Hello Marc,

I greatly apologize for the delayed response to this TW donation request. It looks like the TW donation letter was drafted, but never finalized. Sage is out of the office this week. I'll check with her next week and get back to you.

If you don't hear from me by the *end of next week*, please feel free to contact me.

Thank you for your patience.

Teresa Mitchell | WA Department of Ecology | CRO Water Resources Program | 509-575-2597 | Fax 509-575-2809

Teresa,

Can you provide me with a letter regarding the attached trust app? It was originally intended as a one year transfer. However, I don't believe we ever received confirmation that the trust donation was approved.

Regards,

Scott,

No worries. Our meeting concerned a different subject regarding the formation of the Greater Bar Water District. The Trust application is something we only discussed over the phone. **Yes, please amend the application to reflect a temporary donation of a portion of the water right to trust as described.**

Thanks,

Marc A. Marquis

Marc,

I do remember meeting with you a few months ago, but, unfortunately, do not recall most of the details of our conversation. I would have hoped that I explained to you that a donation can be for a temporary term. In fact about 99% of our donations are temporary. The "other" category is usually used for the types of trust that don't fit into the traditional categories outlined in the statues like a purchase, lease, donation or gift. The most common use for the "other" category is used for water banking which usually requires conditions beyond the scope of a simple donation, but is not limited to that use. I do want to confirm that your client wishes to temporarily donate the water right before I amend the application.

Scott,

Thank you for your prompt response. If you recall, we discussed the intent of this application several months ago. At that time, you alerted me to your confusion over my selection of "other". As you may recall, I informed you I marked other b/c our client's intent is a temporary transfer to trust versus a permanent donation. This is explanation already provided on the line immediately below the box checked other. Therefore, no amendment should be necessary. If it is, please interpret this email as the necessary amendment.

In regards to supporting documentation. We forwarded this document to our client for signature and they unexpectedly mailed it directly to DOE on their own after signing. I assumed they had provided you with the attached documents which we intended to submit together on their behalf. Please let me know if you have any additional questions.

Best Regards,

Subject: TW Application # CG4-GWC03012

Marc,

Teresa forwarded your voicemail to me requesting the status of the above referenced Trust Water Right Application. First of all it wasn't on my radar because the application is marked as "other" and I believe you intended to mark "donation". So, I have one question and a comment about the application.

Did you actually want to apply for a temporary donation of a portion of Ground Water Certificate No. 03012?

And in either case, there was no documentation submitted with the application. Documentation can come in many forms, such as metering data, aerial photography, crop records, power records etc. Basically, if this is a donation, we will need to have some evidence of the extent the water right has been used within the last five years. Also if this is really a donation we will need a written request to amend the application. I have attached a copy of the application for your convenience. Feel free to call or email back if you have any questions. Thanks.
