RE: Trust Water Right Application for S4-59009(B)JC

Dear Gary:

This letter accompanies a Trust Water Right Application for a water right owned by Kirby and Darla Hoyt. The attached application is for water right certificate S4-59009(B)JC. The certificate is appurtenant to parcel 222024430150. The purpose of the donation to the Trust Water Rights Program is to protect the water for up to two years. The landowner's do not have plans to use the water in the 2010 and 2011 irrigation seasons and want to protect the water instream in Cummings Canyon Creek and the Columbia River to the confluence with the Pacific Ocean. The water designated in this donation does not include the water associated with any other parcels within the place of use for S4-59009(B)JC. If future plans for the water are determined for the property prior to the end of the donation, then the water designated in this Trust Application will be removed from the Trust Program and returned to the landowner with a 30 day notice.

Location

The irrigated acreage is located in Chelan County as described on the water right and property deeds.

Water Right Information

Water right Certificate S4-59009(B)JC was issued on September 21st, 1967. The certificate authorizes diversion of 0.47 cubic feet per second and 112 acre-feet per year for irrigation of 28 acres. The Hoyt's currently irrigates 13.75 acres under the POU for Certificate S4-59009(B)JC. The period of use is from April 15th to October 1.

Attachments

We have attached the following documents to support this application:

- Trust Water Right Application

- Copy of the Certificate
- Property deeds with legal descriptions
- Aerial photographs showing the historic place of use

This project will improve conditions for salmonids species in the Columbia River. Increased use of ground and surface-water supplies in watersheds of Washington State has an impact on fisheries and this donation will help improve flows in the Columbia River. This project will temporarily put water in Trust, creating a benefit for fish and wildlife. Since this donation is providing increased habitat for fish we request expedited processing under WAC 173-152-050(3) (a).

We look forward to working with you during the processing of this Trust Water Right Application. Please contact me with any correspondence related to this Trust Water Right Application.

Sincerely,

Aaron Penvose
