

Specialty Minerals, Camas

Opportunity to comment

The Department of Ecology invites you to comment on the proposed reissuance of the Specialty Mineral, Inc. Camas location's State Waste Discharge Permit (SWDP).

We will accept comments by mail, fax or e-mail November 4 – December 7, 2011. You may request a public hearing to ask questions or submit verbal comments. To request a hearing, contact:

Angie Fritz
Industrial Section
P.O Box 47706
Olympia, WA 98504-7706
angela.fritz@ecy.wa.gov
(360) 407-7393

If we determine there is significant public interest during this comment period to hold a hearing, we will:

- Extend the comment period to allow at least 30 days notice of the hearing.
- Publish the time, date and location.

Permit

The plant discharges treated process wastewater to Georgia Pacific's Camas mill wastewater treatment system. The wastewater is then discharged to the Columbia River through Georgia Pacific's outfall 001.

The current permit expires November 10, 2011 and remains in place until renewed. The proposed permit renews the conditions of the current permit, with no changes.

DATES AND LOCATIONS

Comment period

November 4 – December 7, 2011

Read the proposed permit at these locations:

Ft Vancouver Regional Library
1007 E Mill Plain Blvd
Vancouver, WA 98663

Dept of Ecology
Industrial Section
300 Desmond Way SE
Lacey, WA 98504

Online at:

Teddy Le, P.E.
Industrial Section
P.O Box 47706
Olympia, WA 98504-7706
teddy.le@ecy.wa.gov
Fax: (360) 407-6102

Special accommodations

If you require special accommodations or need this document in a version for the visually impaired, call the Waste 2 Resources Program at (360) 407-6900.

Persons with hearing loss, call 711 for Washington Relay Service. Persons with a speech disability, call 877-833-6341.

A SWDP is normally issued every five years. It:

- Sets limits on the kinds, amounts and concentrations of pollutants a facility may release.
- Requires a facility to measure, test and report its pollutants.
- Prescribes “best management practices”.
- Defines the pollution control standards applied.

Public comment allows you to:

- Tell us how well the proposed permit protects receiving water.
- Suggest changes to limits, conditions and requirements.

When the comment period ends, we review all comments received and make appropriate changes to the permit before issuing it.

Facility information

Specialty Minerals, Inc. operates a plant for the manufacture of precipitated calcium carbonate at 220 NW 20th Ave in Camas, Washington.
