Recycling Ambassador Program

A partnership supporting successful resident recycling in apartments, condos, and mobile home parks.

It's Easy! Recycle More in Four Steps

1 Select your onsite Recycling Ambassador

This person could be the property manager, onsite manager, or one or more enthusiastic resident(s).

Recycling Ambassadors for your property will be your onsite recycling champions. Their role is to give recycling flyers to all residents, and make sure garbage and recycling containers are labeled clearly, and that garbage and recycle posters are maintained where residents can see them.

Recycling Ambassadors will be invited to attend a WM Recycling Ambassador Bootcamp. This fun and interactive "Recycling 101" workshop will be offered several times a year.

2 Sign up your property for the Recycling Ambassador Program

To sign up for the program, email the name and address of the property, your name and your daytime phone number to **recyclenw@wm.com**, using the subject line "Recycling Ambassador Program."

Don't have email? You can also register for this program by calling 1-800-592-9995 and asking for a Recycling Ambassador Program application. This will be mailed to you.

3 Schedule a site visit with a Waste Management recycling expert

Our experienced staff will walk the property with your Recycling Ambassador, conduct a visual audit of garbage and recycling, and review the property's current service bill to make recommendations on how to increase recycling and decrease garbage costs.

4 Deliver recycling guides and tote bags

The Recycling Ambassador will deliver recycling guides and tote bags to all residents and place recycling and garbage posters above or near all containers on your site.
