

Focus on Municipal Stormwater Permit Workshops

from Ecology's Water Quality Program

The Washington State Department of Ecology (Ecology) issued the municipal stormwater permits in January 2007. We are offering a series of introductory workshops in March 2007 in eastern and western Washington to review the permit requirements, answer questions, and provide one-on-one assistance. Registration for these introductory workshops is not required. For more information, please call Kathleen Emmett at 360-407-7386 or kemm461@ecy.wa.gov.

Agenda for workshops

With the exception of Mount Vernon and Lacey*, the agenda for all workshops will be:

From 9 a.m. – noon:

- A summary of Phase II permits.
- A discussion of schedules and timelines.
- Resources available.

From 1 – 4 p.m.:

- Questions and answers.
- One-on-one assistance.

* Mount Vernon and Lacey will have a municipal workshop in the morning and secondary permittee workshop in the afternoon.
