## EPP Questions to Ask Vendors

### Climate Change

- How can greenhouse gas emissions be reduced?
- Is the product manufactured locally?

### Toxic Chemicals

- Is the product less hazardous than similar products?
- What effect does the product have on air, soil & water quality?

### Independent Certification

- Is the product third-party certified?
- Are claims such as "green" or "recycled content" proven?

### Resource Conservation

- Does it conserve energy or water?
- Is it made from post-consumer recycled materials?

### End-of-Life Issues

- What happens at the end of the products' useful life?
- Can it be recycled?
