemption to use solid-fuel burning devices during a burn ban.

After the public comment period has closed and comments have been reviewed, Ecology will submit the plan to the Environmental Protection Agency for approval. Once approved, the plan will be added to the statewide plan for protecting air quality.

Washington, along with other states, is required to maintain a statewide plan that ensures federal air quality standards are met.

Public comments on the plan are being accepted through April 3, 2015. Comments can be submitted by email to [AQComments@ecy.wa.gov](mailto:AQComments@ecy.wa.gov) or by mail to Joanna Ekrem, Washington Department of Ecology, P.O. Box 47600, Olympia, WA 98504-7600.

The public can request a hearing by contacting Joanna Ekrem by email at [joanna.ekrem@ecy.wa.gov](mailto:joanna.ekrem@ecy.wa.gov) or by phone at 360-407-6826. Requests must be received no later than March 23, 2015.

If a hearing request is received by the deadline, it will be held at 9:30 a.m. on April 2, 2015, at Spokane Regional Clean Air Agency office: 3104 E. Augusta Avenue, Spokane, WA 99207. If a hearing request is not received, Ecology will announce a cancellation of the April 2 hearing on its public involvement calendar.

### Infrastructure, Rule, and Program SIPs

#### Infrastructure SIPs

When EPA establishes a new [National Ambient Air Quality Standard \(NAAQS\)](#) or revises an existing NAAQS, the federal [Clean Air Act](#) requires Washington to develop an infrastructure State Implementation Plan (SIP). The Infrastructure SIP demonstrates that Washington has the necessary legal authority, regulatory structure, and sufficient resources to implement the NAAQS statewide.

- [EPA's list of federally approved infrastructure SIPs](#)

Infrastructure SIP Title	Status
<p><i>Infrastructure SIP for the 2010 Nitrogen Dioxide, 2008 Ozone, and 1997, 2006, and 2012 Fine Particulate Matter National Ambient Air Quality Standards</i></p> <ul style="list-style-type: none"> <li>• <a href="#">SIP Submittal</a></li> <li>• <a href="#">News Release - 07/25/2014</a></li> </ul>	<p>EPA proposed to partially approve and partially disapprove the SIP submittal on 10/17/14 in two separate actions</p> <ul style="list-style-type: none"> <li>• <a href="#">Federal Register Notice</a></li> <li>• <a href="#">Federal Register Notice</a></li> </ul>
<p><i>Infrastructure SIP Certification for the 2008 Lead National Ambient Air Quality Standards</i></p> <ul style="list-style-type: none"> <li>• <a href="#">SIP Submittal</a></li> <li>• <a href="#">FAQ</a></li> <li>• <a href="#">2012 Airport Lead Study: Auburn Municipal Airport and Harvey Field</a></li> </ul>	<p>EPA partially approved SIP on 7/23/14</p> <ul style="list-style-type: none"> <li>• <a href="#">Federal Register Notice</a></li> </ul>

#### Rule SIPs

Washington usually submits rules (Washington Administrative Codes or WACs) along with a SIP as enforceable means to carry out the control strategy in *any type of SIP*. Sometimes, rules are even submitted as standalone SIP revisions. When EPA approves a rule as part of Washington's SIP, the rule becomes "federally-enforceable." That is, if Washington does not implement the rule, EPA or citizens can step in and enforce the rule at the federal level.

---	---

**Program SIPs**

Some SIPs satisfy programs or parts of programs required by the Clean Air Act. The subjects addressed by these SIPs can be quite diverse. One example is the Motor Vehicle Inspection and Maintenance Program, more commonly known as the Emission Check Program. This program is required for carbon monoxide and ozone nonattainment areas. Other examples include the Washington State Visibility Protection Program and the 1998 Smoke Management Program.

**Updating the clean air plan for Spokane County**  
*Review and comment on the plan now through April 3, 2015*

Wood smoke is a common contributor to air pollution in Washington. Keeping air clean for everyone requires routine monitoring and careful management.

An updated clean air plan for managing pollution from solid-fuel burning devices like wood stoves, fireplaces, pellet stoves and fireplace inserts to protect air quality and public health in Spokane County is available for public review.

The Department of Ecology is seeking comments on Spokane Regional Clean Air Agency's updated plan that reflects changes made to local rules in 2014 for solid-fuel burning devices.

The proposed clean air plan for Spokane County allows air quality managers to issue burn bans at a lower threshold to help improve overall air quality. It also contains updated criteria for individuals to obtain an exemption to use solid-fuel burning devices during a burn ban.

After the public comment period has closed and comments have been reviewed, Ecology will submit the plan to the Environmental Protection Agency for approval. Once approved, the plan will be added to the statewide plan for protecting air quality.

Washington, along with other states, is required to maintain a statewide plan that ensures federal air quality standards are met.

Public comments on the plan are being accepted through April 3, 2015. Comments can be submitted by email to [AQComments@ecy.wa.gov](mailto:AQComments@ecy.wa.gov) or by mail to Joanna Ekrem, Washington Department of Ecology, P.O. Box 47600, Olympia, WA 98504-7600.

The public can request a hearing by contacting Joanna Ekrem by email at [joanna.ekrem@ecy.wa.gov](mailto:joanna.ekrem@ecy.wa.gov) or by phone at 360-407-6826. Requests must be received no later than March 23, 2015.

If a hearing request is received by the deadline, it will be held at 9:30 a.m. on April 2, 2015, at Spokane Regional Clean Air Agency office: 3104 E. Augusta Avenue, Spokane, WA 99207. If a hearing request is not received, Ecology will announce a cancellation of the April 2 hearing on its public involvement calendar.

## Public Comments Accepted on State Implementation Plan Update

[View All News](#)

Spokane Regional Clean Air Agency (SRCAA) is updating the Spokane County portion of the [State Implementation Plan \(SIP\) for Solid Fuel Burning Devices](#), including wood stoves, fireplaces, pellet stoves and fireplace inserts. The updates reflect 2014 changes to [SRCAA Regulation 1, Article VIII](#) and state law. The update to the [statewide plan](#) is designed to maintain compliance with federal air quality standards within Spokane County.

### The proposed SIP revision will:

- Update Spokane's solid fuel burning device regulations (SRCAA Regulation 1, Article VIII) in the SIP to reflect revisions to the rule in 2014
- Maintain compliance with federal air quality standards for particulate matter 10 microns or less (PM10)

In 1990, part of Spokane County was designated by the U.S. Environmental Protection Agency (EPA) as nonattainment for the federal air quality standard for PM10. Regulation 1, Article III, Solid Fuel Burning Device rule was first submitted to the EPA in 1994 for inclusion into the SIP to meet the PM10 standard. EPA issued a clean air determination that the area was in attainment with the standard in 2001, and was officially redesignated as attainment in 2005. The updated local regulation is included in the proposed SIP revision to help the area stay in attainment with the federal PM10 standard.

### Public Comments:

Ecology is accepting comments on:

- Should Ecology submit the revised SFBD rule to EPA for approval in Washington's SIP?
- Are the rules in the revised SIP adequate to help the area continue to meet air quality standards?

Public comments will be accepted through April 10, 2015. Comments can be submitted by email to [AQComments@ecy.wa.gov](mailto:AQComments@ecy.wa.gov) or by mail to Joanna Ekrem, Washington Department of Ecology, P.O. Box 47600, Olympia, WA 98504-7600.

### Public Hearings:

Two public hearings will be held on April 2, 2015, at Spokane Regional Clean Air Agency office: 3104 E. Augusta Avenue, Spokane, WA 99207. The first hearing will start at 9:30 a.m. and the second will start at 6 p.m. If you have special accommodation needs or require documents in alternative format, please contact Ecology:

- 360-407-6000 (voice)
- 711 (relay service)
- 800-833-6388 (TTY)

After the public comment period has closed, Ecology will consider all of the public comments received, and decide whether to submit the revised SIP to EPA. If Ecology submits the revised SIP to EPA for approval, EPA will hold its own public comment period.

**4/3/15- PUBLIC HEARING PRESENTATION - If you missed yesterday's two hearings, the powerpoint presentation is [here](#) (pdf).**

## Frequently Asked Questions:

*Updating Current Spokane Solid Fuel Burning Devices Rules in the Washington State Implementation Plan*

### What is Ecology doing?

Ecology is accepting public comment on a [proposed](#) State Implementation Plan (SIP) revision. The revision incorporates Spokane Regional Clean Air Agency's (SRCAA) [current rule](#) on solid fuel burning devices (like woodstoves and pellet stoves) to Washington's SIP. Ecology must submit this revision to the U.S. Environmental Protection Agency (EPA) for approval.

### What is the State Implementation Plan?

It is a tool for the EPA and the public to ensure the state and local clean air agencies do their job in safeguarding the air. States are required to develop a SIP to ensure the air is clean and meets the national standards. Washington's SIP is a compilation of:

- Ecology and local clean air agency rules.
- Technical data and analysis.
- Plans to clean up the air in areas of the state that do not meet national standards.

### How did SRCAA's solid fuel burning device rule change?

The 2014 changes to the rule help improve air quality and meet federal air quality standards for particle pollution (PM10 and PM2.5) in Spokane County. The focus was to:

- Align the process for calling burn bans with Washington State Law.
- Clarify the exemption criteria that allow the use of a solid fuel burning device during a burn ban.
- Meet EPA requirements.
- Improve air quality in the areas affected by pollution from solid fuel burning devices.

### Why is Ecology proposing to submit this revised SIP for approval?

SRCAA's 1994 rule on solid fuel burning devices is currently included in Washington's SIP. SRCAA revised this rule, found in Regulation 1, Article VIII, after a public comment period in 2014. The rule took effect September 2, 2014. Ecology is submitting the revised SIP for approval to meet EPA requirements and help the area meet health-based federal air quality standards.

**Subject:** Notice of Public Comment Period on State Air Quality Plan

March 2, 2015

### **Public Notice/Comment Period on State Air Quality Plan**

Ecology is seeking comments on a proposed revision to an air quality plan, called a State Implementation Plan (SIP). The proposed revision is to update Spokane Regional Clean Air Agency's revised regulations for solid fuel burning devices in the Washington SIP. This revision to the SIP is required to meet federal requirements from the U.S. Environmental Protection Agency, and is designed to reduce wood smoke emissions and maintain compliance with federal air quality standards within Spokane County.

You may review and comment on the proposed plan revision March 2, 2015 through April 3, 2015. The document is available for review at: <http://www.ecy.wa.gov/programs/air/sips/plans/infrastructure.htm>.

To comment on the plan revision or to request a public hearing:

- email [AQComments@ecy.wa.gov](mailto:AQComments@ecy.wa.gov)
- mail comments to: Joanna Ekrem, Air Quality Program, Washington State Dept. of Ecology, P.O. Box 47600, Olympia, WA 98504-7600

For more information or to request a public hearing, contact Joanna Ekrem at (360) 407-6826 or [joanna.ekrem@ecy.wa.gov](mailto:joanna.ekrem@ecy.wa.gov). Requests for a public hearing must be received by March 23, 2015.

If a hearing request is received by the deadline, it will be held at 9:30 a.m. on April 2, 2015, at Spokane Regional Clean Air Agency office: 3104 E. Augusta Avenue, Spokane, WA 99207. If a hearing request is not received, Ecology will announce a cancellation of the April 2 hearing on its public involvement calendar.

**Subject:** Comment period extended, hearings added for State Implementation Plan revision

March 20, 2015

**Public Comment Period Extended, Hearings Added  
on State Implementation Plan Revision**

The Department of Ecology is seeking comments on a proposed State Implementation Plan (SIP) revision. The revision incorporates Spokane Regional Clean Air Agency's (SRCAA) current rule on solid fuel burning devices (like wood stoves, fireplaces, pellet stoves and fireplace inserts) to Washington's SIP. Ecology must submit this revision to the U.S. Environmental Protection Agency (EPA) for approval.

Public comments on the plan are being accepted through April 10, 2015. Comments can be submitted by email to [AQComments@ecy.wa.gov](mailto:AQComments@ecy.wa.gov) or by mail to Joanna Ekrem, Washington Department of Ecology, P.O. Box 47600, Olympia, WA 98504-7600.

Two public hearings will be held on April 2, 2015, at Spokane Regional Clean Air Agency office: 3104 E. Augusta Avenue, Spokane, WA 99207. The first hearing will start at 9:30 a.m. and the second will start at 6:00 p.m.

If you have special ADA accommodation needs including materials in another format please contact Ecology at 360-407-6000. Washington Relay Service at 711. TTY (877) 833-6341.
