

# Caution. Danger. Warning. Poison.

## These four words are on the labels of many products we use in our homes and businesses and are considered hazardous.

Help protect the health and safety of our disposal workers and the environment-- safely dispose of old or unwanted hazardous products.

### Remember: Never pour excess hazardous waste down any drain or sewer or dispose of it in the garbage.

## Free, safe and convenient disposal

### Snohomish Household Hazardous Waste Drop Off Station
