

MEMO

To the files
From Kelsey Collins
May 28' 2015

We received an application for emergency groundwater use on 510 acres that would be supplied by a well referred to as the Crosby well. It is in the NENE of Section 13, T9, R24. This well also serves Cert G4-29610C. The POU for this cert is not among the 510 acres requested.

Three previous drought authorization #'s have been authorized for this well: G4-34967, G4-32954, and G4-32952. Some of the POU's authorized in these past authorizations overlap with the new request, but not all.

We are choosing to authorize this new request under G4-34967. A copy of the pre-application and this memo will go in the other files.

Right - Pete asked me to go ahead and email the applications that have Reed McKinlay's signature on them. I will forward the signed pages when we get all of the legal owners signatures.

Janet

Hi Janet,

Thank you although this application still needs a signature from the legal Land of the proposed place of use.

Teresa
