We own all the land where water is used and are the only user from our pump station. Some of the land within the certificate place of use was sold years ago. We need this seasonal change in advance of the 2012 season due to the removal of Condit Dam. We anticipate completing a permanent change in the near future and will conform the place of use to our land ownership at that time. At this time the only change is the source location, which is made necessary by the removal of Condit Dam.

Please attach copies of any documentation that demonstrates consistent, historical use of water since the right was established. This may be included in your irrigation plan.

5. REMARKS AND OTHER RELEVANT INFORMATION:

Pacificorp is removing Condit Dam and has agreed to re-locate our pump station which currently diverts water from Northwestern Lake (dam impoundment). We have permanent crops which require water and so are requesting an expedited approval for these source location alternatives in advance of the 2012 irrigation season. We are currently working on narrowing the alternatives to a preferred pump site. At this time we request approval for the enclosed sites, to allow us some flexibility in case any of them prove unworkable.
