

Fact 1:

It's very easy to recycle mercury thermostats.

Fact 2:

It's something you gotta do, because it's the law.

Drop mercury thermostats off at your local HVAC wholesaler.

That's all you have to do to make sure the thermostat is properly recycled. Next time you complete a job, hang onto the thermostats you remove and visit www.thermostat-recycle.org to find the drop-off site near you. The service is free and it helps us help you protect the environment.

Recycle thermostats through the TRC.
It's smart and easy. Very easy indeed.
