

Fiscal Year 2010 Workshops for Water Quality Funding Programs

The Washington Department of Ecology (Ecology) invites you to participate in public workshops during September 2008. Ecology staff will discuss and help you with the water quality loan and grant application process for state fiscal year 2010 (FY 2010). This workshop also includes two concurrent afternoon breakout sessions to provide specific technical assistance for nonpoint activity projects and facility projects.

Funds will be available from the Centennial Clean Water Fund, the federal Clean Water Act Section 319 Nonpoint Source Fund, and the Washington State Water Pollution Control Revolving Fund programs. **Applications for funding consideration will be accepted from September 1 through October 31, 2008.**

Please register for the workshop of your choice by Friday, August 29. Contact Alice Rubin by e-mail at arub461@ecy.wa.gov or by phone at 360-407-6429.

PLEASE NOTE: If you are considering submitting an application for a nonpoint activity project and a facility project or your project has both an activity and facility component, consider having two representatives attend in order to cover both of the afternoon breakout sessions.

Copies of the application materials and other information about the funding cycle will be posted at www.ecy.wa.gov/programs/wq/funding/indexfunding.html

If you have special accommodation needs or have questions regarding the workshops, please contact us at 360-407-6502, no later than one week before the workshops. Persons with hearing loss can call 711 for Washington Relay Service. Persons with a speech disability can call 877-833-6341.
