

Boat Fueling BASICS

Fuel spills have devastating impacts on fish and wildlife.

To Avoid Spills

- Shut off all engines during fueling.
- Know the fuel capacity of your tank.
- Fill only to **90%**. Do **not** top off.
- Use an absorbent pad to catch drips.
- Avoid all distractions.

If You Spill

- Stop fueling.
- Notify the fuel or marina attendant.
- Use absorbent pads to contain and clean up the spill.
- Never use soap on spills. It is illegal and damaging.
- Call **800-OILS 911** and the U.S. Coast Guard at **800-424-8802**. **It's the law.**
