Vancouver, WA; Clark County

RE: Coverage under the Industrial Stormwater General Permit

Dear Mr. Leahy:

The Washington State Department of Ecology (Ecology) has reviewed your application for coverage under the Industrial Stormwater General Permit (permit). We are granting coverage under the permit as of September 24, 2013. Retain this letter with your permit. It is the official record of permit coverage for your facility.

Monitoring Requirements:

This permit requires sampling and analysis of stormwater discharged from your facility. Please carefully read this letter, the enclosed Summary of Coverage document, and the attached Discharge Monitoring Report (DMR). You are required to submit a DMR within 45 days of the end of each reporting period, even if stormwater was not discharged or sampled. Your first sampling period will be the 3rd Quarter (July, August and September) of 2013) and your first DMR must be submitted by November 14, 2013.

1. All permittees are required to sample for turbidity, pH, total zinc, visible oil sheen, and total copper.
2. Certain facilities may be required to sample for additional parameter(s) based on industrial processes, receiving waterbodies, and/or Ecology-ordered additional sampling.

Appeal of Permit Coverage

You have a right to appeal the terms and conditions of a general permit, as they apply to an individual discharger, to the Pollution Control Hearing Board (PCHB) within 30 days of the date of receipt of this letter. This appeal is limited to the general permit's applicability or non-applicability to a specific discharger. The appeal process is governed by chapter 43.21B RCW and chapter 371-08 WAC. "Date of receipt" is defined in RCW 43.21B.001(2).

To appeal, you must do the following within 30 days of the date of receipt of this letter:

- File your appeal and a copy of the permit cover page with the PCHB (see addresses below). Filing means actual receipt by the PCHB during regular business hours.
- Serve a copy of your appeal and the permit cover page on Ecology in paper form - by mail or in person (see addresses below). E-mail is not accepted.

You must also comply with other applicable requirements in chapter 43.21B RCW and chapter 371-08 WAC.

Address and Location Information:

Street Addresses:

Department of Ecology

INDUSTRIAL STORMWATER GENERAL PERMIT

A National Pollutant Discharge Elimination System (NPDES) and State Waste Discharge
General Permit for Stormwater Discharges Associated With
Industrial Activities

State of Washington
Department of Ecology
Olympia, Washington 98504-7600

In compliance with the provisions of
The State of Washington Water Pollution Control Law
Chapter 90.48 Revised Code of Washington
and
The Federal Water Pollution Control Act
(The Clean Water Act)
Title 33 United States Code, Section 1251 et seq.

Until this permit expires, is modified or revoked, Permittees that have properly obtained
coverage under this general permit are authorized to discharge in accordance with the special and
general conditions which follow.

Kelly Susewind, P.E., P.G. Manager
Water Quality Program
Washington State Department of Ecology
