

Notification Form: Portable Sources and Non-Road Engines

Instructions: Use this form to notify Ecology when you move portable sources with existing Ecology air quality permits; and/or non-road engines from one location to another within Ecology's jurisdiction. Answer all the applicable questions on both pages, sign and date the form, and submit it to the appropriate regional office or, if paying fees, to Ecology's Cashiering Unit in Olympia.

Portable Rock Crusher

Plant Name: _____

Will your equipment be located at least 150 feet from the property line? Yes No

Production: Quantity of material to be produced: _____ tons of crushed rock

Portable Concrete Batch Plant

Plant Name: _____

Type of processing: In transit mix (truck mix) Central mix

Will your equipment be located on at least one acre of property? Yes No

Production: Quantity of material to be produced : _____ cubic yards of concrete

Non-Road Engines

Check if using line power

What is the total horsepower output of all non-road engines (e.g. power generators) for this project?

_____ **Total horsepower**

Note: This section must be filled out if using non-road engines such as power generators with a cumulative horsepower rating between 500 and 2000 horsepower. If cumulative engine horsepower is greater than 2000, Ecology approval will be required prior to start of operations. If applicable, please fill out the application form for non-road engines greater than 2000 horsepower. You will be billed at a rate of \$95 per hour to process the required approval.

Engine #1

Function or Purpose: _____

Equipment Manufacturer: _____

Model Number: _____

Serial Number: _____

Engine Model Year: _____

Type fuel used: _____

Engine #2

Function or Purpose: _____

Equipment Manufacturer: _____

Model Number: _____

Serial Number: _____

Engine Model Year: _____

Type fuel used: _____

All non-road engines must use ultra low sulfur diesel or ultra low sulfur bio-diesel (a sulfur content of 15 ppm or 0.0015% sulfur by weight or less), gasoline, natural gas, propane, liquefied petroleum gas (LPG), hydrogen, ethanol, methanol, or liquefied/compressed natural gas (LNG/CNG). If using more than two non-road engines, please attach the above required information for each additional engine.
