

Green Your Home with Free Workshops

Green Building & Remodeling

Monday, October 8, 2012, 6:00–8:00 PM

- **Create a climate-friendly home:** Learn about local resources and national trends in green building. From purchasing a green home to simple strategies for greening a room in your existing home, we will cover it all.
- **Local expert shares local success stories:** Patti Southard, a founder of the Pacific Northwest's green building movement, will share her expertise and local examples of successful green projects.
- **Incorporating recycling and recycled materials:** Get ideas on how to use recycled or reclaimed materials. Plus, recycling options for windows, carpet, wood and more!

Home Energy Solutions

Monday, October 22, 2012, 6:00–8:00 PM

- **Conservation makes \$ense:** Learn no-cost and low-cost “do-it-yourself” energy conservation measures.
- **PSE offers and expertise:** Puget Sound Energy experts explain available rebates, grants and promotions.
- **Alternative energy solutions:** Hear what's new, what works and what doesn't work for anyone considering alternative sources.

All classes
are held at:
City Hall Chambers
33325 8th Ave S
Federal Way, WA 98003

*Door Prizes & Giveaways
Light Refreshments*

Healthy Homes & Gardens

Monday, October 29, 2012, 6:00–8:00 PM

- **Green cleaning:** Learn money-saving ways to clean and solve issues due to mold/mildew, paints, pest-controls and aerosols.
- **Clear out the hazards:** Identify and safely dispose of leftover hazardous products labeled danger, warning and caution for free!
- **Putting natural back in nature:** Hear practical natural yard care advice and how to avoid products that can harm your family and pets.
